BULLETIN.

MOSCOW, Dec. 28.—The revolt is practically over and the strike will be called off Monday.

Comparative quiet prevailed today. Only a few fanatics are continuing the struggle.

All the members of the social revolutionary committee have been arrested and a quantity of bombs, infernal machines and correspondence seized.

Three hundred revolutionaries today invaded the residence of the chief of secret police and killed him.

A mob of armed revolutionaries attacked the police bureau, but was repulsed with serious losses.

BULLETIN.

ODERSSA, Dec. 28.—Martial law has been proclaimed in this city. The strike, however, is nearly over.

ODERSSA, Dec. 28.—Martial law has been proclaimed in this city. The strike, however, is nearly over.

MOSCOW, Wednesday, Dec. 27.—A mob of revolutionaries broke and the uprising here is rapidly going to pieces.

The revolutionaries are able to keep up only a guerilla warfare, but the ease with which they can move small detachments from place to place renders the task of suppressing them slow and tedious.

The Brunnau quarter has been cleared of the members of the "Drinking," as the fighting organization of the revolutionists is called.

MUNICIPAL OWNERSHIP TALK

Issue in Local Politics Discussed by American Economic Association.

By F. H. FORE, Dec. 28.—The joint session of the Economic and Political Science sections returned today, the subject of municipal ownership being the chief subject considered.

Municipal ownership is becoming the most important issue in local politics. The spontaneity of the issue indicates the deep-seated dissatisfaction with private monopoly.

The municipal ownership issue is being discussed in New York, Cleveland and Chicago in the large cities, and in smaller cities all over the country at large.

The convention has become well known universal, that the desire for municipal ownership is responsible for most of the municipal corruption.

It is the desire for franchises, whose values run into fabulous figures, that explains not only the municipal corruption, but the indifference of the latter to the public interest.

During a separate meeting of the Municipal Franchise Association, the subject of municipal ownership was discussed.

The historical association members listened to a paper on "The Colonial Politics of George Calvert," by Bernard C. Steiner of the Maryland Historical society.

The Herbert Baxter prize was awarded to David S. Muzzey of the New York Ethical Culture school for an essay on "The Spiritual Franciscans."

TRIBUTE TO HOOSIER POET

Indiana Teachers' Association Has Special Exercises in Honor of James Whitcomb Riley.

INDIANAPOLIS, Dec. 28.—The afternoon session of the Indiana State Teachers' association was a tribute to James Whitcomb Riley. Addresses were delivered by Senator Albert J. Beveridge, President Hughes of DePauw university, Howard Watterson of Louisville, Ky., Charles R. Williams, editor of the Indianapolis News, and Meredith Nichols, the author. Mr. Riley was present and responded.

Mr. Watterson said in part: But the other day a famous company in New York celebrated the seventieth birthday of the most famous of our prose writers of the present day, James Whitcomb Riley, our neighbor and our friend, and though I have fought throughout my life against sectionalism in all its forms, I cannot resist a kind of sparkling satisfaction in the fact that the satisfaction of our fellow citizens has had to come west for a fresh and new supply of good and noble literature.

BIG DEMAND FOR CASH

Rate for Call Money in New York Advances to 125 Per Cent.

BANKS BEGIN CALLING LOANS. Action Due to Anticipation of Requirements of Year-End Settlements.

MARKET ADVANCES IN SPITE OF FLURRY. Stocks Continue Active on Expectation of Higher Prices.

ORDINARY BUSINESS NOT AFFECTED. Banker States that Scarcity of Money is Due to Unmarketed Crops and Conditions Abroad.

NEW YORK, Dec. 28.—The call money market opened strong again today. The first loan reported was \$200,000 at the rate of 30 per cent per annum and this was followed almost immediately by another loan of \$200,000 at 40 per cent.

At 10:30 the quotation was 60 per cent. The advance in the interest rate was seasonably rapid. From 60 per cent there was a quick advance to 75, 80 and then 100. When 100 per cent was touched all records since December, 1898, were broken.

When 100 per cent was reached all records since December, 1898, were broken. In that year 100 per cent was paid for call loans. After lending at 100 today there were 100 per cent loans at 100 per cent. The market did not last long and at 11 o'clock 110 per cent was paid for funds, and shortly afterward a loan of \$400,000 at 125 per cent was reported.

Although brokers were compelled to pay the highest prices in years for cash with which to carry their stocks, there was little excitement over the situation. Many Stock exchange houses provided themselves several months ago with time loans to carry them over January 1, which is a time when money is always in great demand for dividends, interest and other year-end payments. These time loans are not affected by the call money market. Some stocks were sold out during the morning hours, principally in industrials, but the main stocks held well in the early trading, considering the market's usual sensitiveness to a rise in interest rates. The stock exchange the day was taken that the stringency is temporary and that easier conditions will prevail immediately after January 1.

The demand for money started within fifteen minutes after the opening of business. A rate of 100 per cent was paid for money until after 10 o'clock. Today a loan was made early at 30 per cent. This was regarded as an effort to keep the rate down. Immediately afterwards bids were raised rapidly at 10 per cent between quotations.

A request for accommodation at 40 per cent brought no offering. Then the bid was raised to 50, with no better results. The next was 60, at which figure a second loan was made, one of \$200,000. No more money was offered at that rate. The third loan was made at 70.

Banks Call for Cash. Then the demand for money from brokers came. A rate of 100 per cent was paid by the banks in order to make arrangements for the January 1 disbursements, became urgent and most of them were apprehensive as to whether they could renew their loans at all. The call rate again climbed rapidly to 80, 90 and 125 per cent.

The greater part of the day's offerings came from out-of-town banks through their local correspondents. A great many industrial and commercial houses also loaned through their banks.

Russell Sage, through his representative, today quoted a rate of 60 per cent. At 10:30 per cent. More than the usual discrimination was shown by the banks in the collateral accepted by them for loans. The rate for sixty and ninety-day loans today was 6 per cent and a "commission" making such loans fully 10 per cent. At 10:30 per cent. More than the usual discrimination was shown by the banks in the collateral accepted by them for loans. The rate for sixty and ninety-day loans today was 6 per cent and a "commission" making such loans fully 10 per cent.

Toward 1 o'clock the demand for funds seemed to have been pretty well satisfied and money was lent at 90 per cent. Just after 1 o'clock the commission was raised to have been relieved the stock market started to advance, led by a sensational movement in Anaconda. This stock rose rapidly to 25 against 20 earlier in the day. There was no definite news to explain this advance except the reports of a rich strike in the company's mines. Amalgamated Copper was carried up 2 1/2 points in sympathy owing to its large holdings of Anaconda, and other copper and smelting stocks were also strong.

At 2:15 the call money market became much easier and dropped to 6 per cent, and at 2:45 the quoted rate was 6 1/2 per cent. After having reached 10 per cent on the Stock Exchange and 125 per cent on privately arranged loans, the rate for call money late this afternoon fell to 6 per cent. Just before the close it advanced again and closed 15 per cent bid, offered at 16.

As the money rate fell the stock market advanced and approximately the highest price of the day was reached at the close. The stock market, except for an early decline in industrial shares, was fairly steady throughout the money tension.

Banker Explains Situation. President Phillips of the Chase National bank, said today: The enormous volume of business which obtains throughout the country has caused a decided shortage of funds. Practically all the money is tied up in the securities market, naturally, has materially advanced the rates of interest. The foreign exchange market is also very tight. The money is curtailed by the shortage of cars, which prevents the rapid marketing abroad of cotton. The market for the concentrated withholding of cotton for higher prices. Normally, we would anticipate such a shortage of funds. The Russian cloud hangs over the market. A possible default of Russia has seriously disturbed the market. Money has been a strong reflex influence in London. Money has been a strong reflex influence in London. Money has been a strong reflex influence in London.

Other Towns Affected. CLEVELAND, Dec. 28.—The Cleveland News today says that it learns from a reliable financial authority that Cleveland bankers have sent large sums of money to New York recently to be placed in
