### Death Due to Bullet.

Medical Examiner Bartlett, who was in charge of the autopsy, has prepared his report. It is stated that the report will

show that Mr. Edwards was killed by a bullet of .22 caliber, which penetrated his brain. The weapon used must have been held very close to his head. The point whether the pistol was held by Mr. Edwards or another person is not yet made clear, as the coroner has not announced the medical examiner's verbal report, but it is understood that an opinion has been expressed that such a wound might have been self inflicted, but in this instance in was unlikely. The coroner has not yet

the coroner's office and entered a back and was driven to his home. Two detectives were in the same carriage, which drove by the way of police headquarters, where a uniformed officer was obtained as a guard. Coroner Mix said that he would say nothing about the inquest. Maxcy Hiller, he sald, was not under surveillance; there was absolutely no charge against him. Several of Syfe's friends claim they saw Kaden alive Sunday afternoon, but searchers who found the body claim they discovered it ject to chills.
