Wheat Firm, Advancing Slightly for the Day.

FOREIGN CROP

Corn Advances Toward Close, After Holding Stendy All Day-Big Sale of Oats, but Prices Unchanged.

OMAHA, Jan. 13, 1996.

Wheat was firm, advancing slightly for the day. Locally sentiment is friendly and the feature was the early buying of nearly 1,09,000 bushels, and non-chicago house. There was considerable wheat for sale, which checked the advance. Heavy iains in Argentina were reported by private cable and Liverpool was firm, with continued advices of unfavorable conditions in India.

Corn opened firm, held steady during the session and advanced toward the close. A total lack of pit pressure, amail country acceptances and clearances in excess of 1,000,000 bushels were the influencing factors. Seaboard clearances this week pave exceeded primary receipts by nearly 2,090,000 bushels, and indications point to a decrease bushels, and indications point to a decrease in the visible supply Monday. The cash market was firm and from steady to be lower.

Outs gave a very interesting exhibition of strength today. The aggregate selling

lower.

Oats gave a very interesting exhibition of strength today. The aggregate selling was larger than for a long time past. Local longs were influenced to realize, but in spite of this the market held firm, slightly under 22c, and the close showed but a slight change for the day. The country is selling sparingly, receipts are moderate and the domestic demand fair, with every evidence of improved inquiry from abroad.

May wheat closed at 885,6894c, July at 85,6954c and September at 854c.

May oats closed at 25,000 and July at 25,000 and september at 85,000.

Features of the Trading and Closing

Peatures of the Trading and Closing Prices on Board of Trade.

CHICAGO. Jan. 13.—Advices from Argentina claiming additional rains and a resulting delayed movement of the wheat crop resulted in a firm market here today. At the close wheat for May delivery was up %2%c. Corn showed a gain of %0 %c. Cau's were practically unchanged. Provisions were 2%26c higher.

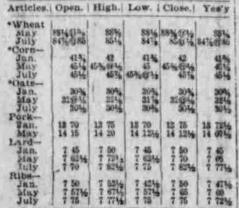

The wheat market was firm from the start and the volume of trading was large. Several of the larger commission houses bought freely in the first hour and, altinough the local traders sold liberally, prices made a moderate advance. Foreign advices continued to be of a buillish character, excessive rains being reported in altgentina, while in India the wheat crop was said to be suffering from lack of moisture. Toward the middle of the day the market reacted somewhat on selling induced by reports of a slack demand for flour in the northwest and at Kansas City. The easier feeling, however, was quickly dispelled by active buying of shorts, who were stirred to action by small primary receipis and heavy clearances at the scaboard. The market closed firm. After opening unchanged to 4cc higher at \$85,49.85%c and closed at \$85,69.85%c and closed at \$85,69.85%c and closed at \$85,60.85%c and closed at \$86,60.85%c and closed at \$86,60.85%c and closed at \$86,60.86%c and \$86,60.86%c and closed at \$86,60.86%c and \$86,60.86%c and \$86,60.86%c and closed at the highest point of the day. May opened unchanged at \$66,60.86%c where it closed. Local receipts were \$170 cars.

Frovisions were a triffe easier early in the s

Elec and closed at Egg324c. Local receipts were 17 cars.

Provisions were a trifle easier early in the session because of profit-taking by longs, which was induced by a be decline in the price of live hogs. Pit traders however, who were buildaily inclined because of continued heavy shipments of meat and had bought freely and their operations resulted in a firmer feeling. At the close May pork was up be at \$14.124, Lard was up 25.676c at \$1.27.497.15. Ribs were 24.47 chigner at \$7.07.497.15. Tastimated receipts for Monday: Wheat, 23 ears; corn, 201 cars; cats, 215 cars; hogs. 57.000 head.

the Short Session.

Market is Generally Irregular, with Western Railway Shares Higher-New High Mark for Union Pacific.

NEW YORK, Jan. 13.—There was enormous pront taking throughout the day's short session of the stock exchange. Notwithstanding the very active demand which lifted the volume of sales for the two hours' session to near the million mark, the market was kept in a very irregular state by the constant realising and showed some signs of disorder in the final dealings. There were some fresh points of strength just developing at that time, which gave the closing its irregular tone, but the general level of the market had declined considerably from the highest and stocks were coming out very freely. There were sustaining points of strength at all times and prices were lifted to the highest after the general reaction from the opening advance, but the favorable bank statement, which was better than the preliminary estimates, was the signal for heavy selling throughout the list to take advantage of its stimulating effect on new demand. 1.50. SHEEP—This has been a week of large receipts, the total being far in excess of the previous week and the corresponding week of a year ago. This has been true not only of the receipts at this markst point, but of practically all others. In consequence of the large runs packers have been filled full and have been unable to force the mutten into consumption as fast as the sheep and lambs have been coming forward. The week started out with the feeling somewhat easy, but on Tuesday there was a very active and strong market at this point. Buyers seemed to be hungry for supplies and they snapped up everything in sight without hesitation. On Wednesday the effects of the large receipts began to be seen, as buyers appeared less anxious for supplies, and the close of the market was weak. The big break came on Thursday, when values at this point were quoted lights lower, and this was followed by a still lower market Friday. The average decline for the two days was safely 50c. The decline reported at other selling points was fully as much and in many cases a good deal more.

As has been noted before in these columns the general situation as regards.

deal more.

As has been noted before in these columns, the general situation as regards the sheep and lamb market is far from discouraging. On the contrary, there is every reason for believing that the break this week is only temporary and that the holding back of shipments a few days, so as to give packers a chance to clean out their coolers, will restore the former strength of the market. It is some time between now and the coming of grass sheep and feeders can afford to take their time and feeders can afford to take their time and not rush their sheep and lambs to market any faster than packers can take care of them to good advantage.

Quotations for fed sheep and lambs are as follows: Good to choice lambs. Colorados, 37.2507.50; western, s1.007.50; year-lings, 50.006.25; western yearlings, 55.500 5.75; ewes, 34.7506.35.
