THE OMAHA DAILY BEE: SUNDAY, JANUARY 14, 1906.

Fines Attorney for Greens and Gaynor for Contempt of Court.

GEORGIA JUDGE IS ANGRY

OBJECTS TO LANGUAGE OF COUNSEL

Sawyer Refers to Appointment of . Jury Commissioner and Judge Seen Insult to Court in Remarks.

AVANNAH, Ga., Jan. 12.-The pleas in abatement to indictments numbers 476 and 477, against Greene and Gaynor, were read this morning soon after the convening of the federal court. The pleas set up that these bills of indictments had not been legally returned in that the grand jurors were drawn from among residents of the southwestern division of the Southern district of Georgia, whereas they served in the eastern division, wherein they turned the indictments against the defendants, and that the court had no right to appoint the two special commissioners to prepare the special grand jury list that had been prepared upon the order of the court. The defendants say that the grand jurors were therefore illegally drawn and

had no right to return indictments. Special Attorney Marion Erwin read the government's demurrer to these pleas. He responded that the grand jury had not been illegally drawn because what is now the southwestern district at the time of the offenses were committed was embraced in the eastern division and that the jury box was properly prepared.

When Mr. Erwin concluded his argument A. A. Lawrence of counsel for the accused. arose to read a written reply. Then came a sensation. Judge Speer caught language in the argument that he construed as contempt and promptly fined Mr. Lawrence

Attorney is Fined.

The language of Mr. Lawrence to which the court took exception was as follows:

One circumstance alone in the case serves to illustrate more powerfully than I can hope to do by words the possibilities for wrong and injustice opened up by this ex-traordinary innovation into what we con-ceive to be the law of procedure. It is a curious coincidence that at the case at bar the court, unwittingly, of course, appointed curious coincidence that at the case at bar the court, unwittingly, of course, appointed as a jury commissioner a rentleman who was at that time and still iss an open, public and notoriously avowed enemy of the defendant's courses. Whether or not this has been to his pre-judice in this particular case we are not preserved to say

prepared to say.

Judge Speer awaited Mr. Lawrence's conclusion of the passage and said:

"Mr. Lawrence, your remarks are exceedingly improper and out of order. The court has no knowledge that he appointed as a jury commissioner a gentleman who was at that time and still is an avowed enemy of one of defendant's counsel. Enter a fine of \$100 against Mr. Lawrence for contempt of senators.

Mr. Lawrence calmly concluded his argu ment after the imposition of the fine, making no apology for the language employed Judge Speer then announced a recess to consider the matter pending.

FOREIGN MISSIONARY RALLY

Meeting at Which Prominent Ministers Will Speak at First Christian Church.

A foreign missionary rally will be held The larger states were unwilling to go in the First Christian church Monday, Janinto a union unless the representation in uary 22. OUR LETTER BOX.

Election of United States Senators. OMAHA, Jan. 13 .- To the Editor of The See: The most important national question before the American people is the method

practice. It is needless to specify the senaby which the members of the United States tors. It is safe to say that Nebraska has produced few members of the upper house senate are elected. During the last decade, by reason of in the last few years worthy of the name events, this question has been forced to of senator. Nebraska has the men, but the the fore, and a popular clamor has arisen commercial interests do not want men. They want agents. By reason of this unin every state of the union demanding an fortunate condition the senate of the United amendment to our national constitution whereby the members of the senate shall States is today nothing more or less than the hired man of the commercial power. be elected directly by the people of the states and be immediately responsible to Thus the injury to the people is twofold. The laws enacted by congress will not

their constituency. afford protection to the masses. The senate Whether or not this universal demand must not disobey its master. No law can is one founded upon sound reasoning and be enacted which will afford any permanent national expediency we will consider.

The United States constitution provides, relief to the people if such law is obnoxious to the ambition of the special interest. It in substance, that the legislative departmay be true that the senate may be comment of our government shall be composed pelled by popular acclain, as it is today, to of two branches-the house of representaexact some remedial legislation. But detives, which shall be chosen directly by pend upon it, such relief will be only temthe people every two years, and the senate, porary. The senate under present organiza-

which shall be chosen by the legislatures ion will not destroy its creators. The Po of the several states. Each state is allitical Boss may retire for the moment, but lowed two senators, irrespective of population or size. To the legislatures of the he will rise again when the public wrath subsides. The present system and the comstates is given the power to regulate the mercial lust create and maintain him. One time, place and manner of holding their annot live without the other. election of senators, while to congress is

If, perchance, a good law is enacted, the reserved the power to modify these regulasenate, through its constitutional rights, tions, except as to the place of choosing selects incompetent and unfit public officers

to enforce the law. Therefore if a law be It appears from the deliberations of the enacted which may afford relief to the peofathers, who formed the great document ple, the special interest through his creaof human rights called the United States ture, the incompetent official, will prevent constitution, that the real purpose and reaits enforcement. The people of Nebraska son underlying the above provision was as need no special reference to prove this statement. So it matters little whether the

Each of Se original states was jealous law be enacted or not, the result is the of its power and sovereignty. The small same. The created will not often defy the states feared that if representation in congress was to be determined by population, creator. It must be concluded that if the foregoing their power and importance would be lost and the small states would have but little or no influence in legislation affecting the

wrong with our system of electing United States senators. We readily see that every reason advanced by the constitutional fathers for the creation of a senate is now being thwarted. That instead of the senbeing a protector and balancing power of the nation, it really has become a menace to our welfare. The trusteeship and that if each state was to be permitted has been forgotten. The senators are actequal representation in congress, irrespectfor other interests than the pu

pursuit of wealth. So large have become these commercial enterprises and so greedy During Week.

STRENGTH IN SUGAR LEADING FEATURE their lothesome touch, if, perchance, they can reap a harvest in gold. Patriotism

Shipments of Spring Goods Arriving-Advance in Some Lines of Dry Goods-Fish and

Lenten Season.

Perhaps the only eventful feature of the week's market was the strength in sugar, which was due to the fact that wet weather has prevailed in Cuba for some time, retarding grinding. Otherwise the conditions in the grocery market have changed but little. Large shipments of spring goods have arrived during the week at the hardware and dry goods houses and jobbers are busy opening tnem and placing them in stock. The damp weather is re-sponsible for a noticeable increase in the demand for shoes. Some notable advances in dry goods have been made. Onaha wholesale business in coffee for January so far has run 50 per cent over

demand for shoes. Some notable advances in dry goods have been made. Onsha wholesale business in coffee for January so far has run 50 per cent over last year. The world's visible supply Jan-uary 1 was 1,304,000 bags less than a year ago, and if this rate of decrease should continue the supply will be \$,600,000 bags less than a year ago when the new crop comes on in July. The stock of mild cof-fees in the United States is 35,152 bags, compared with 365,138 bags last week and \$15,740 bags a year ago. If Brazilian ma-nipulators succeed in holding back the cof-fee, say local jobbers, there will be un-doubtedly a sharp advance scon. Then the question of weather and the new crop comes in. Weather conditions in Brazil at present, it is claimed by some large eastern dealers, are not favorable to the crop, there being too much rain. The movement of the present Brazil crop, as shown by the daily receipts reported at the Brazilian ports, is running at small figures and the trade demand for coffee in this country is generally reported as steadily improving. Omaha prices are unchanged from last week. The position of the cheese market is

in the senate. By this power they often their unlimited power foist onto the state

nuch as any state in the union by such

week. The position of the cheese market is practically unchanged. Cooler weather has added some firmness to the highest grades of full cream cheese, but there have been no features to warrant a change in prices. Sugar Market is Strong.

Sugar Market is Strong. Refined sugar is 5 points higher than a week ago. Raws are firm at the advance. The demand is unusually good for this time of year. Wet weather has retarded grinding in Cuba, and if there is much more of it the wholesalers expect to see higher prices inside of thirty days. However, the weather is clear for the present, and the Journal of Commerce has this to say: "The private cable advices received from Cuba reported weather conditions favorable for the cutting and grinding of the case, and it was understood that the number of centrals grinding is being steadily increased. According to one report received from Havana a sale was made in Cuba of 4,000 bags"

Havana a sale was made in Cuta of the bags" The market for canned tomatoes has shown unusual activity, with a considerable quantity of these goods sold to come for-ward from California. The market is very strong at the advance in the east, while Utahs have been marked to \$1.10 f. o. b. shipping point. Well posted operators are inclined to think that the market will be still further advanced in the very near fu-ture.

attin further advanced in the very man the ture. The market has advanced during the last two weeks to a point where it is hardly possible to market any of these goods at 10c per tin and afford either the retailer or the jobber a fair margin of profit. Every day emphasizes the scarcity of medium grade goods. There is not much besides this to report in the canned goods market. The demand is unusually good, with corn moving out well and at higher prices. Fish for Lenten Season.

Fish for Lentes Season. Syrups are strong. A rumor is current that glucose refiners all over the country have consolidated, and this makes a terd-ency to higher prices. Jobbers are freely predicting a good advance in the next few weeks. Refiners are absolutely refusing to shave asking prices. The Lenten season, which begins Febru-ary 23, will have the effect of making a stronger fish market. There has been a heavy demand all winter for most kinds of fish and it will be enormous between now and Lent. Jobbers are unanimous in saying they expect inside the next thirty days a strong advance in all smoked and sait fish. Holiand herring and mackerel have already begun to go up. The trades here has learned of lower prices on Holland herring, quoted by jobbers in another city, but they say this is not Holland herring at all, but Norway, packed in hoop kega. is true, that there is something radically but they say this is not Holland herring at all, but Norway, packed in hoop kees. Stocks of herring in Holland are said to be low and the season is about over. Under continued demand prunes have been further advanced. Everything in the shape of dried fruit, with the exception of raisins, is in strong position. The Raisin Growers' association has just sold its hold-ings to the so-called Mercantile company, composed of six of the heavy shippers, and these goods are now offered at slightly lower prices than have been ruling. They give it out, however, that these prices are the lowest that they will make, and that in all probability they will be advanced soon. They act for the people who create them. The right of equal representation to each state has been denied and one fundamental principle of the constitution has been recklessly disregarded. The remedy is not in doing away with the senate. The senate is of use to the country. It must, however, return to the purpose for which it was created. The election of senators soon. The rice market is active, with a disposi-tion to mark up higher grades and all kinds of broken. The supply is so limited that higher prices are anticipated.

THIS WEEK will be a hummer—.... pianos which we were compelled to receive by contract are now on sale atACTUAL COST, plus only the freights and expenses. Brick Building Sold.

John M. Daugherty has bought from Emily W. Snow the brick building at 1307 Farnam street where the city office of the Adams Express company is located. The consideration was \$5,600. Mr. Daugherty will hold the property as an investment. The sale was made by W. B. Melkle and John Frenzer.

Habit-forming Medicines.

Habit-forming Medicines. Whatever may be the fact as to many of the so-called patent medicines con-taining injurious ingredients as broadly published in some journals of more of less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a coasiderable measure, resulted in the most inteiligent people avoiding such foods and medicines as may be fairly sus-pested of containing the injurious ingre-dicate complained of. Recognizing this foot some time ago, Dr. Pierce, of Buffaio, N.Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medi-cines are composed. Thus he has com-pletely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they intermore, from the formula prints on every bottle wrapper, it will be seen that they contain any narcotics or injurious agents, their ingredients being purely projetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

vell recognized curative virtues. Instead of alcohol, which even in small well recognized curative virtues. Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objec-tionable from its tendency to produce a graving for stimulants, Dr. Pierce em-ploys chemically pure, triple-refined giverice, which of itself is a valuable remedy in many cases of chronic diseases, being a superior domulcent, autiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone roos, Black Obserrybark and Bloodroot, contained in "Goldan Medical Discovery," in all bron-chial, throat and lung affections attended with severe coughs. As will us seen from the writings of the eminent Drs. Grover Cos, of New York; Bartholow, of Jeffer-son Medical College, Phila, Bonder, of Giasinati College, Phila, Bonder, of discinati College, and others, who stand a leaders in thair several schools of practice, the foregoing agents are the severy best ingredients that Dr. Pierces mous "Discovery" for the cure of not only bronchial, throat and lung affections in a state of obreast several schools of practice, the foregoing agents are the severy best ingredients that Dr. Pierces mous "Discovery" for the cure of not only bronchial, throat and lung affect ions, but also of chronic catarry in all is various forms wherever boats.

The plan had worked out admirably. The

country was progressive and satisfied. Un-der the conditions then existing the senate met the expectations of the constitutional framers. In the course of events the nation under-went a great commercial revolution. Capi-tal sought capital and great industrial en-terprises sprung up. Combinations and

Advance in Cotton Goods.

Advance in Cotton Goods. Trade has been good with the dry goods houses. Hope bleached advanced January jo to 7% and similar grades to the same basis. Brown goods also advanced ½ to % of four-yard goods. The trade has good reasons for expecting an advance in American prints. The largest and best in-formed retailers are buying these and other lines of cotton goods freely. Tocal dry goods houses are kept busy opening up new goods and falling spring or-ders. Sales of dress goods and wash goods have been larger than at any former time. Shirtings, underwear and hosiery also are were good. Changes in Hardware Prices.

Changes in Hardware Prices.

Changes in Hardware Prices. Hardware business has been rushing. An advance in some leading lines has been quoted. Wire nails, barbed wire and wire have gone up 5c per 160 pounds, galvanized fron is 16c per 160 pounds higher, corrugated sheets, 16c a square higher, sheet fron 10c a square higher, and sheet zinc 25c per 160 pounds higher. Wringers have been advanced in price \$1 to \$2 a dozen. This is said to be due to the higher price of rubber. Paints, Oils and Glass.

Paints, Oils and Glass.

Paints, Oils and Glass. This market is very strong this woek, with the exception of turpentine, which is head, and it is almost certain that huper quotations will shortly be made. Linseed oil is now quoted at 42 cents for the raw and 44 cents for the boiled product, an atvance of 1 cent for the week. Jobbers are predicting further increases the next week on account of the strength of the market. Lead is also very strong, and thous still stand at 7% cents for Carter and it is now duoted at 8 also very strong and the strength of the glass market no changed products the plass market no changed prod for this time of the year and it looks as thousen even the trade of 1906 would be set of be noted. Fusiness is extremely prod for this time of the year and it looks as thousen even the trade of 1906 would be exceded. Jobbers look for a heavy den mand for both plate and window glass on which is apparent even in the dead of the which is apparent even in the dead of the set.

winter. Shoes and Rubbers.

The cold snap the early part of the week materially helped the shoe men. Prices are firm and there are indications of a further rise in the leather market. It is said that white footwear will be very popular next epring and there is a big demand for white canvas exfords for women and children. Patents will be more popular with the men. Prices on rubbers are firmer than ever.

ICE DEALERS NOT WORRIED Feel Certain of Sufficient Crop, Even

Though Weather Has Been

season's crop.

Omaha Distilled Water Ice company. "It is true we aim to get to work as soon as the good ice comes after the first of the year, but we never begin to worry until

late in February. Corn and wheat may fail, but the ice grop is one thing that is reasonably sure. One year we did not cut until along in March and we had the best ice we have ever put up."

The supply of ice in the houses of the various dealers is light, and the local factories turn out an amount absurdly small At that time the weighing of butter of Jubiles Edition of The has sompared with the demand. If there the faces grades turned out by the local you-it will help Omaha
