Seme Doubts About Money Being Available to Bny Patrol Wagon.

MAYOR DESIGNATES POLLING PLACES

Two Men Hold Up Christianson Saloon and Follow it Up by Holding Up Two Pedestrians, Securing Little Cash.

A. L. Berquist, in speaking of the plans of the Fire and Police commission, declared, with respect to the purchase of a new patrol wagon, he was unable to say whether the funds would permit of the pur-chase of the wagon in the immediate future. He believed that most of the surplus now on hand would be used to complete the new hall. With this in mind it might be well to see what the condition of that fund is. There remains in the fire fund, according to the last monthly statement, \$11,169.12 to run the fire department the balance of the fiscal year. Johnson & Skows' contract for the onstruction of the new hall is \$13.650.10, the ost of the lot was \$3,500, the heating and plumbing was \$1,421 and the probable cost of the electric wiring will be \$700. This makes a total of \$19,221.10. Of this amount the city has already paid \$7,000, leaving a balance of \$12,221.10. So, if the cost of running the fire department, \$900 a month, or \$6,300 until July, be taken into consideration, there would be a deficit of \$7,351.88. This will have to be made up from the police fund, in which there remains at present \$13,997.82. This will use up about all the funds in that department, too. There is \$7,000 in sight in the scavenger funds, which can be apportioned to this department, and possibly Many Are Cured for Less certain surplusage from other funds as well. Mr. Berquist said, however, that he expected some provision would be made for the police patrol, temporary or otherwise, as soon as the new hall was ready. There are already two extra horses, and by securing one more the patrol could be managed. At first it is expected that the patrol driver will be on duty like the firemen, and the captain at the jail would serve as the patrol conductor.

Balances in City Treasury. Yesterday the city treasurer was striking his balances for the month of December and the books showed that at the first of the month there was on hand \$175,545.45. The collections during the month were \$77,894.15. The disbursements for the month were \$36,-487.15, leaving a balance of \$216,962.45. Beside this there is the paving fund for the construction of the paving on Missouri avenue and Twenty-fourth street, amounting to \$76,000, and the intersection fund of \$25,687. These latter will be held over until next year.

L. S. Lemley Relieved of a Little Over Twenty Dollars of Company Money.

Two young men held up and robbed the onductor and motorman of a Harney street car at Sixth and Center streets a few minutes after midnight Sunday morning. The robbers carried revolvers and wore white handkerchiefs over their faces to hide their features. They secured \$20.60 from the conductor. The car reached the terminus of the line at 12:05 a. m., and was due to leave on the return trip at 12:10. The motorman E. Carmichael. 211 South Twentieth street. had stepped to the street, while the conductor, L. S. Lemley, 2610 Rees street, remained inside the car. Suddenly Carmichael was confronted by the two robbers, and quietly asked to throw up his hands. He was kept covered while one of them went to the rear door of the car and rapped. emley opened the door and was met with the point of a gun and the request to hand over the company's money.

"We don't want any of your money or your watch," said the robber. "Just give us what belongs to the company." Lemley emptied his pockets of fares amounting in all to \$20.60. He had a \$5 bill of his own in another pocket, but this he was not required to give up. As soon as the robbers secured the money they made a hasty departure toward the south, and disappeared in the darkness. As soon as they were out of sight, Carmichael and Lemley hastened to the home of Patrolman Otto Lickert, who lives near by at 1706 South Sixth street, and told the story of the holdup. Lickert, however, was unable to find any trace of the two men, and notified the station, and officers were immediately dispatched to the scene with the discription of the men furnished by the car crew. They appeared to be young, hardly more than boys, and it is believed they may be restdents of the neighborhood and were well aware that interference on the part of chance passengers at that time of the morn-

ing would be very unlikely. There were no witnesses to the holdup other than those engaged in it. A member of the Durant fire department arrived a few moments after the deed had been com mitted, and while the crew had gone to the house of Officer Lickert. He had been in attendance at the department's dance at Washington hall during the evening with a young woman, and had just escorted her home, and was walting for the car to come along a few blocks north. The car being long in coming, he started to meet it, and when he was told the story of the holdup by the crew he was glad that he had no arrived earlier, and, pehaps, also failen a

victim to the robbers. The work was carried out deliberately and without a hitch, the whole affair occupying but two or three minutes. No trace of the perpetrators had been discovered at an early hour this morning and the police officers were still on the hunt.
