

WILL BE NO EXTRA SESSION

Governor Decides Against Calling the Legislature Together.

DOUBTS DESIRED RESULTS WOULD FOLLOW

Constitutional Convention the Best Remedy, but Expense Too Great in View of Present Size of State Debt.

(From a Staff Correspondent.)
LINCOLN, Dec. 9.—(Special.)—Today Governor Mitchell issued a statement in which he declares that in his judgment there exists no sufficient reason for calling the legislature together in special session. He states that he is in favor of certain constitutional amendments, but he does not believe that the electors would adopt them if they were submitted, and on that ground he declines to call the legislature together in special session. He advocates, by way of preference, a constitutional convention as an efficient means of securing changes in the organic law, if it were not for the magnitude of the state debt.

While the governor has been known to favor maximum freight rate legislation this authorized statement goes further and is more explicit than any previous utterance. His suggestion that the executive be given power on his own motion to bring an original action in the supreme court to enforce equitable and reasonable freight rates is intended to expedite hearings and prevent the delay involved in an appeal. It is believed that the suggestions of the statement given out today will be embodied in his message to the next legislature.

Statement of Governor.
 The statement follows:
 In my judgment there exists no sufficient reason for calling the legislature together in special session for the purpose of amending the constitution or for any other purpose to which my attention has been called up to the present time. In view of the experience Nebraska has had in voting on proposed amendments to the constitution no one can reasonably hope to see the amendments carry at the next general election. It is acknowledged that in favor of amending the constitution in a number of particulars, I do not feel justified in putting the state to the expense of submitting the proposed amendments. The method of proposing amendments in this state and I know of no greater reason to hope for its success next year than in previous years, while the constitutional amendments have been defeated.

The holding of a constitutional convention would be the better way of accomplishing the desired changes in the organic law, but owing to the magnitude of the state debt I would not for a moment entertain the idea of calling such a convention. It is in my opinion that the best way to reduce the debt and when it has been paid off, or brought down to reasonable bounds, is to call a constitutional convention, with its attendant heavy expense, might be considered with propriety.

If the legislature were to be called I should submit to it other matters as well as amendments. The state is in need of better and safer insurance laws. It is in need of an anti-combination, or trust, law which does not contravene itself and is easy of enforcement. It is in need of railway regulation. A law especially needed is one which will provide, not for a commission to hear, postpone and bury complaints, but a law to fix rates and a law which will empower the state in its own name, to bring an action originally in the supreme court, in the name of the state, to enforce equitable and reasonable freight rates. It is idle to talk about having an elective railway commission when the legislature has the power under its constitution to provide for railway regulation and to authorize its executive officers, or some of them, to enforce its provisions. The executive officers are elective officers and as such, the proposed railroad commission would be.

As I view it, the power to convene the legislature for the purpose of amending the constitution conferred upon the governor for the purpose of meeting extreme emergencies, such as those which have recently occurred, is a power which I would not be justified in adding to the state's burden of debt by calling a special session of the legislature for the purpose of such amendments as have been under discussion. These are matters which can be better handled by the legislature in its regular session. At that time a new legislature, directly from the people, will be in session and its executive officers, more definitely expressed relative to the questions at issue.

Charged with Blackmail.
 Tonight City Detective Malone arrested J. E. Jewell, a stationary engineer, on the charge of attempting to blackmail the proprietors of the Lindell hotel, out of \$500. The police have in their possession the letters written to the hotel owners over the signature, A. L. G. Forefinger, demanding that five \$100 bills be sent him through the general delivery with the alternate of having blackmail made by the authorities of alleged illegal dilution of liquor sold at the bar. A decoy letter was sent in reply and waiting policemen arrested Jewell, who appeared at the postoffice this evening with an order signed A. L. G. Forefinger, requesting the delivery of the mail.

CORN CARNIVAL IS SUCCESS
 Prizes Awarded and Boys and Girls from Coe's Organized Club.
FREMONT, Neb., Dec. 9.—(Special.)—The corn carnival closed yesterday afternoon with the awarding of prizes. Willis Hartwig of District 45 was given the first prize of \$5 cash. Samuel Brunner, District 59, second, a cultivator valued at \$11, and Alexander Birely of District 33, third, a phonograph valued at \$5. A total of seventy-four prizes was awarded the school competitors. Prizes were also awarded the general corn exhibits. Clair Wilcox won the first prize for cereal made of corn, \$9 in cash, his entry being a map of Nebraska. Mrs. R. Johnson, a colored woman, won the first prize of \$10, for articles of food made of corn products, with an exhibit of twenty-one kinds. Her food attracted much attention.

An organization of the Dodge County Boys' Corn club was effected with Joseph Jones of District 66, president; W. Lloyd France of District 53, vice president; and Prentice Goebel of District 5, secretary. All of the 50 boys who competed for prizes were made members. A Domestic Science club, composed of the girls in the country schools, was also organized, with Caroline Christensen of District 73, president; Ann Recker of District 58, vice president; and Minnie Nelson of District 2, secretary.

J. C. Tolliver for Receiver.
AINWORTH, Neb., Dec. 9.—(Special.)—Citizens of Brown county were greatly surprised by the removal of the officials of the land office at Valentine. The prevailing sentiment is that the removals should be traced to where they belong, but surprise is expressed that two such highly respected citizens should have been implicated in the land frauds. Among several others, the name of J. C. Tolliver is prominently mentioned as a good republican who would ably fill either office.

Charged with Stealing Horses.
TRKAMAH, Neb., Dec. 9.—(Special.)—Sheriff L. D. Phillips this morning captured Jess Headley, wanted on a charge of horse stealing at Blair. The prisoner had stolen two horses from his father, Jake Headley, a farmer living two miles north of Craig. The first of the stolen horses had sold one of them to Mr. Akina, aiveryman at Decatur, and the other to Tom Crawford, a

tion of the stricter rule as to the care for property, which has been enforced by the adjutant general.

Had Squirels.
 Game Commissioner Carter will institute proceedings against the Omaha Cold Storage company because his deputies found five dead squirrels on the premises of the company. The suit will be brought under the provisions of the new law, which forbids the killing or possession of squirrels at any season of the year.

New Link for Burlington.
 Today several copies of the articles of incorporation of the Beaver Valley & Denver Railroad company were filed in the office of Secretary of State Galusha. The articles provide for the construction of a line from St. Francis, Kan., to a point on the main line of the Burlington in Yuma county, Colorado. The articles specify that the line shall run through Sanborn, Dundey county. It is a Burlington project calling for the construction of thirty-eight miles of line. The capitalization of the corporation is \$400,000. The completion of the road will give the Burlington main line a shorter route between Yuma county and Orleans, thus enabling it to avoid the difficulties and delays due to the heavy freshets in the Republican valley. During the summer the heavy rains caused much delay in the movement of trains.

The filing of the certified copy of the articles and the acceptance of the Nebraska laws to enable the corporation to exercise the right of eminent domain.

Joint Summer Schools.
 This evening representatives of nine colleges and universities met and agreed to hold a joint summer school for six weeks beginning June 12, at the State university and Wesleyan university. Each of the minor institutions will send an instructor to Lincoln or University Place, where the meetings will be held, and the students will come here. The arrangement is expected to greatly strengthen the summer school work of the colleges, by enabling teachers, who must comply with the certification law.

The following institutions are in the arrangement: State university, Wesleyan university, Creighton college, Grand Island college, Hastings college, Cotner university, Doane college, York college and Buell college.

Father Dowling of Creighton college was present, but G. M. Wadsworth of Bellevue was unavoidably absent. State High School Inspector Hodgeman started the project.

GIVE YOUR STOMACH A NICE VACATION

Don't Do It By Starving It Either—Let a Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and rebels against being taxed beyond its limit, the only sensible thing you can do is to give it a rest. Offer a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would do it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and do just the same work as the natural fluids would do were the stomach well and sound. They, therefore, relieve the stomach, just as one workman relieves another, and permit it to rest and recuperate and regain its normal health and strength.

This "vacation" idea was suggested by the letter of a prominent lawyer in Chicago. Read what he says: "I was engaged in the most momentous undertaking of my life in bringing about the coalition of certain great interests that meant much to me as well as my clients. It was not the work of days, but of months. I was working night and day, almost when at my very critical time my stomach went completely back on me. The undue mental strain brought it about and hurried up what would have happened later on.

"What I ate I had to literally force down, and that was a source of misery, as I had a sour stomach and what went down did not reach the stomach. My food would lead me to sleep and I began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to me.

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever did, and as a rest or vacation was out of the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and my stomach was back on me with my work with renewed vigor, as if just so much as I ever did and carried out that undertaking to a successful issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsomest fee I ever received, as well as my reputation. The last of this check is my thanks to Stuart's Dyspepsia Tablets for sale by all druggists at 50 cents a box.

HOMER ROAD GETS MORE TIME
 Brokerage Company is Granted Until January for Investigation.
DAKOTA CITY, Neb., Dec. 9.—(Special.)—The Great Western Brokerage company of Topeka, Kan., made application to the Board of county commissioners of this county by letter, which was taken up for action today, in which they ask the commissioners to extend the franchise granted the Sioux City, Homer & Southern Railway company, which franchise has been expired for two months, or allow said brokerage company until January next time to further investigate matters, with the assurance that if this is done the road will then be built and put in operation the entire way. The brokerage company, in its letter, states that it negotiated for the bonds of the railway company through Messrs. Smiley & Talbot and have already invested considerable money and obligated themselves for considerable more, but that they have not had sufficient time to fully investigate the financial condition of the railway company which they feel they should do before entering fully into the project. The commissioners granted the request.
