Wheat the Biggest Loser—Oats Hold Steady—Liverpool Cash Situation and Light Receipts Help Corn.

With the market depression by continued lack of telegraphic service, what kept on in its downward course today and lost 4 1/2 cents only more news was received from Chicago, saying there was light here, and a single wire from Minneapolis told of a better cash situation, but all other news was almost totally suspended. Fears are expressed that when wire service is restored it will bring back a bull support, but it may be that the market will be helped by the general situation. May finished at 54 1/2 cents and July at 64 1/2 cents.

Corn was steady most of the day under the influence of firmness in the Liverpool market and lighter receipts. Under ordinary conditions it would have been a bull market, but the general situation, and the fact that it is a cash market, has kept it steady. It closed at 34 1/2 cents and Liverpool at 35 1/2 cents. Oats were steady and unchanged. May was 31 1/2 cents and July at 31 1/2 cents.

Liverpool closed 1/4 cent lower on wheat and 1/2 cent higher on shorts. Liverpool cash wheat closed at 35 1/2 cents and Liverpool cash oats at 31 1/2 cents.

A Minneapolis wire to Logan and Bryan said that the market was very quiet and that there has been an enormous business reported for deferred shipment. Know of at least 200,000 bushels of Liverpool cash wheat Monday and Tuesday. Fair sales of corn, oats and barley and American No. 2 red wheat also reported.

Baltimore reported 50,000 bu. corn cleared. Little doing in wheat. Local crowd heavy sellers on increase in visible stocks, but no more was sold. The market is likely to make a fight on either way at present.
