# WILL COMMENCE PAYING DIVIDENDS JUNE 20

## Write for Atchison References

For the past ten days a force of men have been clearing ground for the first machinery at Atchi-Grading has now commenced. THE RAILROAD SWITCH IS COMPLETED. The first carload of machinery has

With one great refinery completed and in successful operation-with large storage and distributing stations on owned or leased grounds in the larger cities of Kansas, where by our own oil wagons the company can place their products at the doors of three-fourths of the population of Kansas-the Uncle Sam Oil company continues to grow, until work has commenced on Refinery No. 2, on the banks of the Missouri river at Atchison. When fully completed, this refinery will be the largest in the state, with a capacity of Four Thousand Two Hundred (4,200) barrels of crude oil daily. First carload of material arrived at Atchison last Thursday—balance is being shipped. Work will be crowded with a vim, until some time in May this plant will be turning out refined oil.

Along the Missouri river The Uncle Sam Company will establish large storage tanks at the principal trade and distributing centers for South Dakota, Nebraska, Iowa and Missouri, while at St. Louis Uncle Sam Oil Boats can reach by water the markets of the world at a saving of freight rates which in itself would pay large interest on money invested in the stock of this company at present prices. Don't wait until Uncle Sam Oil wagons are patroling the Missouri valley states the same as they are in Kansas today, and then expect to buy this stock under \$2.00 per share. Combined capacity of both refineries, when fully completed, will be Five Thousand Four Hundred (5,400) barrels of crude oil dails

Sixty-nine miles of the main trunk pipe line is now on the grounds. Over one-half of this sixty-nine miles is screwed together, while five-sixths of it is hauled and distributed along the right of way. Seventy miles more is contracted for. Men and teams are working continuously on this pipe line. Boilers and mammoth pumps for the two first pumping stations have arrived at Cherryvaie. With main trunk pipe line, river refinery and barges completed. The Uncle Sam Oil company will be one of the biggest dividend payers in the West. Allowing only 76 cents per barrel profits for refining the oil, and 55 cents more per barrel - the actual amount that the company will save over railroad rates by owning its own pipe line and river barges—the total net yearly profits on Five Thousand Four Hundred barrels per day will run considerably over TWO MILLION DOLLARS A YEAR Cutting this half in two would pay TEN CENTS PER SHARE yearly on stock offered you now at 20 cents.

arrived at Atchison. We would produce a photograph showing this work, but have not the space. By permission we refer you to T. R. Clendenin, President of the Committee of Forty at Atchison. If you doubt that the refinery work as above stated is commenced, send a stamped envelope to Mr Clendenin and find out for yourself. To Secure Some of this Valuable Stock in this Fortune Making Enterprise at 20c on the Dollar, Remittances with Order Should be Forwarded Promptly after you re ceiv

The Uncle Sam Oil Company today is a strong manufacturing enterprise. The refinery No. 1, at Cherryvale, now in successful operation, would in time complete both main trunk pipe line and refinery No. 2 on the banks of navigation, so when you buy this stock you are not buying hot air or joining a wind jamming concern, as a few jealous, blackmailing hirelings of the Oil trust would have you believe, but you are getting value received and securing stock that has a future—stock that cannot help but steadily advance as the work goes forward, and with pipe line and second refinery completed will command a market value of \$1.00 per share. The company is following safe methods; is doing what it promised, and now that it can soon commence paying dividends, the balance of the stock will sell readily at from 20 cents to a half dollar per share. This 20-cent price offered herein is not going to last forever—don't think that you can delay about sending in your remittance and buy this stock at this price in ten days or two weeks—if you do you are very liable to get left, for the stock is going—the work will be crowded and the value of the stock increased.

THREE-FOURTHS OF THE STOCK IS SOLD.

THREE-FOURTHS OF THE STOCK IS SOLD.

The Uncle Sam Company has over 5,006 STOCKHOLDERS. They represent every state and territory in the Union, also Camada and Old Mexico. These stockholders are working for the company—every day remittances are received from some stockholder who has secured an order for some of the stock from a friend. Besides this hundreds of the stockholders have been on the ground and are doubling and trebling their holdings. The stock offered herein will soon be sold. The wires will be ticking orders for the stock before some sleepy-heads realize what is offered them. Think of stock in a company with the strength and backing of the Uncle Sam Oli Company at 20 cents on the dollar. Such conditions will not last long. The stock is worth 40 cents per share right today, and with a few more miles of pipe line on the ground and a few more carloads of refinery material on the banks of the Missouri at Atchison, and that will be what you will pay for it, too, You can get 5,000 shares today for \$1,000. It will cost you twice this in ninety days. THREE-FOURTHS OF THE STOCK IS SOLD.

Read over the advertisements of the Uncle Sam Oil Company and you will see that it keeps its promises—makes good, so to speak, and it will continue to do this. If you don't think so, put up some money on the wager that this company does not pay a handsome dividend on the twentieth of next June, and see how quick you less it. On the rother hand. If you have some money bringing three per cent in a bank that is liable to bust any day, send it down and take a few thousandr shares of this stock. Secure property that will carn dividends for your children after you are gone. Pipe times, refinerns and oil wells are valuable—they are not going to run away—they will make money while you sleep. No reason on earth why this stock will not go to par of \$1.00 per share and pay large dividends. At any rate, the company knows what it can do—it has the oil—the refinery is in successful opefation—Uncle Sam oil wagons will reach out farther every day until the company will patrol the entire state—the profits in oil refining, as everyone knows, are large—if you want part of them you can get them by purchasing some of this stock, and you will get a dividend check on June 20. From then on the big river refinery will be completed, and if with the one refinery we can pay dividends, what can we do with the big one added to it? Let reason reign and line up with a really good, energetic enterprise once by securing some of this stock before it goes to a balf dollar per share.

WE CONTROL OUR OWN OIL TERRITORY. DIVIDENDS WILL COMMENCE JUNE 20 WE CONTROL OUR OWN OIL TERRITORY.

WE CONTROL OUR OWN OIL TERRITORY.

The Uncle Sam Oil Company can soon produce oil enough to furnish a 5,000-barrel refinery for twenty-five years from lands owned or controlled by the company. The company has the goods back of it. From 1,600 to 1,600 feet under ground this company will, by pumping the oil from its own wells and through pipe lines and refinery and over barges be gibt to reach the great population of the Missouri valley, until it is burning in their lamps and under their furnaces. Oil is a necessity-it will always command a good price. Profits are certain.

OVER 2,000 ACRES OF OIL RIGHTS.

OVER 30,000 ACRES OF OIL RIGHTS. in Labette, Montgomery, Elk and Chautauqua counties and in the Indian Territory the Uncle Sam oil Company holds oil rights on over 20,000 ACRES. Some of this territory is the most valuable producing property in the oil fields. Considerable of this territory is what oil men term very good. However, no one knows what is under the ground. These oil rights alone, when developed, may make this company's stock worth five times what it is now offered at.

HAVE DRILLED TWO WELLS THAT STARTED OUT AT OVER ONE THOUSAND BARRELS PER DAY. THOUSAND BARRELS PER DAY.

On eleven hundred acre lot 43-in the Osage nation, near Bartiesville—the company has completed three big wells. The first one drilled was estimated by disinterested parties at from fifteen hundred to two thousand barrels the first any. However, the writer of this can make afflavit that they do the first day. However, they are fortune makers just they do the first day of the would you like to own even a fifty-barrel oiler? Well, the Linel Sain Company has seen just fortunate enough to secure some of the oil fields. If you will cane down we can show you this is correct, too. You can drill an oil well in deep territory on every four acressand they will last. In the Kansas territory they ought to have five acres.

SUBSTANTIAL GROWING ENTERPRISE. DO YOU WANT YOUR INVESTMENT TO GROW WITH IT?

The Uncle Sam Oil Company today is a strong manufacturing enterprise.

The Uncle Sam Oil Company today is a strong manufacturing enterprise.

The Uncle Sam Oil Company today is a strong manufacturing enterprise.

Figure for yourself what the Uncle Sam company can put on the THIRTY the guise of interstate rates. From Council Bluffs this company will reach low.

FROM OMAHA THE COMPANY WILL REACH NERRANKA.

FROM OMAHA THE COMPANY WILL REACH NERRANKA.

FROM OMAHA THE COMPANY WILL REACH NERRANKA.

OWN OUR OWN DRILLS-DO OUR DRILLING AT COST. company owns four completete drilling rigs. Does its drilling at cost is a long mark in its favor and goes to prove that it is in the busi-

HAS MILES OF LATERAL PIPE LINES COMPLETED. At Cherryvale the company has pipe line connections with over three-fourths of the wells in the Cherryvale oil fields. All of these things cost money-runs into the thousands of dollars. They are paid for, though, and they are a fixture for assets back of this stock. CAN IREACH OVER ONE HUNDRED AND FIFTY (150) TOWNS IN KANSAS.

KANSAS.

This company advertised on the start that within a year it would patrol Kansas with its oil distributing wagons from border to border. Well, nine months have passed and today we can reach from our main distributing station over ONE HUNDRED AND FIFTY KANSAS TOWNS. OUR OWN TANK CARS

OUR OWN TANK CARS.

The company owns TEN TANK CARS and is securing more. Think of it! We have the oil from our own wells, have our own tank cars, have our own tank wagons and storage tanks, and about two thousand stock-holders in Kansas demanding that every merchant handle Uncie Sam oil! The facts are, this company has pretty near a lead pipe cich on the deal and is growing stronger every hour. It is anti-monopoly, bag and baggage, and is working for a square deal in good faith and is forcing the issue. Better join us while you can, at a price that will make you good money. \$250 will buy one thousand shares.

THIS COMPANY NOW EMPLOYS OVER FORTY MEN. THIS COMPANY NOW EMPLOYS OVER FORTY MEN.

In the oil fields, at the refinery at Cherryvaie, in the oil sales department and on the pape line, more than FORTY men are crowding the work of the Uncle Sam oil Company on to completion. During the next six weeks this number of men will be increased to over ONE HUNDRED. This company is doing things. An investment with it is bound to grow.

THE BALANCE OF THE STOCK WILL, NET THE COMPANY OVER A HALF MILLION DOLLARS.

While this company is strong tday—consider for a moment what a half million dollars more money placed in developing the different oil properties and completing the pipe lines and the big river rennery will dow when the stock is all sold there will be that much more cash back of the company. You are not joining any toy enterprise when you line up with Uncle Sam. You are securing stock that will be worth a dollar a share in a year, just as sure as you are a foot high.

LARGE DISTRIBUTING STATIONS ARE LOCATED IN THE FOLLOW-ING BIG KANSAS TOWNS ON OWNED OR LEASED GROUND. AS FOLLOWS:

Pittsburg, Atchison, Leavenworth, Topeka, Concordia, Wichita, Anthony, Winfield, Parsons and Salins. Grounds are secured and tanks shipped to part of the following pixes: indale a half dozen good towns are reasted futchison. While from Cherryvependence, Coffeyville, Weilington and right from the doors of the remnery.

CAPACITY OF CHERRYVALE PLANT IS 480 BARRELS DAILY NOW.

CAPACITY OF CHERRYVALE PLANT IS 480 BARRELS DAILY NOW.

We can handle 480 barrels of the crude oil daily at Cherryvide. We are behind with our orders right now, as can be proved by letters. The company will ship two carloads a day for the next ten days and then not eatch up. SOLD 12,000 GALLONS IN ONE DAY TO ONE MAN.

SOLD 4,00 GALLONS IN ONE DAY TO ONE MAN.

This company can handle big orders. It has the goods and the equipment to put the refined oil on the market. Besides handling a large barrel trade and supplying the big distributing stations, the company is getting in line with the big inndependent producers in Southwest Missouri purchased FORTY-TWO THOUSAND ONE HUNDRED AND EIGHTY-SIX GALLONS in one day of this company. FOURTHEN THOUSAND GALLONS OF THIS OILS WAS LOADED AND SHIPPED the next day after the sale was made. As before stated, this is not a hot air company. We offer you value received in the stock of this company and you will reap big rewards if you are fortunate enough to secure some of this stock before it is all sold and work completed, CAN SAVE 55 CENTS A BARREL. TO MISSOURI RIVER POINTS CAN SAVE M CENTS A BARREL TO MISSOURI RIVER POINTS.

This company can save Fifty-Five cents a barrel by pumping the oil over a main trunk pipe line to the Missouri river and then carrying it by barge to the different river points. This saving alone on the full capacity of the two refineries, when fully completed, would pay over SEVEN far cent yearly on each share of this stock. These are facts that can be proven and is one of the big reasons the stock is in demand.

FROM OMAHA THE COMPANY WILL REACH NEBRASKA. narket for oil. From Omaha the company can reach the Nebraska trade. The same arrangements will be made in South Dakota.

WILL BE THE LARGEST REFINERY IN KANSAS. The largest refinery the off trust has in Kansas is 2500 barrels daily. The 'ncle Sam Company's big river plant, when fully completed, will have a ially capacity of FOUR THOUSAND TWO HUNDRED (4,200) barrels daily, The first carload of machinery is now on the ground. Balance will soon

COMPANY HAS THIRTY-EIGHT ACRES OF LAND, WITH A HALF MILE OF MISSOURI RIVER WATER FRONT, ALSO RAILROAD AND SWITCHING PRIVILEGES.

Contracts are signed for the river refinery. Here large storage tanks will be built. By-product manufactures will be completed. The company has a splendid site of thirty-eight acres. There is a water front on the Missouri river for nearly a half mile. Don't wait until the company has one of the greatest and most complete refineries in the west on this thirty-eight acres and then expect to buy this stock even at \$1.00 per share. The time to you to get busy is now. Help yourself and this company, too, by sending a draft or check today. You can secure THIRTY THOUSAND SHARE, now for \$5.600, which is the largest amount the company will sell to any on man, or you are welcome to take 100 shares at \$20. This is a common man's property. The rights of the smallest stockholder will be protected.

FIRST PIPE LINE PUMPS HAVE ARRIVED.

The first two mammoth pipe-line pumps have arrived, also boilers. The first pumping stations will be twenty-three miles apart. This company is preparing to pump FORTY-FIVE HUNDRED BARRELS of oil daily over this pipe line.

HOW WE WILL PAY DIVIDENDS ON THIS STOCK A certain amount of the profits made from the Cherryvale refinery now in full operation will be set aside monthly to meet a dividend in June. You will not have to wait for eternity to get returns from your investments when you buy this stock, and when the big river refinery is completed, which will be by that time, the dividends will, of course greatly increase. The money raised from the safe of the ballance of the stock will more than build the second refinery and complete the main trunk pipe line and drill close to 100 more offers.

CAN YOU AFFORD TO TURN DOWN AN INVESTMENT IN THIS GROWING ENTERPRISE?

As you will notice by the following quotations on stock, so many shares when sold will pay for so many rods of main trunk pipe line. It is very important to complete this pipe line and a special effort will be made to have a completed by the time the big river plant is ready to receive oil. Of yourse, if the line is not entirely completed the company will use tank cars from the nearest railroad station at the end of the completed pipe line and an make the pipe line a big payer from the word go-every mile of pipe line completed knocks off that much freight. We think that we can certainly pay for TWENTY MILES of this pipe line each month, and we have our calculations on the results from the past, when the company was not one-hundredth as strong as today. The offer on stock is as follows and following each quotation is the number of rods of pipe line your remittance will enable the company to buy. will enable the company to buy.

\$1,320 will pay for one mile of the main trunk pipe line, and buys 7,000 shares, par value. \$700 will pay for over one-half mile, and buys 3,500 shares

\$500 will pay for nearly one-half mile, and buys 2,500 shares, \$2,500

will pay for nearly one-fourth mile, and buys 1,500 shares, par value... \$200 will pay for nearly one-sixth mile, and buys 1,000 shares

The farther north you go the higher is the price of coal and the better 7,000 shares, \$200.00 cash and 6 monthly payments of \$200.00 each 5,000 shares, \$150.00 cash and 6 monthly payments of \$150.00 each 3,000 shares, \$90.00 cash and 6 monthly payments of \$90.00 each 2,000 shares, \$60.00 cash and 6 monthly payments of \$60.00 each 1,000 shares, \$30.00 cash and 6 monthly payments of \$30.00 each \$15.00 cash and 6 monthly payments of \$15.00 each 250 shares, \$7.50 cash and 6 monthly payments of \$7.50 cach \$3.00 cash and 6 monthly payments of \$3.00 cach 100 shares.

## SPECIAL OFFERS

For a Few Days the Company Will Sell Stock in Fifteen Thousand (15,000) Lots-Par Value, \$15,000-for \$2,800

This amount of money will pay for considerably over two miles of main runk pipe line. Where a club of men go together the company will issue stock, as directed, in amounts of 10c, 500 and 1,000-share certificates—just as

## SPECIAL INSTALLMENT OFFER

Fifteen thousand (15,000) shares for \$500 cash and six monthly payments of \$40 each. The chances are ten to one that long before you have the six payments made that the value of your stock will have increased double and be selling at close to 50 cents per share. If not higher,

## IN CONCLUSION.

The charter name of this company is "The Uncle Sam Oil Company," Its authorized capitalization is TEN MILLION SHARES; par value, \$1 each. Every share of stock draws the same amount of dividends as any other share. The officers of the company are: James Ingersol, president; J. H. Ritchie, vice president, and H. H. Tucker, Jr., secretary and treasurer. These men also constitute the board of directors. Ail of the stock of the company has been sold for cash or its equivalent from the start. You cannot buy a single share from a single one of the above named officers under \$1.00 per share; in fact, their stock is not for sale at any price. The management is the same now as in the beginning—the old guard is in the traces working harder than ever. This stock is offered for sale and being sold to buy pipe line and machinery for the liver refinery. When you have tor stock your money goes into the enterprise to make the very stock you buy more valuable. The company is in touch with over TEN THOUSAND investors by special letter report. This announcement will appear in the principal and influential papers in the United States—will be read by over TWENTY MILLION PEOPLE. The company is a straight, legitimate enterprise than even the most entire. buy pipe line and machinery for the river refinery. When you invest for terprise-one that is already a fargreater success than even the most enthuslastic expected on the start. References - Montgomery County National bank, People's National bank and Cherryvale State bank, all of Cherryvale. Kan. The company has reveral pictures of the refinery at Cherryvale and different views of the oil fields, which it will send with other information to investors who wish further information. The company is so well advertised and has so many working for it that without a doubt the stock will soon be sold, and investors would do well to not delay in securing the stock you want, as the company is one of great merit and the price of the stock, with want, as the company is one of great merit and the price of the stock, with the assets back of it, offers every man an investment that he must admit is good and far above the ordinary proposition. You will probably never have an opportunity again to invest with a company like this. It was born of necessity. It is backed by influential men in both state and nation, and if you join our band, now over 5,000 strong, you will be treated fairly, and we sincerely believe will secure stock now at 20 cents per share, or onefifth of its par value, that will go to par in less than a year. The company realizes that it must offer a great investment and great inducements to raise money as fast as we need it, but will make it all back in a few months with main trunk pipe line and river refinery completed. We solicit your investment in good faith and the statements made herein we can back with proof.

Swears Out Complaint Against U. B. Cottrell of Waterloo, lows, for Getting Him in

Trap.

A complaint charging N. B. Cottrell of Waterloo, Ia., with obtaining money under false pretenses was filed Tuesday morning in police court by Deputy County Attor-

Hoctor of South Omaha, who alleged Cottres sold him stock to the extent of \$100 in a concern known as the "Hydro Carbon Gas Manufacturing company," of which concern Cottrell was vice president and general manager until the time of his recent withdrawal. Hoctor said all of Cottrell's statements concerning the company eere false and fraudulent. A warrant has een issued by Police Judge Crawford for ie arrest of Cottrell.

After offering a plausible story of the Hydro Carbon company at the Paxton hotel last September, Cottrell succeeded in selling \$100 worth of the stock to the South Omaha man, besides a number of prominent Omaha business men. Mr. Hoctor stated he believed Cottrell disposed of over \$2,000 of the stock in this county and sold altogether something like \$100,000. Recently Resigned Office

General Manager Mobiler of Union Pacific Denies Statement of Hill's Securing Control of that Road.

"We have men in the field surveying a line into the basin from the south. The road is being built from Worland to Frannie. We have the line mapped out on to Thermopolis from Worland, are still working with just as large a force as we did have on the North Platte extension to Northport and have abandoned no plans which we announced some time ago," said General Manager Holdrege of the Burlington in response to an inquiry as to whether his road was to abandon some of its projects in Wyoming.

This query was brought forth by a re port from Denver that the Burlington would not build through to Salt Lake City. as that town was considered a Union Pacific point. It was said an agreement had been reached whereby the Burlington was to shandon its line to Salt Lake if the Johnson, will be held Wednesday, Janu- Union Pacific would abandon its line to ary 10, at 2 p. m. at Eagle hall, 107 South Saratoga and Colorado and also to Lander, The report also said that the Union Pacific had abandoned its plan for building a have charge of the services. Friends in line from Wolcott to Saratoga and Encampment and that the Union Pacific and the Saratoga & Wyoming have reached an agreement whereby the latter will be built with the Union Pacific baving treffic rights

over it. To this General Manager Mohler said: "Mr. Hill has not bought the Union Pacific and our men are still at work on this road, so it does not look like we had aban-

GARLAND, Wyo., Jan. 2 .- (Special.) Track laying on the Frannie-Thermopolis branch of the Burlington will be comnenced on January 15, and will be pushed at the rate of a mile a day. The grading from Frannie to Worland will be com ploted by that time. Frost is interfering with the work in some places

Backed by Burlington.

The Saratoga & Wyoming is supposed to be backed by the Burlington and is part of road known as the Denver, Yellowstone & Pacific and it is said this road will be built on into the Yellowstone, but as to this General Manager Holdrege disclaimed any knowledge.

Mr. Mobiler says that the report that he recently had a conference with J. M. Romsey, the active head of the Baratoga & Wyoming and agreed to withdraw his mer from the field and give way to the Saratogu & Wyoming, is wrong, as his men are still at work. The report also said the Union Pacific had turned over to the Saraoga & Wyoming some of its right-of-way and that in return the Saratoga & Wyom ing will give the Union Pacific a large share of its east and west business

It is claimed with the Union Pacific now out of the field the Saratoga & Wyoming will now build from the Moffat road on the south from Denver, through Fort Collins north from Wolcott on the Union Pacific to Yellowstone Park. This is strictly a Hill line, as the Burlington is back of it.

General Manager Mohier and party leave for Chicago Tuesday night. Gerrit Fort, assistant general passenger agent of the Union Pacific, went to Chicago Monday evening. J. Y. Callahan, general western agent of the Nickel Plate, with headquarters in Chi-cago, is in the city.

Railway Notes and Personals.

The Chicago Great Western will run a special train for the Damrosch orchestra from Minneapolis to Omaha. The orchestra plays at Minneapolis January 24 and in Omaha the next night at the Auditorium. so a special train was necessary. This will consist of a baggage car, three sleepers, a chair car and a coach.

RICH SOIL WAITS SETTLERS Phelps and Harlan Countles Offer Big Inducements to Industrious

W. H. Cowgill, a prominent land owner of Holdrege, is in the city for a few days arranging with the railroads to send a few more settlers to some of the "richest land

on the face of the earth." "We have land in both Phelps and Harlan county and lucky was the man who bought land there three years ago, when we were out looking for settlers," he says. which was then sold for \$20 an acre is now held at \$75, which is not a bad investment for three years. During the past two years our firm alone has sold over 200 farms to settlers in these two counties and this spring over 10,000 acres of virgin soil will be called upon to yield forth a crop for the first time. We do not need irrigation as the rainfall has been sufficient for years

without a crop fallure "We will have a large acreage of winter wheat and the weather and moisture for this could not have been made better to order. As soon as the winter is safely passed all this acreage of wheat will increase in value at least \$5 an acre. There is plenty of land to be had at reasonable figures and the newly created land department of the Burlington will soon be ir

WATTLES AGAIN PRESIDENT hanges in Ak-Sar-Ben Board, but Not in Officers of Organiza-

tion. The Board of Governors of the Ak-Sar-Ben met Tuesday evening at the Omaha club to outline plans for Ak-Sar-Ben for the ensuing year and for the election of officers. G. W. Wattles was re-elected president of the board; Charles Pickens, vice president; Emil Brandels, treasurer and H. J. Penfold, secretary. George West C. R. Courtney and Gould Dietz were reelected members of the board to succeed

themselves, their terms having expired

Mr. West tendered his resignation as a member of the board, as he stated that it would be impossible for him to serve dur ing the present year. C. N. Robinson also tendered his resignation from the board, as his entire time would be occupied with his business, particularly in looking after the erection of the new Byrne & Hammer building this year, and that he could not possibly devote his time to the Ak-Sar-Ben work as a member of the Board of Governors. The resignations of Messrs. West and Robinson were rejuctantly accepted and Victor B. Caldwell and W. L. Yetter were elected to succeed them.

President Wattles announced that he would name the permanent committees at the next meeting of the board, to be held Tuesday evening. January 23. The dates for the Ak-Sur-Ben will also be announced at this meeting.

A wonderful record for the National Mutual Life Insurance Company of Omaha, Nebraska. April 15th, 1905, it filed its amended articles of incorporation, and it is now able to make the following statement, which was carefully examined into on January 5th and approved by the combined Insurance Departments of Nebraska, Minnesota and Wisconsin.
