Superintendent Davidson accounts for the small number of teachers standing for the certificate examinations of the Omaha public schools by two reasons. Only sixteen took the tests for grade certificates and six for the high school, and the average

of work was below par. "The first cause lies in the fact that small cities and towns are paying higher wages to keep their teachers," said the superintendent. "The smaller communities advantages of the large cities they must

WEST BACK TO OLD RATES TWO REASONS FOR DEARTH ONE WEEK AHEAD OF TIME

Republican City Committee Will Not Meet Probably Until Next Saturday.

HOW TO NOMINATE COUNCILMEN QUESTION

Opinion Differs as to Naming Them from Wards or Selecting Them from City at Large.

Notwithstanding the fact that the local democratic organ announced a meeting of the republican city committee for Saturday to take up the question as to whether uncilmen should be nominated by wards or at large, no meeting will be held. It is true it is the intention of Chairman Cowell to call the committee together but not until next week and probably on next

The sole purpose of the session will be to thresh out the mooted point about the nomination of councilmen. It is not clear the city committee has any authority in the premises at all, since the primaries are in most respects under the direction of the city clerk, according to the new Dodge law, which is to be tried in Omaha city politics for the first time. However, as the law is silent regarding the choosing of councilmanic candidates by wards or the entire city, not a few politicians and men of affairs reason that in the absence of specific provision the party committee should and has the right to make the rules.

Legal Opinion Asked. Attorneys have been asked by Chairma Cowell to look into the matter carefully from a legal standpoint, so that when the many calls from councilmanic aspirants seeking to get his views on the point. The men who are classed as veteran politicians are generally in favor of nomination by Telephone 701. wards. Those who are new at the game and claim to stand for reforms of various kinds, regardless of factionalism, prefer to try their chances with the whole town One of the leaders of this squad is President Zimman of the council, who will try

The chairman of the committee inclines rather towards the nomination-at-large mitted himself. He takes the view that a councilman of necessity represents the whole city and can't get away from the proposition; that therefore he should be nominated by all of the members of his party in the city. He thinks the opinion of City Attorney Breen a logical one.

If the city clerk decides the question it will be in favor of nominations at large, Whoever decides it and whichever way it is decided, final adjudication probably will be in court, as the legal questions involved make it quite possible to establish a case there for either side.

But the committee meeting will be next week; not today.

OMAHA LEADS FOR THE YEAR Makes Biggest Percentage of Gain in Building of Any United States City.

Construction News for January 6 says: The building record for the year has been closed. It is in every way the most satisfactory that we have ever had. Building has gone on uninterruptedly in every city, town and village in the country and there is every indication that it will continue for a long time to come for a long time to come.

Of the twenty-six cities only four show decreases, and these were in no sense material—San Francisco, 3 per cent; Milwaukee, 30; Atlanta, 33; Des Moines, 58, and Davenport, 88. The increases were in many instances phenomenal. Marked activity instances phenomenal. Marked activity was noticeable in Omaha, the increase being 451 per cent; Indianapolis, 342; New Orleans, 318; Detroit, 171; Cincinnati, 222; Duluth, 114; Kansas City, 117; Rochester, 107; Toledo, 100; Grand Rapids, 32; St. Louis, 56; Minneapolis, 69, and Brooklyn, 42. New York's increase was 28 per cent, Chicago 14 and Philadelphia 36. It will thus be

Increased Salaries Will Be Taken Up by the Board of Education.

With the appointment of new committees the Board of Education is expected to take up the request of teachers for increased salaries immediately and to work out the matter to a conclusion. GILLER'S ORDER OBJECTED TO Attorney Connell Will Prepare a New Form to Carry Out Terms of

Sutton's Decision.

Attorneys Connell and Giller could not agree as to the form of the order to be nade under Judge Sutton's decision in the gas contract case Saturday morning. Mr. Giller had prepared an order, as directed by the court, but Mr. Connell contended that it was too broad and sweeping in its terms and might have the effect of preventing the gas company from lighting the streets pending final settlement of the case to act in that capacity, pending the settle- This Mr. Giller denied, and after considerable cross-firing Mr. Connell took the Giller order for the purpose of framing up one which shall conform with his view of the scope of the court's decision.
