Visits Penitentiary on Christmas and Has a Short Talk with Each One of the Convicts.

(From a Staff Correspondent.) LINCOLN, Dec. 26.-President Searson of the Teachers' association was the busiest

man in town today and was hard to approach owing to severe demands upon his time in attending to telephone calls, special meeings of committees, local and executive committee regulations, but when seen expressed himself upon the prospects for the meeting as follows:

"It was a surprise to all of us to hear Treasurer Overholt announce an advance enrollment of over 600. That is a most favorable indication for the largest attendance we have had yet. The educators are coming in from every section and all agree that the meeting has been well announced and that there is unusual enthuslasm among all classes of teachers. Treasurer Overholt is prepared to meet any emergency in the way of a large enrollment, having his corps of assistants duly installed in the library building of the State university. The local committee met this morning and completed final details for its part of the work. The executive committee met and arranged the final necessary details of programs and special accommodations. Everything is bright for a meeting of real profit and inspiration to teachers. This weather will mean a larger attendance than we have had for years, to say nothing of the guality of the program.

Other officers and workers expressed the

CUTICURA REMEDIES WORK WONDERS

"As I was reading the daily paper I saw a testimonial of one of your permanent cures by the Cuticura treat-ment. I know by experience your medicine is all it claims to be. I had a baby boy three months old and eczema broke out on his head and face. I tried several kinds of medicine without any benefit, and then decided to try Cuticura I could see an improvement at once, and in a very short time he was entirely healed. He is now three years old and a picture of health, thanks to your great remedies. One of my neighbor' children was also eured by the use of Cuticura. She came to me to ask what used for my baby, and I was more than ready to recommend Cuticura, be cause of the speedy cure of my baby She found the same result that I did (signed) Mrs. Lottie Verage, The Brunswick, Rhinelander, Wis., May 21, 1905."

Visited Every Convict. Governor Mickey said today that he vis-

ited every cell in the state penitentiary yesterday afternoon and conversed with all of the prisoners. He said that the number asking for clemency was surprisingly small. He talked with the men of their offenses and encouraged them to lead better lives. The prisoners did not have their usual Christmas minstrel show, because of the considerable amount of labor needed in preparation. Many of the prisoners received gifts from friends and relatives.

The governor expressed his pleasure over conditions as he found them at the institution. There is not a single case of sickness at the present time, owing to the perfection of the sanitation of the cells and the care exercised by the prison officials in caring for the men.

While at the prison the governor was thanked by Sargent, the Madison county man who will receive his freedom New Year's eve, under a commutation issued a few days ago. Sargent told the governor that he will go to one of his two brothers, state. The man has served a longer time in the penitentiary than any of the other prisoners, having been committed more than twelve years ago. He was sentenced for the murder of his wife.

not apply to this county. The police credit Mrs. Alice Jamison of Beatrice with elever diplomacy in bringing her 6-weeks-old son into the police court this morning to intercede for William Jamison, a Beatrice man who was arrested several days ago on the charge of rigging up a prize fight for the purpose of roping in backers. The police investigated the matter and this norning Chief Cooper ordered his release. The wife came to the city yesterday after er husband and today accompanied him way from the jail.

Talk of Alien for Chairmanship. Today a republican state official, who will probably come before the next convention as a candidate, suggested A. B. Allen. the governor's private secretary, as a fit

man to succeed W. P. Warner in the chairnanship. Allen has been secretary of the ommittee for several years, and on that ground it is urged he will make an efficient campaign manager. Allen was mentioned in 1904, when Burgess was elected, and he was also talked of last summer. At the latter date he was a candidate for the congressional nomination to succeed Senator E. J. Burkett and that fact, it is believed, deterred him from seeking the place. Recent events have shown that the chair manship is a stepping stone to the higher things to which politicians aspire, and that fact is expected to count with Allen.
