Dorn Dull, but Firm, Not Sympathizing with Weakness in Wheat-Conntry Acceptance Light-Onte Without Pressure.

OMAHA, Jan. 19, 1908.

Easier cables and an entire lack of stimulating news started wheat prices lower. Later several Chicago lines were thrown overboard, making a weak market toward the close. This applies more especially to the May, as Juiy was relatively strong. Laverpool was influenced by freer offerings of Argentina crop, but the spot market was reported firm with a good consumptive demand. A fair cash trade was transacted at Minneapolis and Duluth at yesterday's prices. Stocks at both places for the week are 500,000 bushels short of the previous period for the wek.

Corn was dull, but firm, and did not sympathize with the weakness in wheat. Trade was extremely light and there were long stretches when no transactions were made. Country acceptances were light OMAHA, Jan. 19, 1906.

made. Country acceptances were and the cash market steady. The d

and the cash market steady. The demand from all quarters is slow.

Onts were quiet and firm, with no pressure at any time. Country acceptances were light, receipts moderate and the donostic and export demand considerably improved, especially the latter. The cash market was steady.

May wheat closed at 87% 987%, July at 8% c and September at 85%.

May corn closed at 45% July at 45% c and September at 45% 645%.

Onto finished with May at 326,32% c, July at 45% c and September at 94,029%.

Seaboard sales yesterday were 16,000 bushels of wheat, 208,000 bushels of corn, 80,000 bushels of oats and 80,000 bushels of barley.

bushels of wheat, 208,000 bushels of corn, 80,000 bushels of oats and 60,000 bushels of oats and 60,000 bushels of barley.

Clearances were \$29,000 bushels of corn, 4,000 bushels of oats, 76,000 bushels of wheat and 38,000 bushels of flour. Primary wheat receipts were 608,000 bushels and shipments 168,000 bushels, against receipts last year of 710,000 bushels and shipments of 284,000 bushels and shipments 602,000 bushels, against receipts last year of \$37,000 bushels and shipments 602,000 bushels and shipments of 22,000 bushels and shipments 602,000 bushels and shipments of 22,000 bushels.

Liverpool closed 4d lower on wheat and unchanged to 4d lower on corn.

New York reported twenty-five loads Manitoba wheat taken for export.

Minneapolis stocks increased thus far this week \$50,000 bushels, compared with an increase last week of 1,370,000 bushels.

Argentina wheat shipments for the week were \$60,000 bushels, against 762,000 bushels last week and 1,175,000 bushels a year ago. Corn shipments were \$95,000 bushels, against \$01,000 bushels last week and \$50,000 bushels last year.

Marfield of Minneapolis says: "Every

301,000 bushels last week and \$50,000 bushels last year.

Marfield of Minneapolis says: "Every bushel of wheat in the northwest is worth \$60 on its merits, and easily will bring that if the millers show ordinary business judgment. Everybody knows that the interior elevator stocks are larger than they were a year ago. But the terminal stocks are some lighter. Farmers, however, are selling nothing and will not sell at present prices. The northwest probably has enough wheat to carry it through, but it has no big surplus."

The northwest probably has enough wheat to carry it through, but it has no big surplus."

From the Record-Herald: "Practically all of the Manitoba wheat at lake ports and east was disposed of by yesterday's sales abroad. This puts the foreign buyer back to Winnipeg for any fresh supply and makes him dependent on rail shipments, which necessarily must be limited, the most optimistic estimates being 2,500,000 bushels for the entire season to the opening of navigation. Some suspicion of the fact that the supply of Manitoba wheat was running low was conveyed in the message from New York, showing that hard winter wheat had sold for export and that the price was the same. Manitoba No. 1 northern was bringing 53c. Cash wheat at Winnipeg advanced \$c. The revival of the export flour demand which cropped out in various directions was contributory evidence along the same line. A prominent St. Louis milier had acceptances of 2,000 barrels of flour for shipment by way of guif ports, but the winter wheat flour sales were by no means as large as were the spring. One of the local milis closed a purchase Wednesday of 145,000 bushels of No. 2 red at May prices."

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Jan. 19.—Heavy profit-taking caused a weak close today in the wheat market here, closing quotations on the May delivery being off 160%. Corn and oats were practically unchanged. Provisions were unchanged to 5c lower.

Sentiment in the wheat pit was bearish for the entire session. At the opening the market was influenced by the relatively weak tone of prices which were due chiefly to improved weather conditions in Argentina. During the greater part of the day pit traders were the principal sellers, but late in the session many holders of small lines closed out because of reports that the winter wheat crop in the southwest had suffered but little damage by alternate freezing and wet weather. The market closed weak, with prices practically at the lowest point of the day. May opened a shade to the lower at 88 c to 88 a 88 c, declined to 10 c and closed at 87 a 68 c, declined to 10 c and closed at 87 a 68 c. Clearances of wheat and flour were equal to 24 a 600 bu. Exports for the week, as shown by Bradstreet's, were equal to 4,489,000 bu. Primary receipts were 68,000 bu., compared with 710,000 bu. one year ago. Minneapolis, Duluth and Chicago reported receipts of 60 cars a year ago.

Despite the break in wheat, the corn market held steady. The range of prices for the day was extremely narrow. Several of the larger commission houses bought heavily and this, in large measure, accounted for the firmness of the market. Small shipments from Argentina had a strengthening influence. The close was steady. May opened unchanged to a shade higher at 45 c. Sold between 48 c and 45 c and closed at 45 c. Local receipts were 25 cars, with 16 of contract grade.

Trading in oats was quiet, but the market was steady in sympathy with corn. The demand came largely from outsiders, and pit traders were the chief sellers.

Trading in oats was quiet, but the market was steady in sympathy with corn. The demand came largely from outsiders, and pit traders were the chief seliers. A good export demand was a feature of the market. May opened unchanged to a shade lower at 1201224c to 224c, sold between 32c and 324c has closed at 220124c. Local receipts were 189 cars.

Provisions were a trifle easier on selling by commission houses, which were influ-

Provisions were a trifle easier on selling by commission houses, which were influenced by the decline in wheat. The buying was chiefly by brokers who were thought to be acting for the local packers. At the close May pork was off 25,465c at \$14.154; Lard was unchanged at \$7.675, Ribs were off 25c at \$7.60. Estimated receipts for tomorrow are: Wheat, 15 cars; corn, 269 cars; oats, 165 cars; hogs, 25,000 head.

Wool Market.

BOSTON, Jan 19.—WOOL—The Boston Commercial Bulletin will say tomorrow of the wool market: The feature of the week has been the large business done in sample bales and bags. Not for a long time has such an amount of cool been sent out for testing. Territory, australian, New South American and fleece wools have been in constant request for the different mills. This activity has been simply a precautionary measure, so that consumers may know where to obtain suitable supplies when needed. The opening of the London auctions on Tuesday last had no weakening effect on this market. In fact it has been considered eminently satisfactory to the trade. Prices were generally maintained on the basis of November's closing rates for good wools. The market seems to have become settled and the fact that manufacturers are far from being heavily stocked with raw material has led dealers to believe that the former will soon have to purchase substantial supplies. The woolen mills have again been the principal buyers, having taken a fair amount of clothing wools in individual quantities ranging from \$600 to 100.000 pounds. Fine clothing territory have moved moderately at \$600c, but in some cases the price has reached 72c. Bilds as high as 70c have been rejected for a good nine medium, but the general range at which sales have been made has continued to be \$600c, at a small amount of eight mental feature and the fact of the feature of twelve months' stock. The fail clip has moved quietly at \$200c, or on a scoured hasis of about \$6c. California has been in constant demand, good northern having 50c. Quarter-bloods have been sold at \$30c, while Michigan quarters have been about \$6c. Quarter-bloods have been sold at \$30c, while Michigan quarters have been sold at \$30c while Michigan quarters have been sold at \$30c while Michigan quarters have been sold at \$30c while Michigan quarters Wool Market.

ST. LOUIS, Jan. 19.—WOOL Steady: medium grades combing and clothing, 2600c; light fine. 2672c; heavy fine, 18672c; tub washed, 26414c. Cotton Market. Cotton Market.
