

WARE CASE AT LAST OPENS

Attorney Mahoney Attacks the Indictment as Being Fatally Defective.

SAYS ACQUITTAL WOULD NOT END MATTER

Special Attorney Rush for the Government Insists the Indictment is Good and that Clerical Errors Do Not Count.

Not since the arguments were submitted in the case of ex-United States Senator Electric two years ago has the United States court room in the postoffice building held as large a crowd as was assembled there Wednesday afternoon to witness the opening of the case of the United States against Rev. George G. Ware et al.

The case was originally set for hearing Tuesday, January 2, but was later continued to January 8. However, owing to the fact that T. J. Mahoney, the leading attorney for the defense, was engaged in the trial of a case in the state courts, it was not until 2 p. m. Wednesday that he was able to be present to represent the interests of his client.

Mr. Mahoney began his argument promptly at 2 o'clock. He said that the motion to quash applied to both indictments against his client, but there is practically but one case. He said in the event of the motion to quash being overruled he would at once submit a demurrer, but without argument, as the demurrer would cover identically the same grounds as the motion to quash.

Attack on Indictments. Mr. Mahoney's argument was upon the insufficiency and indefiniteness of the indictments. One of these was returned on November 24 and the other on November 28.

The indictment of November 24 alleges in the fourth and fifth counts that certain of the lands described are located in range 22, township 22, in Hooker county, said Mr. Mahoney, "whereas the fact is range 22 is located in Blaine county, sixty miles east of Hooker county, and range 22 is in Hooker county at all. In one of the counts it is also alleged that the conspiracy was entered into March 19, 1902, or more than three years before the indictment was returned. This leaves us uncertain as to the date when the alleged offense was committed, and this count is the only allegation of a wrong being committed, in this indictment."

The remainder of Mr. Mahoney's argument related to the insufficiency of the indictments, in that they did not go into particulars, and because of this insufficiency and vagueness the defendants were not sufficiently informed of the charge against them. He held that the acts and intents of the accused must be fully set forth in the indictments, but nothing of this character was shown. He said:

"When an agreement is alleged setting forth a crime or conspiracy in an indictment, it should show what the accused intended to do, not what they accomplished. The indictment should show every element of the offense endeavored to be charged. A verdict of not guilty under an indictment such as this would mean a re-trial under the same indictment, and the number of trials that might be brought would only be limited by the ingenuity of man."

NEW BODY IN IRRIGATION

National Federation Formed with Set of Provisional Officers.

AIDE TO THE NATIONAL CONGRESS

Organization Will Endeavor to Second the Efforts of the Older Body and Further Work Along Other Lines.

The National Irrigation federation was organized in Omaha, Wednesday by a number of friends of irrigation, among them D. H. Anderson, Chicago, editor of the Irrigation, C. L. Shumway of Scotts Bluff, Neb., William Frank of Grand Island, Neb., and Hugh Kelly of Ames, Neb. Men of national repute were elected officers.

Mr. Anderson had letters from leading irrigators in a dozen different states, advising him and his colleagues to effect a temporary organization, assuring him of their support and offering to do duty as officers and members of the executive committee.

The present organization is to hold good until the first annual meeting, which will be held in Boise, Idaho, in June. It is determined by the executive committee to correspond with dates selected for the meeting of the National Irrigation congress. It is for the purpose of facilitating regular organization and getting work started with promptness.

The object of the new body is not only to aid the existing National Irrigation congress in every way possible, but to take up work which it does not touch, the organizers feeling that an association with an executive committee which may meet several times a year, empowered to do business, can do more for irrigation than such an organization as the congress. The purposes of the federation are named by Secretary Anderson as follows:

- 1. To endeavor to harmonize conflicting interests in efforts to perfect the National Irrigation act.
2. To counsel with federal authorities and private enterprise relative to determining their respective priorities and privileges.
3. To promote essential legislation, propose laws to encourage irrigation development, to perfect those already on the statutes.
4. To circulate instructive irrigation literature and to fearlessly criticize the reclamation service and prevent errors and waste that must eventually be borne by the irrigator user.
5. To aid in adjustment of freight rates to and from the new areas, and to recommend establishment of mills and factories where needed.
6. To accomplish by criticism and suggestion increased efficiency and perfection of the National Irrigation act.
7. To fearlessly criticize the reclamation officials or private promoters should they offend our sense of justice.
8. To aid in adjustment of freight rates to and from the new areas, and to recommend establishment of mills and factories where needed.
9. To accomplish by criticism and suggestion increased efficiency and perfection of the National Irrigation act.
10. To invite friendly discussion and earnest cooperation in efforts to perfect the reclamation service and prevent errors and waste that must eventually be borne by the irrigator user.
11. To preserve the rights of the pioneers of irrigation against unjust aggression and confiscation.

Officers of New Federation. The following officers were elected, to serve until the first annual meeting: President, ex-Governor L. Bradford Prince, New Mexico; Santa Fe, secretary, D. H. Anderson, Illinois; National Executive Committee: G. L. Shumway, Nebraska; Scotts Bluff, chairman; C. G. Rowley, Michigan; Jackson; John M. McAlpine, Minnesota; Duluth; Zora Snow, Oregon; Portland; C. M. Heinze, California; Los Angeles; ex-Governor Frank Hunt, Idaho; Boise; Lucius C. Buckler, Colorado; Denver; Vice president: Tom Richardson, Oregon; Portland; Judge Cyrus Happy, Washington; Spokane; C. E. Brainard, Idaho; Payette; A. H. Heber, California; Los Angeles; Senator Fred J. Keisel, Utah; Ogden; Clarence T. Johnston, Wyoming; Cheyenne; Prof. O. V. P. Sloan, Nebraska; Lincoln; Executive Committee: Colorado: Denver; J. Turley, New Mexico; Farmington; C. D. Reppy, Arizona; Florence; Prof. F. D. Coburn, Kansas; Topeka; William Hale Thompson, Illinois; Chicago; John McAlpine, Minnesota; Duluth; A. J. Cobban, Wisconsin; Rhinelander; John Hall, Texas; Lampasas; Springs; C. G. Rowley, Michigan; Jackson.

Secretary Anderson says: "This organization marks an epoch in the history of irrigation development, as it is resultant from the deliberation of many of the best authorities and business men of the country. Recent events have manifested the necessity of a federation that will stand for all that is needed to promote the interests of the greater west, one that will neither hamper federal work, or exclude legitimate private enterprise, yet have the courage to criticize errors, no matter from whence they originate, one that will labor in harmony with that one institution, which is the expression and sentiment of practical irrigators—the National Irrigation congress. One so free from entangling alliances and political influence that it will welcome the voice and wisdom of pioneers of the idea, and not attempt to dictate policies pursued."

MRS. CHADWICK AGAIN LOSES. United States Court of Appeals Will Not Grant Rehearing of Appeal. CINCINNATI, Jan. 10.—The motion for a rehearing of the appeal for a new trial on behalf of Mrs. Cassie L. Chadwick of Cleveland was denied in the United States court of appeals in this city today.

The court of appeals some weeks ago sustained the judgment of the district court at Cleveland, O., which found Mrs. Chadwick guilty of conspiring to wreck a national bank and sentenced her to serve ten years in the Ohio penitentiary. The petition for rehearing maintained that the charge of conspiracy was not borne out by the evidence.

CLEVELAND, Jan. 10.—Francis J. Wing of counsel for Mrs. Chadwick said he was not prepared to say at this time whether the case would be carried to the United States supreme court.

CLASS A LEAGUES ORGANIZE. Howard Griffiths is Elected President and W. H. Watkins Treasurer. CHICAGO, Jan. 10.—The new arbitration board of the National association of professional baseball players met today and disposed of thirty cases in disputes which had been referred to it.

Chief among these questions was that of player Deamond of the Terre Haute, Ind., club, who had been suspended from the Southern league. The board awarded the player to the American league, which had been the Pacific Coast league and the Northwestern league was left unprotected. The Pacific Coast league and the Northwestern league and the former organization has been asked to reorganize as a separate league.

The class A organization, composed of the American league, Eastern league, Western league and Pacific Coast league had a meeting and re-elected their officers. Griffiths of New Jersey president and W. H. Watkins of Indianapolis, treasurer and secretary.

The following board of directors also was named: J. Bryce, American association; George Thibault, Western league; George Stallings, Eastern league, and Daniel Long, Pacific Coast league.

Secretary Anderson says: "This organization marks an epoch in the history of irrigation development, as it is resultant from the deliberation of many of the best authorities and business men of the country. DOCTORS FOR MEN. Come to our office and we will make a thorough and scientific EXAMINATION of your ailments FREE OF CHARGE. An examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark, and without a thorough understanding of which no physician or specialist should be allowed to treat you. We have taken treatment without success which you show why it failed. We want all ailments to feel that they can come to our office freely for examination and explanation of their conditions without being bound by any obligation to take treatment unless they so desire. Every man, whether taking treatment or contemplating same, should take advantage of this opportunity to have his true condition, as we will advise him how to best regain his health and strength and preserve the powers of manhood into ripe old age. We are helping weak, nervous, broken-down, young and middle-aged men back to ruddy health, invariably without interfering with their usual business pursuits. They come to us weakened and debilitated from specific or private diseases and secret weaknesses. Many are discouraged, listless, tired, languid, full of regret perhaps for the errors of youth or later excesses and indiscretions. Some are on the brink of nervous exhaustion, caused by worry, overwork, neglect of the nervous system. We wish that you could see them change after commencing treatment with us. Every day their condition improves. You can see the depression vanish and a new alertness in their face and bearing as the new red blood of health courses through their veins and they are irradiated with new vitality, new hope and new energy. They go away feeling all new—strong physically, mentally and sexually. We adopt a thoughtful, scientific, intelligent way, as each patient needs different treatment as well as special advice and counsel. Years of close study supplemented by an extensive practical experience enable us to determine this and become thoroughly conversant with the individual requirements of each case.
