## ELKS TO BUILD CLUB HOUSE

Campaign for New Yembers Succeeds Beyoud Expectations.

BU DING TO COST FORTY-FIVE THOUSAND

P papeets for League Base Ball in Lincoln During Coming Summer Look of the Brightest-Money Being Raised.

(From a Staff Correspondent.) Dec. 21.-(Special.)-Lincols lodge No. 80 of the Benevolent and Protective Order of Elks is on the last lap of a campaign to increase its membership to such proportions as to insure the feasibility of erecting a handsome clubhouse. Several months ago the lodge purchased a site within one block of the business center, the property costing \$8,000, and voted, when the membership stood at the 450 mark, that the odge would undertake to build a clubhouse. nell has authorized the committees to continue their work until the first January meeting, the middle of the month, and there is every indication that the membership will be swelled to 600 before the doubled rate of admission goes into effect.

The plans for the clubhouse provide for The plans for the clubhouse provide for a building, the furnishings included, to cost about \$46,000. A scheme to finance the proposition is to be taken up the first meeting in January, and the success attending the efforts to build up the membership foreshadows a satisfactory issue of the plans pertaining to the finances. Only Elks will be permitted to subscribe for the bonds, which are to be retired gradually by the lodge.

forces in seeing to it that the state is properly represented at the grand lodge session in Denver next summer has been heartily approved by the order in Lincoln. Delegates from all of the Nebraska lodges are to assemble in Omaha within the near

Omaha, Denver, Public, Sloux City and Des Moines in the Asstern league, "Ducky" Holmes, a player of national repute from his membership in the American and National league teams, has been voted the Lincoln franchise by the league directors, and Holmes has agreed to come with the proviso that the citizens of Lincoln shall subscribe the funds for a park and pay the first year's rental, the latter obligation subsequently to be assumed by Holmes. The park, however, is to remain the property of the donors, Holmes only being given free use. The cost of building the stands and fences and for the first year's rental

has been fixed at \$3,000. A few days ago hustling committees began a canvass for the funds, with the result that more than half of the funds needed have been subscribed, while there is every prospect that the remainder will be secured within the next ten days. Holmes has made several trips to Lincoln and is impressed with the prosperity the capital city is enjoying, having become convinced that a Western league team in Lincoln should be a paying proposition from the first. Besides having acquired the St. Joseph franchise and players, Holmes has already signed eight or ten players, also securing three more by purchase from other

Western league magnates,

No attempt is to be made the first season to play Sunday ball, it being the intention to transfer all of Lincoln's at home Sunday games to the other cities in the league. In the ordinary week day games the visiting team is given one-half of the general admission receipts, the home club retaining all of the grandstand admissions. By transferring his Sunday games, however, the league has assured Holmes that he is to have one-half of the entire receipts. Inasmuch as his team will play only week day games in Lincoln, he figures that the attendance on week days will be much greater than if Sundays also were booked. Geographically, Lincoln is the hub of the league, it being possible to play Saturday games at home and then jump at night to any other city in the league. By this arrangement, which gives Holmes a full share of Sunday receipts, he is confident that Lincoln can make good financially. The hustling committees have discovered a healthy base ball sentiment and join with Holmes in predicting that success is to attend his venture.

Burlington Pays Its Taxes.

GRAND ISLAND, Dec. M .- (Special.)-The Burlington railroad Saturday paid its taxes in this county, together with the interest accruing since due, the interest amounting to \$17.28. The whole cum of the taxes was \$5,220.33. These taxes are on two separate branches of the road, nominally The Burlington track running into Grand Island from the east is under the name of the Republican Valley. At the depot this company ceases to exist and it is assessed west of the depot as the Grand island & Wyoming Central. However, the protested portion of the taxes of both do not amount

to \$2,000, the amount necessary to get its case, as to this county, into the federal court, and hence both items of inxation were paid under protest, the county taking the protest to the state courts. The protested portion amounts to \$1,978.92.

AWARDS AT POULTRY EXHIBIT Southeastern Nebraska Association

Closes Successful Show. BEATRICE, Nets., Dec. 31 - (Special.) The meeting of the Southeastern Nebraska Poultry association, which has just closed has been the most successful in the history of the organization. While it is not the ntention of the association to make it oneymaker, the meeting has been sufficiently well patronized to enable the paynent of all premiums and expenses and eave a small balance on hand for next

year. Another gratifying thing in this conne ion is the fact that the meeting drew exhibitors from a greater distance than ever of 884 to 389, at the city election, requested before, showing what the possibilities are in this direction.

The following is the list of premiums as

li was also voted to double the membership fee from \$15 to \$50, beginning January 1. 1896. Hustling committees were organized to secure the needed new members, and their success is attested to by the fact the roll already has been increased from \$10 to 495, while upwards of twenty-five more applications were filed with the secretary last night and today. Exalted Ruler Cornell has authorized the committees to converted to the second point of the committees to converted the converted the committees to converted the c hen, first and second pens. Stone Quarry at South Bend. SOUTH BEND, Neb., Dec. 31 .- (Special.) -Preparations are being made to open up a new stone quarry about March 1 along the Burlington railroad just north of this village opposite the state fisheries. A force of men is now working to clear off the timber. Omaha capitalists are behind the enterprise and it is expected to have everything in readiness to crush twenty carloads of stone a day. About eight men will be here the coming week to install the stone crushing machine. When the work begins about 100 men will be needed to handle the output. Ground has been leased of J. Q. Lansing for a period of ten years and the work will be steady for a considerable time. Another store will be needed here to supply the increased demand and town property has already increased in value on this ac-

Tragic Death of Pioneer. TABLE ROCK, Neb., Dec. 81.-(Special.) -Word was recently received here of the ragic death of W. S. Madden at his home at Holton, Kas., on Christmas day. The family was all away except Mr. Madden. Omaha, was found by some boys while out when the home residence was discovered hunting this afternoon on the farm of in flames by the neighbors, too far gone to James Booth, about four miles from Frerescue Mr. Madden, who perished in the mont. A bullet hole just above the left Mr. Madden was one of the early settlers ten or twelve miles west of here, where he lived many years, and where he still owned a fine farm, but he moved to Holton some and services were held the day following. Mr. Madden will be remembered by all of our pioneer people, as this was his market of the R. V. railroad westward.

## GRAND ISLAND LIGHT FIGHT

Council Orders Special Election on Questien of Constructing Plant.

MAYOR'S VOTE NECESSARY TO PASS ORDER

Strong Opposition to Action, Although Voters Approved Proposition at Last Election by Strong Majority.

GRAND ISLAND, Dec. 31 .- (Special.) - A somewhat energetic discussion and two tie votes, decided in each instance by the mayor, were the result of a meeting of th city council Saturday upon the pending municipal ownership question. Nearly a year ago the voters of the city, by a vote the council to call a special election for the purpose of voting on the proposition of issuing \$5,000 in bonds for the installation of an electric lighting plant in connection with the waterworks. The council has in the meantime investigated the lighting plants in connection with the waterworks systems of Hastings, Fremont and Lincoln, and have found all of these to be successful plants. At Hastings a start was made with \$10,000 less than is proposed to begin with here, and at Fremont with \$15,000 less. Furthermore, the testimony of two expert engineers has been secured to the effect that, with a few improvements to the present waterworks plant, which can be provided for without a bond issue, such a plant can be installed for the amount stated. Yet several of the councilmen were disposed today to disregard the declaration of the voters and of the petition of the citizens on file and increase the amount of proposed bonds to \$50,000, a proposition that was first proposed by parties interested in private lighting plants here, and is, therefore, believed to be projected with the hope that such a proposition will much more easily be defeated. When Electrical Engineer Palmer presented his plans, showing that the plant could be installed for \$34,900, with one-half the boiler charge placed against the waterworks fund, and therefore not included in the estimate; as also a proper proportion of the new waterworks building, four members of the council objected to such a charge against the waterworks fund.

It was admitted, strangely enough, that the waterworks were in such need of these repairs and new provisions that at least \$10,000 would have to be spent upon them next year, even if the voters defeated the light proposition. The four members of the council at first declined even to accept the plans and specifications, though subject to alteration. A tie vote resulted, and Mayor Schuff decided to accept. Later the same gentleman objected to cutting out some items deemed by all desirable, but which could have been added later, and again a tie vote resulted, Mayor Schuff deciding to adopt the plans unchanged.

Since the first election the present Grand Island Electric company has reorganized out of the old City Electric company, which has been in litigation for ten years, and in conjunction with the Grand Island Gas company is putting up a strong fight against the proposed municipal plan. The present Grand Liand Electric company is capitalized at \$60,000, and has a mortgage on the present plant for \$40,000. They promise to increase the investment to \$100,000 in the city will not vote the bonds. It is expected that when the election shall have been called these two companies will begin an active campaign.

MAN MURDERED NEAR FREMONT Body Found Sunday Afternoon with Bullet Hole in Head.

FREMONT, Dec. 31.—The body of a man supposed to be that of Thad. Browning of flames. The origin of the fire is unknown. ear shows that he was murdered. The body lay partially concealed in a clump of bushes, about a hundred feet from the public road. About forty feet from the body was some blood, and the traces of a three years since. The remains were scuffle on the grass and \$1.25 in silver was brought to the old home place Tuesday found. Marks along the grass showed that the body had been dragged from that spot and thrown in the bushes. The clothing was torn and the pockets pulled inside out place for years before the construction the only things left in them being an old shoestring and the stub of a Creighton Orpheum ticket, date of December 26. The body was taken to Cedar Bluffs and there identified by several as that of Thad Browning, a young man, supposed to be Natural gas in commercial quantities. from Omaha, who had husked corn during the season for a number of farmers in that vicinity. It was heard tonight that a man CHADRON—Bertha Tyree was married to Ernest Dougherty of Spokane, Wash., at the residence of her parents, Mr. and Mrs. William Tyree. answering Browning's description was in the city Saturday afternoon, accompanied former paying for the drinks, and at one place showing considerable money. They left a saloon here together and were both considerably under the influence of liquor. Browning had not been seen around Cedar Bluffs for over a month. The officers here hope to be able to trace the pair after they were last seen together about 6 o'clock.

There is no Thaddeus Browning listed in the city directory of Omaha or South Omnha.

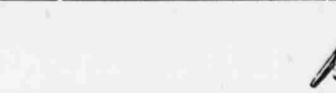

POSSIBLE CLUE TO WAIF'S IDENTITY

CHEYENNE, Wyo., Dec. 31 -(Special.) The above figures will give some idea of the present greatness of the young state of Wyoming and the possibilities for still greater prosperity. One need but glance at the bank deposits and the value of the exports of coal, iron, gold, copper, silver, sheep, wool, cattle, horses, hogs, and the value of the agricultural and manufactured products to become thoroughly convinced that Wyoming now ranks with its sister states of the west in wealth and general prosperity. The banks of the state show deposits of over \$11,000,000, and this with a copulation of less than 102,000, which is a per capita deposit of over \$110 for every man, woman and child in the state. This showing surpasses that of any other state ad. Benson & Thorne's Lilliputian Bazaar. in the union. The wonderful showing in Send Seposits is accounted for by the un-

usual returns from the live stock industry, tural industries and manufacturing, which brought to the miner, stockman and manufacturer a total of \$66,179,399. Wyoming produced this handsome return during the year just closing and it is only fair to presume that the state will do even better during the year just dawning.

Bright Prospects Ahead. To write a true and complete story of

what Wyoming has accomplished during the last twelve months would require many times the space allotted to this article, and to more than hint at the plans for the future and the prospects for greater prosperity than now obtains would require still greater space. Suffice it to say Wyoming has developed rapidly during the year just closing and will advance with still greater strides during the year approaching.

live stock interests, and in the end one or

both will win out. Two of the largest irrigation projects unworld, and will cost a vast sum of money. commenced during the year just closing. It is estimated that the irrigation projects claim a total of over 1,175,000 acres at an of \$23,500,000.

With all of the proposed rallroad building, with work being rushed on the two big ir- rity." rigation enterprises of the government, suppicmented by operations on dozens of large and small enterprises by private capital, and with the farmer and rancher putting in vegetables, is it any wonder then that the future for Wyoming appears exceedingly

FIRE RECORD

Factory in Detroit. DETROIT, Dec. 31 .- Fire tonight in the

four-story brick factory building at the northwest corner of Fort and Fourth streets dld approximately \$100,000 damage. The loss on the building is estimated at \$30,000. The remainder of the loss is about equally divided between the Seely Manufacturing and the Wolverine Leather Specialty company, who occupied the building The loss is partly covered by insurance.

Shoe Factory in Cincinnati. CINCINNATI, Dec. 31.-The eight-story building at 218-229 East Fouth street, occupied by Julian & Kokenge Co., manufacturers of shoes, was destroyed by fire today. Loss, \$125,000, covered by insurance. The origin of the fire is not known.
