## CONTROL OF CORPORATIONS

Representative Pollard Has Comprehensive Scheme Dealing with the Subject.

PROPOSES LICENSE AND EXAMINATION

Have Sympathy of President as Well as Commissioner Gar-

field for His Messure.

(From a Staff Correspondent.) WASHINGTON, Jan 6 - (Special Telegram.)-After consultation with Secretary Metcalf of the Department of Commerce and Labor and Assistant Attorney General Prouty, Congressman Pollard today introduced a bill which in many particulars is a most sweeping measure, designed to control corporations doing an interstate commerce business.

Mr. Pollard's bill requires all companies. partnerships, corporations, joint stock companies or associations of any description doing business between states or with foreign nations to take out a license based on the gross receipts of their business.

Congressman Pollard has been working on this bill for months. He did not desire to introduce the measure until he had seen other bills contemplating similar restrictions, but finding that none of the bills went so far as he originally outlined to his constituents in his campaign for congress, Mr. Pollard introduced his bill today. Under the terms of the bill all companies, etc., doing an interstate commerce business to the extent of \$1,000,000 are classed as interstate corporations. With this definition comes the direction that every company not only must pay a tax, but must

submit its books to examination by the commissioner of corporations. It is understood the president is in sympathy with this measure, as is Commissioner Carfield and Assistant Attorney Gen-

eral Prouty. Whether or not Mr. Poliard gets his measure through the house, it is conceded

that the bill introduced is most compre-
