leases were either given to Mr. Ware in person or sent to him by mail. Witness never saw the leases afterward. The witness went a little further into the details of his agreement with Ware in 1903 and stated that about \$25 was to be allowed for building shacks on the respective filings. Shortly thereafter witness had a conversation with Harry Welsh at the hotel there and proposed to him to go ahead under the agreement that witness had with Ware and get men to make filings and that Welsh would be paid \$25 for each filing secured.

MOROCCAN MEETING TODAY. First Session Will Be Held in Algiers at 3 O'clock.

ARRIVAL OF AMERICAN DELEGATES. No Evidence of Tension Between France and Germany—Probable Alignment of the Powers.

ALGERIAS, Jan. 15.—(15) p. m.—The opening of the international conference on Moroccan reforms has definitely been fixed for 3 o'clock tomorrow afternoon. The duke of Almodovar, the Spanish minister of foreign affairs, took the initiative soon after arriving here today in arranging plans for the beginning of the deliberations. All the delegates had arrived during the day and each found a note from the duke advising that a preliminary session for the purpose of organization takes place at 3 o'clock tomorrow. It is expected that the duke will preside and will make a brief address of welcome, after which, doubtless, he will be chosen as the permanent presiding officer.

On Tuesday, January 16, the Missouri Pacific railway will sell tickets at very low rates, both one way and round trip, to certain points in the south and southwest. on Great Britain, Spain, Italy and Russia and which countries had been between the United States and France and Great Britain warrant them on expecting the support of the American delegates. On the other hand the prevailing sentiment is that Germany can count on Austria, Holland and Sweden and perhaps Denmark, and that the other members of the southward are the low mountains of Africa.

Attitude of Germany. The German envoys will enter the conference with instructions to take up a modest attitude, insisting upon nothing, even proposing nothing, unless it shall be necessary for the other members of the conference. In the latter event Germany will put forward a plan of collective action toward Morocco, worked out under the principles agreed upon in September by France—that is, for a permanent open door, including equal industrial and financial privileges for all countries, the territorial integrity of Morocco and the independence of the sultan, with administrative reforms, for which all the powers participating have identical responsibility.

"Tip" from London. LONDON, Jan. 15.—The Associated Press is advised that Ambassador White, representing the United States at the Moroccan conference at Algiers, will support the German contention, both as to the "open door" in Morocco and as to an international commission to control the policing of the country. It is suggested that this may make the adoption of the German view more probable, particularly in the light of the fact that Russia has shown marked indifference to the appeal of France for support. The influence of the Vatican is also understood to be hostile to France.

It contains a lot of strength-building qualities that their food may not contain. After a while they get to want it. Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

The bill will be taken up for amendment under the five-minute rule and put on its passage either tomorrow or the next day. Preceding the debate today the statehood fight made its appearance on the floor for the first time in the form of a personal explanation by Mr. Babcock of Wisconsin, credited with being the leader of the opponents of the statehood forces. He also took occasion to state his position in favor of tariff revision.
