ISSUE TO BE A SQUARE ONE NEXT FALL

Petition Filed in Supreme Court for a Rehearing of the Case Involving Terms of Supervisors and Registers of Deeds.

(From a Staff Correspondent.) LINCOLN, Jan. 11 .- (Special.)-The action

of Saunders county citizens in passing resolutions denouncing the Burlington and Union Pacific railroads for not paying their taxes is endorsed by Governor Mickey, who in discussing the matter said:

"Other countles likely will follow the action of Saunders county and that action goes to show that the sentiment against the railroads is not a flareup, but is deepseated and will have its effect on the coming campaign. The sentiment is sh strong against allowing the railroads to continue to run the affairs of Nebraska that it is my hellef that no man will be elected to office in the state who is not thoroughly in accord with that sentiment. I am not opposed to the railroads and would do them no injury, but they should pay their share of the taxes of the state and they should do it without resorting to the courts. Other people had their taxes increased a great ical more than did the railroads, and they had no alternative but to pay up like the railroads should have done. I believe the people will scrutinize every candidate closely whether he be running for United States senator or for the least of the state offices and the men who are elected will be those who are in accord with the sentiment of the people."

FIGHT OVER RAILROAD CROSSING Northwestern Watching the Opera-

tions of Great Northern. FREMONT, Neb., Jan. 11.-(Special.)-The Great Northern has a big gang of men at work putting in the side tracks and yard here. Track laying on the main line is completed to the South Platte line

of the Northwestern and a semaphore for the use of the two roads and the Union Pacific is being built. There is some talk that the Northwestern will prevent the Great Northern putting in its crossing until after the semaphore is finished. During the most of the day for the past two days a train has been kept standing on the crossing and besides for the last two nights watchmen have been employed by the former company to prevent any attempt being made to steal a march on them and putting in the crossing without their enowledge. The latter company has considerable work ahead putting in the yard tracks and no serious trouble between the two companies is apprehended. The grade in this county is practically ready for the ties and rails, but there is quite a stretch in Burt county near Oakland to be fin-

Persistent rumors are in circulation in railroad circles here that the Chicago, Milwaukee & St. Paul is interested in the onstruction of the Lane cut-off on the Union Pacific and on its completion will run its trains into Fremont over the latter road and build a line to the northwest up Maple creek valley. Both the Milwaukee and Great Northern have a survey up that valley and its construction would take away considerable shipping which now goes to the Northwestern.

OPPOSE NEW JUDICIAL DISTRICT County Lawyers Declare

Against Burkett Bill. HASTINGS, Neb., Jan. 11 .- (Special Telegram.)-The Adams County Bar Association

The attorneys of this county are in favor of a district for the western end of the state, with provision for the holding of court in Grand Island, Hastings and Kearney, but they will oppose any division along the Piatte river which will leave the meeting place of the court in Lincoln or any eastern town. The position taken by the association is that it is just as convenient for attorneys, witnesses and litigants from the western part of the state to attend court in Omaha as it would be in Lincoln, and unless provision can be made for the hold.

Indge Munger Denies Insufficiency of Indictments, Holding Evidence Clearly Points to Conspiracy to Defraud.

The remainder of the panel not engaged in the trial of this case has been discharged for the term. Special District Attorney Rush began his presentation of the case of the government to the jury at 2:30 Thursday afternoon.

Judge Munger overruled the motion to quash the indictments against Rev. George G. Ware in the United States district court Thursday morning. The defendants excepted to the ruling and immediately filed a demurrer, which was overruled, and to which exceptions were taken. The plea in abatement was not filed.

Before passing upon the motion Judge Munger went into the matter to considerable extent. He said:

"The court cannot agree with the defendants as to the insufficiency of the indictments. These had clearly shown that a conspiracy had been entered into, that its purpose was to defraud the United States out of certain lands and the title thereto and that there was an intent to defraud. The fourth and fifth counts in indictment numbered 21 on the docket relating to the wrong descriptions were not material. DOCTORS FOR MEN

We are living in an age of specialism; an age when success can only be attained by the concentration of every thought upon the unswerving pursuit of a single object. We are precisely such specialists. This accounts for the difference between success and failure in the treatment and cure of diseases of men. The physician who tries to explore and conquer the whole field of medicine and surgery becomes proficient in no particular branch. We have confined ourselves entirely to a single class of diseases and their complications and mastered them. We do not scatter our faculties, but concentrate them on one particular specialty.
