Why Clothes Wilt

You know that the Tailor's Goose,-that is, the Hot flat-iron, -plays an important part in the Tailor's CRAFT.

You have bought and paid for more than one suit that looked spick and span as long as the Sun smiled.

Then it rained, and your suit lost its fresh, nice appearance. Mysterious humps appeared. Wrinkles came. Fabric seemed to wilt. You sent it to the tailor's to be "pressed out." Good old Dr. Goose. He was responsible for the trouble in the first place; but he will always

fix things up-for a Consideration. Why? Because the delects that occur in making clothes are hidden temporarily by shrinking or stretching by cunning old Dr. Goose. He hides these faults even from the eyes of the retailer; until he has sold you, and you have been sepa-

rated from your good money. If you complain, you will be told that that can be pressed out." Yes! old Dr. Goose will keep on doping your clothes as long as you're willing to pay for it. Dr. Goose is Family Physician for eighty per cent of all clothes—but you can break away from it all, and get your Insurance Policy in the label of SINCERITY CLOTHES.

The great initial Difference is in the manner of Making. Our Sincere Tailoring means that OUR clothes-errors, made by our tailors are corrected by Hand-Needle-Work of the old fashioned kind. We don't believe in resorting to Flat-iron Deceit. Of course the Flat-iron way is cheaper, but our Hand-Revision results in garments that retain their shape and style until worn threadbare. And they need very little pressing, if any at all, during their life.

Now, that you know the difference, Mr. Clothes-Buyer; see that you profit by it. If you value Shape-Insurance as well as Style, see that your next clothes-purchase carries the SINCERITY label. If you can't find it, we'll tell you where you can find a SINCERITY dealer. This is the label:-

Entire Nebraska Delegation Demands that Mathews Be Heard. WASHINGTON, Dec. 9 .- (Special Telegram.)-The Nebraska delegation-and that means every member of the delegation-had a conference today with Attorney General Moody in relation to the order of the president dismissing T. It seems fair to say that not in years has there been such a compact agreement that hasty action was taken as in the case of Mr. Mathews. The attorney general said the removal of Mr. Mathews was an executive action, and that the president only could decide the
