A lot of wheat sold at Chicago this morning, and no one seems to know who it was for. One firm sold 1,00,000 bushels and another 500,000 bushels. The market absorbed it well, considering the size of the sales. On December 5 Liverpool March wheat was the same price as it is today, and the market here was 50c for May. Omaha Cash Sales.

CHICAGO, Jan. 5.—Liquidation by a num-ber of prominent bulls caused a sharp break today in the local wheat market. At the close wheat for May delivery was off ½c. Corn was up ½c. Oats were unchanged and provisions were unchanged to 5c higher.

CHICAGO, Jan. 5.—Liquidation by a number of prominent buils caused a sharp break today in the local wheat market. At the close wheat for May delivery was off the close wheat of the continue of the close wheat of the close wheat of the close of th mand was caused chiefly by an advance of 14d in the price of wheat at Liverpool and was due also to decreased receipts in the northwest. The market, however, soon encountered heavy selling orders from commission houses. These offerings were generally considered to be made by some of the leading bulls and general selling commenced which resulted in a quick decline, May dropping to 854c. At this point there was a slight railly, but it was of short duration. Fresh offerings came out and the market became still weaker, May declining to 88c. An important factor in the latter part of the trading was a statement from the official grain inspector of Argentina claiming that the exportable surplus of wheat would be greater this year than in 1905 and that the quality of the grain was better. The market closed easy with May at 894c. Clearances of wheat and flour were equal to 33,000 bushels. Exports for the week, as shown by Bradstreets, were equal to 3,840,000 bushels. Primary receipts were 511,000 bushels. Primary receipts a year ago. Minneapolis, Duluth and Chicago reported receipts of 233 cars, against 548 cars last week and 354 cars a year ago.

Despite the break in wheat the corn Despite the break in wheat the corn market was firm for almost the entire day. Large clearances at the scaboard, and Bradstreets report showing exports of \$,250,000 bushels for the week were factors that largely offset the weakness of wheat. Leading commission houses were active buyers and local traders followed their lead by making liberal purchases. The close was firm and final quotations were practically at the highest point of the day. tically at the highest point of the day. were 31 cars with seventeen of contract grade.
Selling by clevator interests caused some weakness in oats early in the session. The market later recovered all of the early loss on huving by shorts, who were driven to cover by the firmness of corn. May opened a shade to be higher at 32460224c to 334c, sold between 324c and 324c and closed at 324c. Local receipts were ninety-eight

The provisions market was firm through The provisions market was firm throughout the day on active buying by shorts and local packers. The strength was caused by a 100-fic advance in the price of live hogs and by an excellent demand for cash lard. There was considerable profit-taking in pork, and, because of this that product showed less strength. At the close May pork was unchanged at \$13.95. Lard was up 24.06c at \$7.604.07.65. The relaxation in the money market was more pronounced than since the turn of the year. There was a much calmer view of the significance of yesterday's remarks by Jacob H. Schiff foreteiling the greatest panic in history unless some change was effected in the prevailing currency system. This revised view was due not so much to the qualifying phrases found in the full report of the speech against the intention to imply a danger of immediate disaster as to a riper consideration of the conditions of the address. It was realized that the sagacity of the experienced banker would prohibit the issuance of a note of alarm at a time of actual strain and danger which would in itself aggravate the danger. It was reasoned, therefore, that the choosing of this time for giving his warning implied Mr. Schiff's conviction that the time of actual danger from the condition of tension in the money market was now past.

The stress laid upon the agitation for railroad legislation as an undesirable alternative to the desired measures for currency reform also indicated a strong special motive for the matter of the banker's address. LONDON, Jan. 5.—Rates for money were easier in the market today owing to the distribution of government dividends. Discounts were disposed to be lower on account of the more abundant supplies of money. There was a cheerful undertone on the Stock exchange, although operators generally were idle, this being the eve of the settlement. Nevertheless there was a fair amount of investment business. Consolo spened steady and hardened later on the money prospects. Home rails had a firm tendency. Americans opened weak, moved irregularly to below parity, became quiet. Russian imperial 4s improved at fast, but closed easier. Japanese were steady. Internationals hesitated owing to the Moroccan uncertainty and closed duil. Copper shares were depressed, especially Anacondas. Kaffirs were cheerful on the understanding that the pending coolie contracts will be fulfilled. Japanese imperial so of 1904 are quoted at 1024.

PARIS, Jan. 5.—Prices on the Hourse to-day opened heavy owing to more or less voluntary liquidations and uneasiness caused by the nearness of the opening of the Moroccan conference. The market is teadied later, but business wes confined to fresh offers. Russians closed heavy. Russian imperial 4s were quoted at 1024.

PARIS, Jan. 5.—Prices on the Hourse to-day opened heavy owing to more or less voluntary liquidations and uneasiness caused by the nearness of the opening of the Moroccan conference. The market huyers evidently were in no mood to add anything to yesterday's prices. They seemed willing to buy on the basis of a pleased them they picked up very quickly, while some others were rather shown and helfers was in about the same shape as the steer market. OMAHA. Jan. 5.—Bank clearings for to-day were \$1,577,752.33 and for the corre-sponding date last year \$1,612,622.51. BOSTON, Jan. 5.—WOOL—The Boston Commercial Bulletin will say tomorrow of the wool market: Manufacturers are show-ing greater interest in the market and deal-ers are confident that their attitude means substantial buying within a short time. The substantial buying within a short time. The constant looking around has not been confined by any means to small mills. The largest worsted and woolen buyers are close observers of the situation. A further indication of approach of active trading is the general taking of samples.

Sales of the week have been diversified, both worsted and woolen mills have taken territory, California and Texas short wools, fine fieeces and Australian merinos in a both worsted and wooden mills have taken territory. California and Texas short wools, fine fleeces and Australian merinos in a moderately free manner. Lines have ranged from 10.000 pounds, bought by small woolen mills, up to more than 100.000 pounds, purchased by worsted men. A good staple Montana is worth 70c clean, while fine Nevada brings 715/72c. Northern California went at 705/72c, while middle county resilized 676/68c. Fall Texas was taken at 33/234c. Fine Ohio Delaine is strong at 37c, and XX is in a similar position at 35c. Fine A's and A supers met with a better demand at full previous prices. Carpet wools are held extremely firm. Eastern dealers are willing to buy on the sheep's back as soon as prices are revised. It is estimated that there have already been 15,600,000 to 10,000,000 pounds contracted in Idaho, Wyoming and Utah. The shipments of wool from Boston to date from December 30, 1905, according to the same authority, are 4,33/230 pounds against 4,244,182 pounds at the same time last year. The receipts to date are 2,766.025 pounds, against 4,244,182 pounds for the same period last year.
