Chicago sold 140,000 bushels No. 2 red wheat for export yesterday.

Broomhall cables the agent general of New South Wales estimates the wheat crop of Australia officially at 63,200,000 bushels in 1904-06.

The manager of a leading elevator company in Minneapolis says country elevators in the northwest have reduced their stock of wheat almost 1,000,000 bushels in the last month. In his opinion 70 per cent of the crop of the three northwest states has been marketed by the farmers.

Rankin of Chicago says: "It is safe to say that sales of soft wheat to outside mills in the last three days will aggregate more than 700,000 bushels, and that over 600,000 bushels of oats have been sold for shipment and export in the last twenty-four hours.

The Northwestern Miller says: "Most Minneapolis mills experienced duller trade than usual. Outside mills in some instances reported an improved inquiry and a better outlook. Ocean rates were reduced 3c per 100 nauges and this permitted some mills to hleago sold 140,000 bushels No. 2 red

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Jan. 18.-Continued absence o

rain in India was the chief reason today for a firm wheat market here. At the close wheat for May delivery was up \(\frac{1}{2}\)\(\frac{1}{2 a good gain of the. Provisions were 5920c higher.

Trading in the wheat pit was on a very

ligner.

Trading in the wheat pit was on a very small scale, but the market was firm throughout the entire session. Commission houses and shorts were the chief buyers, and orierings came largely from local traders, who were bearishly inclined because of continued reports of improved weather conditions in Argentina. The weather was, in fact, the chief influence in determining prices. Reports from Argentina were more than offset by the advices from India, which claimed that the drouth in that country is still unbroken. The main item of domestic news was a report from New York telling of additional sales of wheat to foreigners. The market closed firm. May opened a shade higher at 88c, sold between \$74,288c and \$894c and closed at \$894c. Clearances of wheat and flour were equal to \$25,000 bushels. Primary receipts were \$17,000 bushels. Primary receipts were \$17,000 bushels compared with \$61.000 bushels one year ago. Minneapolis, Isuiuth and Chicago reported receipts of \$12 cars against \$45 cars last week and \$48 cars one year ago.

The corn market held steady all day on moderate demand by exporters. Commission houses were the chief sellers. Clearances at the seaboard were again large and country acceptances were light. The market closed steady. May opened a shade lower to a shade higher at \$45,0454c, sold up to \$45,0454c, and closed at \$45,0454c, local receipts were 294 cars with 4 cars of contract grade.

Trading in oats was active and the volume of business was large. There was a lively demand throughout the day, the greater part of the buying being by outsiders. The market was firm from opening to close, May opened as higher at \$25,c. sold between \$25,224c and \$25,c and \$25,c. and \$25,c. and \$25,c. and \$25,c. and \$25,c. and \$25,c. and closed at \$25,c. local receipts were 156 cars.

Provisions were strong on active demand by packers and shorts. One of the main factors lending strength to the market was the small amount of hogs received, arrivals today being about 10,000 head below the estimate. Small holders were the principal sellers. The market closed strong with May pork up 20c at \$14.20. Lard was \$674c higher at \$7.674c. Ribs were 74,630c higher at \$7.674c higher one of the concerns. big 14c of Trade will close at 12.30 p. the head. Wool Market.

staple 27@28c; medium choice, 27@28c.
LONDON, Jan. 18.—WOOL.—The offerings at the wool auction sales today amounted to 12.504 bales. The selection was a superior one and competition was keen. New clip crossbreds in light condition sold chiefly to the home trade at full rates. A few sultable parcels were taken for America. The supply of scoureds was heavy and most of them were taken by continental buyers. 1834s.

Metal Market.

NEW YORK, Jan. 18.—METALS—There was a further sharp break in the London tin market, where liquidation appears to be the dominating factor, with spot closing at £182 and futures at £162 128 56. Locally the market was duil, but relatively steady, with spot closing at \$26.25/295.50. Copper also was weak in London, with spot closing at £77 198 and futures at £76 188. It is said that the decline is largely due to re-sales by parties who may be influenced to some extent by the course of the general election. The local market was more or less nominal, but generally lower, with lake and electrolytic quoted at \$18.56/18.65%, and casting at \$18.06/318.25. It is said that producers themselves are selling little at the decline. Lead is dull at \$6.60/35.80 in the local market, but advanced 28 6d to £15 128 6d in London. Spelter declined 28 6d to £27 128 5d in London, but remained unchanged at \$6.50/35.80 locally. Iron was unchanged at \$6.50/35.80 locally. Iron was unchanged abroad, with standard foundry closing at £38 16d and Cleveland warrants at 548. Locally the market is reported firm in tone, with a fair demand and some dealers talking higher prices. No. 1 foundry, northern, at \$18.56/318.55; No. 2 foundry, southern, at \$18.56/318.55. and No. 2 foundry, southern, at \$18.56/318.55.

CATTLE—There were plenty of cattle here this morning for a Thursday, the receipts showing a gain over a week ago of over fifty cars. At the same time liberal receipts were reported from other selling points, so that the total number of cattle on sale at the leading markets was quite large. The general tendency all along the line was toward weakness.

Yesterday there was a very heavy run of Yesterday there was a very heavy run of cows and heifers, and there was a good liberal supply again this morning. The condition of the market was a good deal the same as that detailed above regarding beef steers, that is the trade was slow and prices generally a little lower. It was late before buyers got down to business and the morning was well advanced before anything like a clearance was effected.

There were no stockers or feeders in the yards this morning, at least none to speak of. At the same time there was a very good demand. Yard operators were all out early looking for supplies that never came. Unquestionably if there had been any cattle of desirable quality in sight they would have changed hands very readily at good strong prices.
