NEW YORK STOCKS AND BONDS

Market Threwn Into Spasm of Fright by Chicago Bank Failures.

AND LOSS OF CORNEL STATE OF THE STATE OF THE

measures taken by the Chicago clearing house and the insurance against loss of the depositors of the banks gave strong hopes that the consequences would be localized and restricted. There was nothing to show that any New York interests were affected. The stock market view of the affair was founded more upon the possible effects of the failures upon general business confidence and the standing of credits. Credits are heavily expended and bank reserves are low and the persistency with which the consequences of the state of affairs are ignored especially the high rates for money, is due to the universal confidence in the soundness of these outstanding credits. The shock now given to confidence arouses a dread that some conconfidence arouses a dread that some con-traction of credits will be forced and the extension of credits will be forced and the extension of enterprise hampered by a suspiction of the soundness of the business fabric. Money continued strong in this market, but eased off later in the day in spite of remittances to Chicago. Foreign exchange was also strong for remittance by the last steamer available for end-year MONEY-3424

NEW YORK, Dec. 18.—Closing quotation on mining stocks were as follows: Adams Con Alice Breece LONDON, Dec. 18.— Supplies of money were further curtailed in the market today by the transference of \$50,000,000 of Japanese funds to the Bank of Engiand, on which the bank is entirely dependent. Discounts hardened, but business was meagre, owing to the stringency of money. Prices on the stock exchange were heavy, dominated by the state of affairs in Russia and the monetary situation. Business was slack. Consuls eased, but railled a fraction at the close. Home rails dropped. Americans were weak, especially Union Pacific, There was an all around decline during the last hour, and prices closed flat. Grand Trunk was steadier, despite the latest earnings. Foreigners were depressed, led by Russian 4s, which recovered to \$94, Japanese became firmer, but closed below the best quotations of the day. Japanese imperial 6s of 1904 were quoted at 162. CATTLE. The receipts of cattle today were moderate, 163 cars, about 5,000 head, being reported in. This is about 900 head, smaller than the run for the same day last week, while on the other hand it is about 2,000 head larger than the same day one year ago.

There was only a small number of beef

There was only a small number of beef steers on the market foday, while there was a moderately good demand for this kind of cattle on the part of the packers. The quality of the offerings was, generally speaking, only ordinary. There was not a very active movement to the market, in fact, it was almost slow. Prices were in practically the same notches as at the close of last week.

The supply of cows and helfers on the market this morning was of moderate proportions. As was the case with the steers the quality of the offerings was only fair. There was a fair demand for cow stuff, but buyers were backward in taking hold, with the result that the movement of the stock was decidedly slow. Prices were generally weak and lower.

reak and lower.

The large portion of the receipts this norning consisted of stockers and feeders, there were quite a number of country buy-rs in. Trading was slow, with prices

teady to strong. Representative sales: BEEF STEERS Av. Pr. Ne. 1240 4 60 40. 1352 5 65 COWS.

HOGS-Receipts of hogs were moderate HOGS-Receipts of logs were moderate today, sixty-three cars, about 4.300 head, being received. The run is a trifle smaller than for the same day last week, but on the other hand it is about \$90 head larger than for the corresponding day last year. The market opened with prices in most cases a nickel higher than Saturday's close. Trading at the opening was rather slow; later, however, it became a little more active, but at no time could it be called particularly active. There were no special features to the market. Receipts were hardly ticularly active. There were no special fea-tures to the market. Receipts were hardly up to expectations, which, fact, coupled with the wants of the packers, aided in forcing prices up. Good choice heavyweight hogs were given the preference all during the day and a few loads of this kind sold early for \$4.85, the top. The bulk of the offerings brought \$4.8024.824. HOGS GENERALLY FIVE CENTS HIGHER SHEEF-There was a rather light ran of sheep on the market today, seventeen care-shout two head-being reported in up to noon. This is somewhat lighter than the run for the first day of last week and is only about half the size of the receipts for the corresponding day tast year temperally speaking the quality of the offerings was only fairly good, with the exception of a couple of loads of Colorado lambs. The most of the stock was in in good season, with the result that the trading began early.

son, with the result that the trading began carly.

The packers were evidently wanting a supply of desirable killing sheep and lambs and at prices that in most cases were fully steady with Saturday's close. Buyers were out in the barns at an early hour and desirable killing stuff was bought in some cases almost before it had been placed in shape to be shown. Trading was active and real choice sheep and lambs soid early at prices that were steady to a little stronger than Saturday's close.

There were only a few loads of feeding sheep and lambs on the market. The trade was in a good, healthy condition and what
