Secretary of War Takes Exception Charge of Graft and Incompetence.

SAYS WRITER'S INFORMATION IS LIMITED

spent But Twenty-Eight Hours on the Isthmus and Interviewed Persons Binsed Against Commis-

WASHINGTON, Jan. 10 .- An elaborate and comprehensive answer to the charges against the isthmian canal commission contained in an article in the Independent has been made by Secretary Taft. It is in the form of a letter to the president, who on January 6, in a communication to the secretary, said his attention had been directed to an article purporting to have been written by Mr. Poultney Bigelow, "attacking the administration of affairs by the canal commission and yourself on the isthmus," and adding, "will you please advise me what basis, if any, there is for

In his reply Secretary Taft first briefly

summarizes the charges as follows: summarizes the charges as follows:

Alleging that the conditions in Colon are so unsanitary as to indicate great neglect in providing for the health of the employes of the commission, alleged mistreatment of negro labor; that persons appointed to the isthmus are incompetent and have been given their places through political influence, and official incompetency or misconduct, the latter involving the charge that there is so much "red tape" necessary to bring about the construction of buildings that great misery has some to the laborers on the isthmus.

The secretary says that Chief Engineer

The secretary says that Chief Engineer Stevens is now in Washington and is personally cognizant of the fact with respect to every local condition described by the writer of the article and a memorandum of comments thereon by Mr. Stevens is appended to the letter as an exhibit.

Regarding the charge of indifference as to food supply for the laborers, the secretary refers to the reports on the Markel contract and says the very diligent efforts made in this regard are sufficiently set out there, as already published.

Charge of Favoritism Denied.

As to the charge that officials on the isthmus were appointed through congressional or political influence, the secretary says the chief engineer categorically denies this, "and I am able from the standpoint of Washington also categorically to deny it." Political influence, he says, has played no part whatever in the selection of ap-

pointees. Secretary Taft declares that the charge of delay by "red tape" in the construction of buildings on the isthmus is shown to be untrue by the statement of the chief engineer, and as to the allegation that the dredges in the Culebra cut were not working to 3) per cent of their promised capacity, the secretary says there are no dredges within a long distance of the Culebra cut and that the instruments there being used are steam shovels

Secretary Taft says the charge that querantine officials construe the law and enforce it as far as possible to interfere with commerce is "utterly unfounded."

Secretary Taft repeats his former state ment that the charge that a boat load of black women were imported from Martinique for immoral purposes is false and refers to documents to corroborate this de-Shepherd Check Waists, pretty styles, at

Bigelow's Source of Information. Secretary Tafe continues: "Finally, I come to the charges specifically made against the secretary of war. They consist in a refusal to accept the guidance of

Mr. Tracy Robinson in visiting the purlieus of Colon, and a refusal to have an interthese charges I plead guilty."

that the correspondence shows "how unfounded this is and that in fact Mr. Lundie did not ask for an interview at all." Twenty-Eight Hours on Inthmus.

Secretary Taft states that the writer of the article containing the charges arrived in Panama Lovember 30 and left December 1 and that "it is not unfair to say that his opportunities for observing were limited to twenty-eight hours, including day time and

In view of this statement the secretary says the writer should not take exception to the seven or eight days which twelve of the most distinguished engineers in the world in canal construction devoted to the same task. But, remarks the secretary, the writer will answer that he did not depend upon his own observations, but consulted witnesses. "Two witnesses we are able to identify, Tracy Robinson and John Lundie. He added: "The others are unnamed and most of them negroes from the West Indies.

Secretary Taft says Mr. Robinson is the owner of property in Colon. "His animus against the government," says Mr. Taft "is because it devoted its first attention to the expenditure of money in Panama and thus raised the value of property in that city, and secondly in the enforcement of the health regulations by the contrary do. partment in Colon he found it necessary

FOOD-

NOT MEDICINE.

It all the treatments for consumption were put in book form it would make a pretty big library. But after all there has been little improvement over the old treatment of rest, fresh air, sunshine, plain, wholesome food and Scott's Emulsion. The latter supplies nourishment that cannot be secured in any other way, and after all, nourishment is what the consumptive needs first.

A gain in weight, however slight, is a long step toward improvement. If there is the least thing to build on Scott's Emulsion will enable the patient to make that gain. People have gained a pound in weight from a bottle of Scott's Emulsion-it's an exception when they don't.

We have seen Scott's Emulsion take hold of a patient and bring about a change for the better inside of a week. It always helps even the most stubborn cases. SCOTT & BOWNE, oop Pearl Street, New York-

to complain that his vested rights were being interfered with.

"Thirdly," the secretary says, "Mr. Robnson applied to the former chairman of the ommission for a position at \$5,000, declining the position of mayor of Cristobal at \$1,500 and that he applied to Governor Magoon for a position, but was told there

were no vacancies." Mr. Lundie, the secretary says, is an electrical engineer who was employed to visit the isthmus to superintend the construction of a plant for the generation of electricity and for the manufacture of loc by a private company. Mr. Lundie "objects seriously to the government's furnishing its own light and ice and insists that it is its duty to patronize his company." He protested to Secretary Taft while the latter was on the isthmus and later wrote the

Mr. Landle's Charges.

The secretary says it is quite certain that a copy of Lundie's letter to you was shown to the writer of the article in view of similar language used and sharply arraigns on this score the good faith of the writer of the article. Mr. Taft declares that no engineer in the country is better fitted for the work than Mr. Stevens, In the letter addressed to the president by Lundle and referred to by Mr. Tafts the writer says:

I have never seen such a piece of mis-management and demoralization as exists oday on the Isthmus of Panama. He charged that Secretary Taft had a great deal of time for social entertainment while on the isthmus, and said the en gineers might as well have stayed at home and studied book data. He referred to Mr. Shopts in uncomplimentary terms, who, he said, seems to dictate the physical and moral tone of what is done on the isthmus The United States he declared under such influence, would become the laughing stock of the world.

Appended to Secretary Taft's letter is a memorandum of comments by Chief Engineer Stevens on these charges. He takes up specifically various statements and denies their truthfulness. Mr. Stevens also makes a general arraignment of parties from whom he alleges emanate "apparently systematic misrepresentations.

FIGHT ON STATEHOOD

Republican Opposition to Hamilton Measure Makes Little Headway. WASHINGTON, Jan. 10 .- Opposition the republi n mem ers of the hous of the refrigerating plant in Panama. To to the Hamilton joint statehood bill seems had the ten given that Mr. Lundie's application for an for the signature of the republicans who interview was made in the interest of the will vote to defeat a rule defending the negro laborers on the isthmus and declares amendments to the Hamilton bill. This

for the consideration of the house in a few aries. days, and it is now expected that this bill will be placed before the house immediately after the Philippine tariff bill has been disposed of, as the leaders are said to be anxlous to delay the statehood bill until Speaker Cannon is more certain how the republican members stand on the measure.

HOUSE WILL PASS RATE BILL Hepburn Measure Will Be WASHINGTON, Jan. 19.-The republican

members of the house committee on interstate and foreign commerce at a conference which lasted three hours this afternoon agreed to support the Hepburn railroad rate bill, with a few modifications. which were agreed on and which relate chiefly to court procedure. These modifications were taken from the provisions of the Esch-Townsend bill and are in the nature of a compromise with the supporters of that measure. The committee will report the bill to the house next Friday. Representative Townsend of Michigan, the author of the Townsend bill, which was consolidated with the Esch bill and passed at the last session, it is announced, will make the opening speech in the house in favor of the Hepburn bill. It is planned to bring in a rule on the Hepburn bill when it is considered in the house so as to prevent amendments except on the first day of the debate. The democrats, however, are to be permitted to supply a substitute on which they can go on record. This, of course, it is pointed out, is the same as was followed with the Esch-Townsend bill, when the democrats submitted the Davey

The republican members of the committee expressed the opinion that the debate in the house will continue not over a week.

Sominations by President. WASHINGTON, Jan. 10.-The president oday sent to the senate the following nominations:

inations:

TO THE PRUDENT INVESTOR

It is not enough to be sure that a savings concern is the oldest, largest or most progressive of its kind. An investor will want to know all about its condition and its ratio of expense to receipts and expenditures.

THE CONSERVATIVE, with \$1,-520,000 resources and a reserve and undivided profit account of \$57,000, is the largest and safest savings association in the state, and its condition is best described in the three words-SOUND, SOLID and SUCCESSFUL, Its ratio of expense is less than 2 per cent of the annual receipts.

We receive savings accounts of from \$1.00 to \$100.00 at any time, or investments of from \$100.00 to \$5,000.00. and allow dividends on all money received by us from the date it reaches this office. Thus far, in fourteen years, we have never paid less than 6 per cent per annum.

Kansas Perfects Permanent Organization at Leeding Held in Wichita.

EX-GOVERNOR VAN SANT MAKES SPEECH

Commercial Life of Nation

Depends Upon Equitable Railroad Charges.

WICHITA, Kan., Jan. 10 .- A freight rate mass convention made up of 600 delegates representing commercial and farmers' organizations from all parts of Kansas was held here today. A permanent organization for the purpose of pushing railway rate legislation was perfected and resolutions were adopted urging congress to give a railway rate commission power to control railroad rates. It also was decided to perfect organizations in every county in the state and to follow in the footsteps of Wisconsin in securing a state bill to control corporations. The convention was strictly nonpartisan.

J. L. Bristow of Salina, Kan., formerly fourth assistant postmaster general, was made permanent chairman. Specches were made by Chairman Bristow, S. R. Van Sant, former governor of Minnesota; J. L. Lenroot, speaker of the Wisconsin house of representatives; Governor E. W. Hoch of Kansas and others.

Address by Van Sant. Ex-Governor Van Sant was the first

speaker.

The eyes of the nation are turned toward Kansas and the people of America are deeply interested in your struggle of self-preservation. I am with you in your fight with the Standard Oil company and its powerful head. John D. Rockefeller. Do you know the power of corporate wealth? Do you fully realize the vast influence it wields? Have you paused to consider how mercilessiy it punishes those who stand in its way and oppose its will and how it villifies, abuses and migrepresents every man who does not erings before it? If any one of you is a public official and has speaker.

among the republican members of the house to the Hamilton joint statehood bill seems to be making little headway. The leaders of the insurgents have prepared a pledge for the signature of the republicans who will vote to defeat a rule defending the amendments to the Hamilton bill. This was freely circulated today among the opponents of joint statehood and is now said to bear forty-five signatures.

About twenty republican members are undecided on the statehood fight and the struggle to win them by the opposing factions is waxing hot. The insurgents insist that many of their sympathizers have not yet had an opportunity to sign the pledge and claim that they will readily obtain more than sixty names. Administration supporters declare the total strength of their opponents is not much more than forty.

An urgent deficiency bill will be ready for the consideration of the house in a few days, and it is now expected that this bill to the day of your are the special object of the time of your arch enemy is greater. The wealth of your ach enemy is greater than that of any man "who ever lived in the tide of times."

You can win this fight if you are determined. You have the power in your own hands. In our country the people rule. No man should go to congress or sit in legislative bodies who does not vote right on questions affecting the welfare of the state. Not only hold meetings, but attend to any or party and see that honest and efficient men are chosen to represent you. Afterwards go to the polis and vote. Do your utmost to eliminate the wardheeler, the caucus manipulator and the party boss; delegate to the rear the man with a political pull and let efficiency be the only test for public office.

Our legislatures should pass primary election laws giving the people an opportunity to anomate United States senators as well as all other officials by direct primaries.

As to Transportation.

As to Transportation.

As to Transportation.

As to the transportation question, it affects every man, woman and child in the nation. One of the difficulties in dealing with it is the unfairness of the railroads. It is not true, as they persistently state, that the friends of rate regulation desire to have the Interstate Commerce commission arbitrarily fix all rates. We stand exactly with President Roosevelt and only want power given the commission, after a rate has been challenged and found to be unreasonable, to name one, have it go into effect immediately and remain in force until review by the courts.

The railroads now can do as they please, as there is no power to enforce the decrees of the commission. All we ask is to have the power decreed that congress failed to grant formerly. Either give the commission that authority or abolish the commission entirely. Give us a just measure, stop rebates and similar discriminations, let all private car shipments cease and marked progress will have been made in the settlement of the vexed transportation question.

I am not an alarmist, but it is time to

ion question.

I am not an alarmist, but it is time to call a halt. We are building you up a class of individuals in our country by spechas of individuals in our country by special transportation privileges that menace our free institutions. No one can estimate the damage wrought by the pernicious system of favoritism. It, and it alone, falls to John D. Rockefeller to crush every com-

The Greatest Department Store in the World.

Imagine a departmnet store so large that everything you can think of is sold there-even intangible things, summer resort, ocean trips and educations; suppose you found in every department the proprietor ready to wait upon you and explain his goods; suppose you were the only person in that great store with all these goods to select from, and all these proprietors to explain them to you. Such is McClure's-the Market-Place of the World.

SHORT SESSION OF THE SENATE

Eighty Minor Bills Passed and Early Adjournment Taken. WASHINGTON, Jan. 10. - The senate nade it plain today that it had had yesterday all that it wants to hear for the present of the Moroccan question. There were two opportunities to resume consideration of the subject, but both were avoided apparently with the assent of all the members and the senate adjourned at a comparatively early hour rather than take it up. Notwithstanding the early adjournment a great deal of business was disposed of About eighty bills were passed, leaving on the calendar only six or seven measures Of the bills passed, a large majority grant private pensions and many were bridge bills. One of the bills favorably acted upon appropriates \$200,000 for the appropriate marking of the graves of confederate sol-

the civil war. For the rest of the session the senate gave attention in turn to the question of to the pure food bill and the merchant marine shipping bill, but without taking action on either of those subjects. The canal subject was discussed by Mr. Simmons and the pure food bill by Mr. Heyburn. The only action taken on the ship Kelfer (O.); once speaker of the ping bill was that of reading it at length. At the beginning of today's session in the senate Mr. Crane introduced a joint resolution requesting the president "to open negotiations with the other nations to secure the neutralization of the Philippine islands and the recognition of their independence whenever the same shall be granted to ther
