BALTIC RAILROAD MEN STRIKE Boston Brauch of National Alliance Adop's Newspapers. Protest, Against Exaggerated Reports.

RIGA, Dec. 21.-Via Edytkuhnen, Dec. 3. The railroad employes throughout the Baltic provinces went out on strike last calse reports published abroad to the effect that Riga was bombarded and was burning and that revolutioniats blew up a train carrying 200 Cossacks, and the Associated Press is able to deny these rumors. The town is perfectly quiet, the inhabitants go about unmolested, street traffic is carried on in good order, and there are opera per formances daily, though attended by small audiences. Soldiers and police are patroling the streets day and night. Three cruisers are anchored in the harbor at the disposal of Governor General Lollohub, who has not yet arrived. Foreigners are in perfect safety at present, but they are of the opinion that it would be a wise precaution if each of the principal powers had warships cruising in the Baltic in readiness for emergencies, as passenge teamers would be unable to embark refu gees in case of armed opposition.

The revolutionaries continue a program of agitation, hold dally meetings and they posted an order to partisans to disarm soldiers. At Libau the cruiser Okean and the terpedo boat Protchny have arrived The town is in full control of the troops and the agitators are quiet and holding few meetings.

At a meeting of the foreign consuls it was decided to fir the national colors over the consulates. While the town is regarded as sufficiently protected by Russian warships, foreigners in case of necessity could find refuge on the foreigner merchant ships in the harbor, although it is uncertain if the revolutionists would respect foregn flags. Dohlen is in the hands of the revolutionists, who have established a provisional government.

The public affairs of Coldingen for nine days have been in the hands of an administrative committee. An autonomists' committee has organized a police service, the policemen wearing red ribbons on their sleeves. The regular police hald down their arms and took off their uniforms after one of their number was executed. The revolutionist administration has declared paper money valueless and gold is scarce. The minister meets daily at the university where 2.178 students are registered for the academic period of six months. Ad lectures. however, have been suspended.

Tukum and Talsem have been in mourn ing since the fighting began. There are daily funeral processions and the towns are almost deserted.

DESPAIRING CRY FROM RUSSIA support, according to our means, the cause of our countrymen in Poland.

Horrible descriptions of slaughter and rapine are contained in many of the letters. A letter from Koloras, Russia, gives a lurid description of the massacres which ! occurred there and in Uman, following the issurnce of the czar's recent manifesto. According to the account crowds of brigands followed the parade which was held in celebration of the issuance of the manifesto, gathered in a mob and placing at cross, emblem of state and church, made

they at once began their work of murder and set fire to them while the mothers were to the agonized screams of their little

ones as they perished in the flames. After making way with the children the murderers turned their attention to the purents and slaughtered them without mercy. Three hundred Jews perished at were killed. The most horrible cruelties were practiced by those who participated in the massacres.

Not only did the police refuse to protect or aid the Jews in any way during the massacres, but many of them even assisted the assassins in their bloody work. The students and members of the educated classes, however, came to the assistance of the Jews and many of them fought from poisoning, caused by constitution, had valiantly in their defense.

BLAME IS ALL LAID ON THE JEWS German Who Comes from Odessa Says They Attacked Troops.

BOSTON, Dec. 25.-According to Andreas here on the steamer Carthagenian, the recent bloodshed in Odessa was largely due to Jews attacking the soldiers. Stockberger is a German and comes from a German settlement at Gildendorff, near Odessa. In an interview today he said:

"In Odessa I saw the troops march down the main street with loaded guns. Before them was the howling mob, armed with all sorts of weapons and whenever a chance appeared they would sweep down on the soldiers and tear them to pieces. From housetops and windows stood men and womeg, and even children, and as the soidiers marched by, bombs were hurled at them, killing scores and wounding hundreds at a time.

The soldiers would charge on their atshooting them with ball. Wherever the rest. soldiers went they were attacked. The mob, made up entirely of Jews, was almost beside itself with excitement and its only purpose was to kill the soldiers."

BOTH FOOD AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine-more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults. Hits Over Five Thousand Balls in Succession.

DINCOLN. Dec. 25.—(Special.)—Lincoln sportsmen say that Captain A. H. Hardy, formerly of Hyannis, has broken all previous riffe records by hitting 5.152 two and one-half-inch wooden bails, thrown into the air at a distance of twenty-five feet, without a miss. The shoot took place Sunday at the state fair grounds. An ordinary 22-caliber rifle was used, and the loading was done by Hardy. The rifle used was not cleaned throughout the performance. The shooting was done in Mercantile hall until 5,000 shots had been fired, when it became so dark that shooting was almost impossible, and was continued in the open air. The five thousand one hundred and fifty-third ball. sand one hundred and fifty-third ball was missed by what is termed by shooters as a "fudge." The balls were thrown by "Bud" Bowers of Hyannis, Neb. For the was missed by what is termed by shooters as a "fudge." The balls were thrown by "Bud" Bowers of Hyannis, Neb. For the last week Hardy has been fitting himself for this trial, shooting from 1,000 to 2,000 balls each day. Bowers, his famous ball thrower from Hyannis, did the throwing, and his work was like that of a machine. The performance was a great test of endurance on both shooter and thrower. The judges were J. Haynes, J. F. Simpson, E. J. Siebert, C. F. Siebert, P. J. Heidmarsh, all old shooters. The shooting began Saturday at 1 p. m. and was continued until too dark for the riffemen to see. It was resumed again yesterday morning. Hardy has made a number of extraordinary records with the rifle. The former world's record was made at the St. Leuis fair last year by Topperwine of Texas, who broke 3,507 clay disks at a distance of twenty-five feet.

The Auditorium was well filled when the two racers appeared. Pitt, long and lanky, looking every inch a racer, and Davidson, stouter and built closer to the ground. Opinion was about evenly divided as to the outcome and each had a large number of backers. The benches had been removed from the side of the rink to give the racers more room, which made greater speed possible, as it gave more room on the turns.

At the pistol shot Pitt jumped to the front and set the pace for three laps, when Davidson passed him on the east turn. Davidson made the running for the next three laps, when Pitt came up with a rush and again took the lead, which he held to the finish. On the last lap, just as the racers were making the east turn, Davidson attempted to pass Pitt, when his skate got locked in Pitt's and both fell. Dangerous Condit! a-Assatlant, Who is Unidentified,

Makes Escape.

After entering the saloon of William Sutherland, 108 North Ninth street, at \$ clock last night and being refused a glass of beer a strange mun demanded of the bartender, James Reynolds, "Why did you hit my pal?" and then, drawing a revolver from his pocket, deliberately shot and seriously wounded him. The stranger then ran through the front door into the street where he fired another shot at pedestrians and then, closely pursued by Detectives Ferris and Dunn and Patrolman Shields succeeded in losing himself in the darkness and maze of freight cars and tracks of the bottoms.

As soon as the man emerged from the saloon, revolver in hand, and started to run on Ninth street, the officers, who were standing on the opposite sidewalk, drew their revolvers and called to the fleeing man to halt, firing after him as they went in pursuit. The two detectives each fired three shots, while Shields fired four. a total of ten shots, but so far as is known none of them took effect, although Shields is under the impression that one of his bullets went true. The man had but a short distance to run before reaching the protection of the cars and was soon lost to view.

Reynolds was immediately attended by Dr. Frederick Rustin and taken to the Central hospital, where it was found that the bullet had entered the right side of the throat and passed completely through the aesophagus. The wounded man was reported to be in a serious condition last night, but under proper conditions he will recover. He is about 22 years of

No trace of the assailant had been found up to an early hour this morning. He had been in the saloon a few moments previous to the shooting in company with two other men, all from out of the city. They had been noisy in the saloon and had been requested to leave by Reynolds. They complied under protest but the one who did the shooting soon returned. Reynolds declined to serve him any drinks and was about to turn to the cash register when

An American consular report says: England's birth rate is declining. It touched its highest point since registration began was superintendent of the Western Union in 1838, in 1876. Today it is at its lowest The children of the most prolific mothers -those of 1876-are the most unproductive mothers. The reason assigned for the frightful decline is "the decay of the maternal instinct." Only 75 per cent as many little ones see the light now, or remain in it, as saw it thirty years ago No one factor, however, can account for the entire falling off.

The fact is there are many causes. Notably among the most prominent is the advanced age at which persons marry and the fact that a great many never marry. Previous to 1876 the marriage rate was 16 to 174 per 1,000. Today it is 1514. The claim made for years by leading economists that population was supposed to vary with the food supply is doubted. It fails to hold Pierce Johnson, one of the oldest members good in England, for at no time in the of the Woman's Relief corps in the country past was food so cheap or so abundant

"Possibly." says one writer, "rent. rates and taxes have more to do with the question than has the price of wheat." The fact of the matter is, the question is beyond the best men in the empire. sational price. It is an opportunity not often presented. Never before has a publisher been able to make so liberal an offer on exclusive high grade and high priced magazines. You ask how is this offer possible if the three magazines have fixed value and are not like the commodities usually offered at hargain

THE EXPLANATION

It is well known to everyone in business that in fixing a ceiling price there must be added to the manufacturing cost the cost of marketing. The cost of marketing a magazine is a big item, and these three publishing houses decided to unify their efforts to get new readers, making one organization do the work, and divide the cost of markeling by three. That is why you can buy these magazines, that fit the needs of every home, for nearly half price.

THE TWENTIETH CENTURY FARMER

This is a magazine designed for every member of the farm home Special articles on subjects of the greatest interest are printed each week. These are written by men of national reputation and cover a field so diversified as to embrace during the year all branches of farm activity and life. Frank G. Carpenter's "Letters of Travel" and William Jennings Bryan's "Around the World Letters" appear in no other agricultural paper. Either one of these features are worth the price of a year's subscription. No other farm paper maintains so many regular departments, such as Feeding, Live Stock, Veterinary, Dairy, Poultry. Crops, Farm Devices, Orchard and Garden, with four pages devoted to the women, young folks and children. Each of these departments is edited by a practical editor and not by a theorist.

REVIEW OF REVIEWS.

This magazine is almost necessary for the up-to-date man or woman who pretends to keep abreast with the times. Its illustrations will consist of 1,200 pictures a year. Its departments give the best that is in all of the other important magazines all over the world. Timely and informing articles, almost as fresh and as full of news interest as the daily papers.

THE COSMOPOLITAN.

a leading magazine for eighteen years. With the recent change in ownership it has been improved and is far better in every respect. Its gain in newsstand sales and in subscriptions have been remarkable, and these are due to the new life and real merit. The Cosmopolitan is printing what the people want. It contains regularly the best fiction, the best special articles on timely topics and the best illustrations money can buy.

WOMAN'S HOME COMPANION.

This magazine is for every member of the family. It is an ideal entertainer and helper in a thousand congenial ways. The issues for the forthcoming year will be unique in conception and execution, rich and varied in contents and brilliant with the finest and most elaborate and most artistic illustrations obtainable.

COUNTRY CALENDAR.

This is a beautiful magazine of country life, published by the Review of Reviews Company. It is the most sumptuous, best illustrated and most costly magazine made in the world. It depicts rural or country life in America, both intelligently and instructively. It illustrates and tells of the life and home surroundings of the farmer and ranchman, as well as the multi-millionaire and his country estate.

De Not Wait. Arrange for your magazine reading now. You are really getting the entire list included in this wonderful offer at but little more than the regular price of one magazine, so great is the reduction.

The offer is good for new and renewal subscriptions and will be made for but a limited time.
