NEW YORK STOCKS AND BONDS

Market is Firm and Active on Big Demand Expected Next Week.
SALES EXCEED TWO MILLION SHARES.
General Belief that Large Syndicate Attempted to Corner Money in Order to Squeeze Out Stocks.

NEW YORK, Dec. 29.—For practical purposes today was the last day of the year on the stock exchange. There are no deliveries on Saturday, loans made on Friday carrying over into the following Monday and the stocks purchased on Friday are held for the following Monday. As Monday is a holiday, the settlement for today's transactions in stock market will be deferred in effect until the turn of the year. This fact was made the basis for the speculative stock market today. The market today from start to finish and carried over into the 200000 share level. It was argued that the preparations for the January first settlements must now be completed and that the stress in the money market will have done its worst. As a matter of fact there was less severity in the money market today than was carried over from the day before. The market was 75 per cent during the day, but fell back rapidly to the neighborhood of 50 per cent. Compared with yesterday the market was active and cheerful and even eagerly paid.
