GRAIN AND PRODUCE MARKET

Tendency of Prices in Wheat is Reversed.

EASINESS RESULTS FROM LARGE SALES

Corn Market is Slow, with Prices Shade Lower—Oats Ease Off and Volume of Trade is Light.

OMAHA, Jan. 16, 1906.

Wheat opened strong, following yesterday's trend, and on higher cables. High bids, together with large northwest receipts, precipitated selling and prices eased off to ¼c below yesterday. Toward the close a few who had been early sellers began to buy back. Foreign crop news was again bullish. May wheat closed at 83¾@83¾c, July at 85¼@85¾c and December at 84¼c.

It was a slow corn market, and prices ruled a shade lower. The domestic demand is reported poor, and the export demand only modest. May closed at 45¾c, July at 45¾c and September at 45¾c.

Oats eased off a little. The volume of trading was light. May closed at 31¾@31¾c, July at 30¾c and September at 29c.

Primary wheat receipts were 630,000 bushels and shipments 250,000 bushels, against receipts last year of 482,000 bushels and shipments of 238,000 bushels. Corn receipts were 714,000 bushels and shipments 625,000 bushels, against receipts last year of 577,000 bushels and shipments of 387,000 bushels.

Clearances were 1,336,000 bushels corn, 40,000 bushels oats, 108,000 bushels wheat and 34,000 barrels flour.

The seaboard yesterday sold 96,000 bushels Manitoba wheat, 320,000 bushels corn and 180,000 bushels oats.

Liverpool closed ⅛@⅜d higher on wheat and ¼@⅜d lower on corn.

Bradstreets' wheat decrease was 71,000 bushels, corn increase 915,000 bushels and oats decrease 795,000 bushels.

In Chicago in the last five days 800,000 bushels No. 2 red wheat sold at May prices in store. Over 100,000 bushels is said to go to St. Louis and a good portion of it to be shipped elsewhere, some of it to mills. St. Louis cash yesterday advanced 1c, with good demand.

The London Statist reports world's visible supply of wheat January, 1906, was 135,000,000 bushels, against 145,000,000 bushels last year.

A cable from Liverpool says: "Broomhall makes wheat in and afloat to Europe decrease 1,264,000 bushels. Argentina crop is yielding less than expected and weather unfavorable for threshing. The demand for corn is fair, but at lower rates. Holders will sell low at the moment to encourage demand and relieve the market."

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Jan. 16.—Favorable weather for fall sown wheat in the United States improved weather in Argentina and better industrial conditions in Russia weakened the wheat market here today. At the close wheat for delivery was off ¾@¾c. Corn was down ¼c. Oats showed a loss of ¼@¼c. Provisions were 7½@10c lower.

Weakness in wheat developed soon after the opening. At the start the market was firm, the initial quotations on May being up ⅛c to ¼@¼c at 80c to 80@80¼c. The bullish sentiment was due to advices from India and Argentina which reported damage by too much rain in the South American country and damage by a lack of rain in Asia. The slight advance in prices at the opening brought out heavy selling by local longs and under this pressure the market gradually weakened. Reports of rain in the southwest, which will be of great benefit to the growing crop, and a promise of large shipments in the immediate future from Russia encouraged the bears. Then came a late dispatch from Argentina stating that the weather there had cleared and that harvesting would proceed without further hindrance. This weakened the market still further. From 80¼c, which was touched soon after the opening, the May option dropped to 88¾c. The close was weak, with May at 88¼@88¼c. Clearances of wheat and flour were equal to 258,000 bushels. The world's visible supply, as shown by Bradstreet's, decreased 71,000 bushels. Primary receipts were 630,000 bushels, compared with 482,000 bushels one year ago. Minneapolis, Duluth and Chicago reported receipts of 670 cars, against 552 cars last week and 374 one year ago.

The corn market was weak for the greater part of the session. There was heavy selling by cash houses and easier cables and liberal local receipts caused some selling by local traders. Clearances of 1,350,000 bushels for the day and an estimate of small receipts for tomorrow held sellers down to check somewhat. The market closed easy, with prices at about the lowest point of the day. May opened unchanged to a shade higher at 45¼c to 45¼@45¾c, sold between 45c and 45¾c and closed at 45¼c. Local receipts were 474 cars, with 40 of contract grade.

The feature of trading in oats was heavy profit-taking by several leading longs. The principal buyers were the leading longs. The market weakened under the selling pressure and closed practically at the lowest point of the day. May opened unchanged to ⅛c lower at 31¾@32c, sold off to 31¾c and closed at 31¾@31¾c. Local receipts were 332 cars.

The provisions market was weak despite a 5@10c advance in the price of live hogs. At the opening there was a slight advance on covering by shorts, but the small gain was soon lost on realizing by local traders. At the close May pork was off 10c at $14.02½, lard was down 10c at $7.60 and ribs were 7½@10c lower at $7.55.

Estimated receipts for tomorrow: Wheat, 11 cars; corn, 174 cars; oats, 116 cars; hogs, 41,000 head.

The leading futures ranged as follows:

CORN—Steady; May, 45¼c; asked.

NEW YORK STOCKS AND BONDS

Market Contracts in Volume and Movement of Prices is Irregular.

PROFIT TAKING IS STILL IN EVIDENCE

Reports of Liquidation by Large Holders of Union Pacific Has Effect of Unsettling Values.

NEW YORK, Jan. 16. — The speculation continued to make progress today, though at a somewhat diminished rate. The volume of dealings contracted from the recently prevailing average and the movement of prices was variable and irregular. Large profit-taking was still in evidence and this had the effect at times of driving prices backwards. But the market was at no time without points of strength and some notable recoveries were made from the declines, forced by the realizing process. This was regarded as a demonstration of the absorptive power of the market and encouraged the continuance of speculative ventures for a further rise in prices. The rise was not steadily manifest and during the periods of sharpest reaction the buying became perceptibly languid and indifferent.

The reports current of the enormous individual holdings in various stocks, notably in Union Pacific, which were being liquidated, had the effect of arousing distrust over the attitude of those vested with inside information regarding conditions of the properties whose shares make up the stock market. The realizing in Union Pacific was supplemented in its influence on sentiment by the persistent pressure on Amalgamated Copper. The near approach of the dividend meeting for this stock gave rise to much surmise and uncertainty. The announcement of a reduction in the price of copper was an additional influence on Amalgamated Copper. The London market for copper also showed a notable spread in the discount on futures as compared with the price of spot copper. The recovery in these two prominent market leaders was of much influence in reassuring speculative sentiment. A good effect was produced also by late advances shown in many of the railroad stocks of the substantial grade and of a free enough market supply to prevent their movements from being suspected of manipulation to the same extent as would be the case with closely held, very high priced stocks. The Pennsylvania group, the Gould group and the Southern group were examples of this class. There was little news to explain the day's various movements.

The tightening of the call money market found explanation in today's enormous clearings by the banks, which rose to $637,489,105, a figure never before exceeded except by the January clearings of this year. The very large amount of dividend and interest payments falling due on January 15 serve to explain these heavy clearings and the disbursements may be expected to help the money market later. Large currency shipments from the interior are still arriving here and the gain by the banks from the sub-treasury since the bank statement rose today to $5,855,000. The shipment of $1,000,000 in gold to Mexico was of small effect under these circumstances. The foreign exchange market showed little change in spite of the increasing supplies of money in this market and also of a sharp advance in the discount rate in London today. The latter was in response to the taking of money from the market by the Bank of England, which is a usual preliminary to an advance in the bank's official discount rate. In Paris discounts became easier, and in Berlin it is expected that the imperial bank will reduce its official rate of discount at the next meeting. The statement of this country's foreign trade for December shows an excess in value of exports over imports of $8,554,000, more than doubling the trade balance in our favor of the preceding December. The vast resources thus placed at the command of the foreign exchange market largely exceeded the facility with which the enormous demand has been met for remittances to cover maturing loans from foreign lenders. Another factor in this result is an awakened demand on the part of the foreign investors for American railroad mortgages, which bond houses in Wall street represent to be a conspicuous development of the last few days. Stocks continue to move irregularly up to the closing, new points of strength at that time being mixed with reactions on realizing.

Bonds were irregular. Total sales, par value, $4,020,000. United States 2s, registered, advanced ¼ per cent on call.
