ness developed in the wheat marset. During the first hour feeling in the pit was builtsh. May opened 140% higher at 83% of the pit was builtsh. May opened 140% higher at 83% of the pit was and shorts the price rose to 89%. A report from Argentina that weather was not entirely favorable for harvesting was one reason for the firmness. Another was reports of drouth in India. As the session advanced offerfugs increased in volume. Much of the selling was done by commission houses with northwestern connections. This selling pressure was due to a belief that the railroads would be able to furnish cars in the near future, which would result in a largely increased supply. Later the market was further weakened on reports that export demand was very light. Increased primary receipts furnished additional encouragement to the bears. During the day the price of the May option declined to \$39,5685%. The market closed weak with May at 85%. Cleurances of wheat and flour were equal to 191,000 bushels. Primary receipts were 194,000 bushels compared with 99,000 bushels.

Chicago reported receipts of \$32 cars against 248 cars last week and 570 cars one year ago.

Email local receipts held the corn market steady early in the day, but selling by cash houses and pit traders soon caused a decline. Weakness of wheat, an estimate of liberal receipts for tomorrow and lower prices for cash corn induced the selling. The market closed weak with prices practically at the lowest point of the day. May opened a shade to 5c higher at 44% to 44% 44%, c sold off to 43% 44% c local receipts were 280 cars with 4 of contract grade.

Onis were influenced by the break in wheat and corn. Cash demand was less brisk ahd local receipts were larger, arrivals today being 101 cars. May opened a shade to 5c higher at 32% 32% to 33% c to 33% c declined to 23% and closed at 33% c.

Despite an advance of 5c in the price of live hogs, the provision market was wask. The feature of trading was selling by packers. The greatest pressure was on pork, and that commodity showed the most weakness. At the close May pork was off 17% at \$13.22% Lard was down 10c at \$7.22%. Ribs were 7% lower at \$7.07%.

HOGS.—The receipts of hogs today were fairly liberal, 128 cars—about 9,300 head—being reported in. The receipts for the first three days of this week were 24,309 head, which is about 1,000 head smaller than the run for the corresponding three days last week. On the other hand, the run this week is larger than the same week one year ago.

The market opened this morning with sellers generally holding their hogs about a dime hisher than yesterday's prince. Naturally, the trading was slow for a time, but later opened brisk and fairly active, with buyers bidding mostly a nickel higher. There was considerable trading done at this increase over yesterday. The offerings were rather late in setting in and stock came drasging in all during the forenoon. The market closed with trade reasonably active and a good 5c higher in most cases. The bulk of the hogs was sold at 44.874694.50.
