Work Removes the Prejudice of Foreign Consumers Against Amerlean Meats and Opens Up the Markets.

Chief Inspector Don C. Ayer of the bureau of animal industry, reports that his department has increased its efficiency to considerable extent during the past year There are now between forty and fifty nea constantly employed in the stock yards, packing houses and in the railroad yards. Besides this there is the regular office force. This department has been doing its work so quietly that it is a question if many of the people of South Omaha outside of the packing houses and the stock yards know that such an instijution exists. Still there is no other one thing which has done so much to make he city such a thriving center of the meat and live stock business. The bureau was established by act of congress in 1591. At that time there was practically no export of means from the United States, It was the last of the powers to create such an enterprise. Up to this time the forign inspectors had continually condemned he small shipments of the American areduct which reached Europe. Prejudice secame so strong in those years, and with onsiderable justice, too, that the foreign trade was held back far more and for a nuch longer time than it would have been had there been proper inspection. Since the bureau was established, however, the American product has risen steadily in quality and quantity, until it now bids fair to surpass all the competitors of the world. We now export millions of pounds of beef and pork, where ten years ago our product was met with condemnation and prejudice. The reason is, we have a ulean product, free from those deadly poisens and germs, which if taken into the human system have caused lifetimes of misery and scattered deathly infection program and Christmas tree.

What Inspection Has Wrought. "In those days of indiscriminate killing t was not unusual to see the market slutted with pork at 2 cents per pound on foot. Now the export demand keeps the price continually over the 4 cent mark.

The same applies to cattle and sheep.

"We inspect the live product when it is eccived in the wards, and it is a fact that our men have become so expert in the detection of humors and disease that it is rarely that an unfit carcass is killed without the condemnation tag on it. This loss falls on the shipper; and be it said that we are not especially loved by the average man who sends his stock to our markets. We have discovered the peculiar trait of a class of men. They seem to think if they beat the government inspecfor they have done a smart thing, not seeing that it is this strictness that has really brought about the profitable business they are in. Of course, if the carcass is sold before it is detected, the loss then falls on the packer and that is one reason why the average shipper tries so many schemes to evade the eye of the inspector. It is a notable fact that more than half the farmers, when they discover that their hegs have the cholera or other epidemic hegs have the cholera or other epidemic hegs have the cholera or other markets. Miss Maude MacDowell Piano Solo. armers, when they discover that the particle of their fellowmen. But then, hundreds of their fellowmen. But then, hundreds of their fellowmen and death on hundreds, we find another class that are the particle of the partic

Our inspection does not stop with the live animal, but every carcass is looked ever time and again. My men can detect Music the fevered, the tainted, the parasitic fiesh at a glance, and the condemnation tag is at once put on. Every car of meat shipped aut is examined; and it cannot leave the yards without our seal. We examine every process and every product used in the packing houses. I have twelve men constantly working in our laboratory with microscopes to detect the minutest taint er affection. Our favor is not to be bought er sold. We do our duty without fear or favor. When we condemn a carcass we never lose sight of it until it is put in the ceoking vats and boiled piecemeal. With it is put a drug which makes it impossible for the markets, except as soapgrease, lubricants or fertilizer. The averthirty per day; representing value, if the meat were fit, to pay for our department condemnation, we have actually increased show statistical proof.

Quiet Christmas Day. Christmas was a very quiet day in South maha, a day of numerous family re-According to the statements of

card or letter. Address Dr. R. V. Pierce, Builalo. N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its nen-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class all by itself, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and billousness, ulceration of stomach and bowies and all catarrhal affections no matter what parts or crashs may be affected with it. Dr. Pierce's Pieasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated bot never equaled. Sugar-coated and easy to take as candy. One to three a dose.

Sugar-coated and easy to take One to three a dose.

more family gatherings yesterday than at any time in the history of the city. There were no disturbances of a serious nature. In the afternoon a boy was reported drowned in the Missouri at the foot of Missouri avenue, but this could not be authenticated. The garbage master, who lives at that point, knew nothing of it, nor of any mishap in the neighborhood. There were not more than the usual drunks at the tail. One or two fights of harmless nature were reported. At o'clock a call was sent in from Twentyseventh and Z streets saying that a small riot was in progress among the colored families and that one man had been killed The captain and an officer went to the scene, but found no gore. Two colored women had been quarreling. A Mrs. Robertson, living at those streets, and Mrs. Simmons, Twenty-sixth and O streets, had a slight difference of opinion, and to get rid of her persistent neighbor Mrs. Robertson is said to have seized a revolver of persuasive dimensions and ordered her out of the house. She fired a shot or two for emphasis, and being a poor markswoman did not hit anything below the ceiling. When the officers arrived the men were holding a stag dance. The women had gun. No arrests were made.

Services at Churches.

The Catholic and Episcopal churches held their special Christmas services yesterday. The early mass at St. Agnes' was largely attended, as were the three low masses s a remarkable fact that the United States following. The capacity of the church was exhausted at the time of the solemn high mass at 10:30. Rev. McCartney of St. Patrick's church, on Castellar street, conducted the service.

The sacrament of the hely supper was observed by 'the St. Martin's Episcopal congregation. A full and selemn ritual was observed. The congregation was large and all the responses were given with interest and spirit. There was no formal sermon. The music was especially for the occasion. In the afternoon was a children's service and a Christmas tree. This the children enjoyed. Many presents were distributed to them. Mrs. L. H. Greer, who has acted as the voluntary organist for a long time past, received a fine gold cross as an expression of apprecistion

Tonight the Leffer Memorial Methodist Episcopal church will hold its Christmas

Face Robbery Charge.

It is now determined on the part of the police to prosecute Manus Patton on the charge of robbery for having taken a gun from Frank and Harry Draper of Red Oak, In., last Saturday night after he and Pat McManaman, assisted by McManaman's brother, had made an assault apon them on the South Omaha street car near F street. McManaman will be tried for assault and battery for his part in the case. He is out on bonds, while Patton is still in jail. The old man, father to the boys, who was abusive in the jail Sunday evening, was released Monday morning to appear in court this morning.

Church Entertainment.

Following is the program of the Presby terian Woman's Home and Foreign Missionary society, to be held at the residence of Dr. and Mrs. C. M. Schindel, corner of Twenty-second and H streets. December 28 at 2:30. The program is entirely in the hands of the young people and promises to be a good one:

WOMAN IN CLUB AND CHARITY

Upon sellcitation of the club wemen Captain Edward L. Bradley, superintendent of Allen Dale Farm, will speak in Omaha Friday evening at 8 o'clock. Creighon law school has offered its auditorium for the occasion, and Captain Bradley will speak there instead of at the city hall, as previously announced. Captain Bradley is authority on the correction of juvenile deinquents, and his experience at Allen Dale farm, a self-governing community of boys recruited from the Chicago juvenile court, has made him in demand wherever the probation system has been instituted.

Wednesday afternoon the local Women's Christian Temperance union will hold its educational meeting at the detention home n South Tenth street. The women will make their visit the occasion of a Christmas celebration and will take to each child in the home a box of candy and fruit and a gift. The probation system and the apparently gone up with the smoke of the afternoon, and several local authorities will be asked to speak to them.

> The Cedar Falls (Ia.) Record has collected the following interesting statistics concerning the four large women's organizations of that town for the benefit of those who apprehend a decrease in the census as a result of the Woman's club:
>
> Normal Home, Social Literary club—
> Number of members, 47; married members,
> 47; number of children, 114. Chapter R,
> P. E. O.—Number of members, 55; number
> married, 27; number of children, 47. Cedar
> Falls Tuesday club—Number of members,
> 13; married members, 27; number of children,
> 47. Ninetcenth Century club—Number
> of members, 25; married members, 21;
> number of children, 47. Summary omitting

Immense Advertisement for Omaha

(From The Omaha Daily Bee-Dec. 8, 1905)

THE BEE'S NEW YEAR NUMBER

Great Undertaking to Exploit Omaha's Growth and Commercial Importance.

FIRST CORRECT BIRD'S-EYE VIEW OF CITY E. J. Austen, the Famous Artist, Has

Work Nearly Completed, Copy of Which Will Be Given to Each Subscriber,

For its New Year number The Bee will publish the most comprehensive review of the pusiness of Omana and general resume of the city's advantages and resources ever put into type. This is to be known as the Jubiece edition. It was intended to have it out last year, but the inability of The Bee to secure the services of the artist wanted necessitated the postponement. The edition will be mustrated with half-tone views showing the principal buildings of the city. and with it will be presented to each purchaser, on a seperate sheet, the only correct bird s-eye view of Omaha ever made. This latter will be an invaluable feature. for it will show as can be shown in no other way the extent of the city, from the river front to the western confines and from South Omaha to the fort. It is the work of Mr. E. J. Austen, the greatest living panoramic artist, who has been busy on it for the last three months and who will soon have the work completed and ready for the engraver and printer. Mr. Austen is now putting the finishing touches on his great picture, which is 5x10 feet in size and shows every street and building in Omaha, the topographical features and each distinctive element essential to a correct view of the city, so that a stranger can determine almost at a glance the location and relative Importance of all buildings, factories, warehouses and the like.

Review of Omaha's Growth. Sixteen pages will be given over to the review section. In these, which will be printed on heavy book paper, in the highest style, will be found carefully engraved half-tone illustrations of the public buildings of Omana, the educational and religious institutions, the hospitals and other establishments of the kind and the principal business houses and residences of the city. Nearly eight pages will be given over to these illustrations. The rest of the paper will be devoted to statistical reviews and writeups of the various business enterprises of the city. Information of the most reliable quality for this has been gathered and the statements will all be of the reliable sort.

Mr. Austen, who is making the bird's-eye view which will be furnished in connection with the New Year number of The Bec (to be a finished picture 17x33 inches, prinzed on a heavy paper with wide margins), is unquestionably the best of all artists in his line. He is the man who made the bird's-eye view of the Transmississippi and International exposition grounds, drawing it entirely from the plans of the architects and making it so near actual conditions that none would believe it had been drawn before a shovelful of earth had been disturbed on the grounds. He has painted many of the panoramas exhibited at the various expositions and his work is well known throughout the world

May we count on you?
