Investigation Resolution, After Being Amended by Author, is Referred to the Committee on Insurance -Saloon Men Hit.

Bee, Jan. 26, 1906.

(From a Staff Correspondent.)

DES MOINES, Jan. 28.-(Special.)-A lively debate took place in the senate this forning between Melsberry of Louisa and Lewis of Page fover the Molsberry resolution introduced the first day of the session for an investigation of the insurance companies. Mulsberry made a carefully prepared address on the insurance situa tion, endeavoring to show a condition of affairs with hwa companies that demanded an investigation. On his conclusion Lewis said it was, a sandbagging resolution and defended the personance companies, to which Molsberry' responded that the insurance companies seemed to have a special pleader on the floor. Meisberry raid one lows com-pany had lobred money on Idaho lands

worth \$2 an scre which it rated as worth \$39 an acre, that the wife of the presi-dent was view prosident at \$6,000 a year salary while the humand as president drew \$12,000. Seguing for the adoption of drew \$12,000, browing for the adoption of the resolution and the investigation by a legislative commission he said one Iowa assessment company had a banker for a treasurer and allegal that the banker kept the company's funds without paying interest, or al least sufficient interest, and said one company, which he called the strongest in the state, paid only \$100 a year taxes to the state and said the policy holders' money was used to pay seven per cent interest on the capital stock of \$100,000. Allusion was made to many alleged corrupt practices. On motion of

Courtright, the resolution, with an amendment offered by Molsberry, was referred to the committee on insurance. The Molsberry resolution calls for an investigation a commission calling witnesses. Senaby tor Warren has a bill with the committee providing for an investigation by advising with the auditor chiefly for the purpose of reporting needed legislation and with-

out the authority to call witnesses. The Molaberry resolution calls for the expense to be horne by the state, which cannot be done by a resolution. It is likely that a bill of some kind will be reported to the senate.

Bills Introduced.

The following bills were introduced: The following bills were introduced: By Spauiding, amending the law relating to school funds; by Whipple, amending the law as to guardians of minors; by Dowell, a bill for the Galveston plan of government for some citles of the state; by Ericson, providing for a public archives depart-ment of the historical department; by Lewis, an appropriation for the expenses of the Larrabes meeting; by Saunders, raising the maximum age of children ad-mitted to the Mitcheliville school for girls; by Young of Washington, for the registra-tion of trained nurses.

Afternoon Session of House.

The house today held no morning session meeting in the afternoon for the benefit of the school children of New Virginia Madison county, who came to the city to see the legislature in session. At the afternoon session the bill for the registration of trained nutses was introduced. which was introduced in the morning in the senate. vealed the fact that the standpatters we in the majority and all efforts to place the convention on record as favoring extreme measures in the attempt to force the operators of the central competitive district to admit the operators and miners of the southwestern district to the functions of the joint conference proved futile.

After two resolutions had been defeated President Mitchell took the floor and announced his belief that it would be impos sible to obtain the consent of the operators to the admission of the outlying districts and advised the convention to refrain from exerting extreme measures in this direction At 3:30 o'clock this afternoon a motion to inform the operators that the miners were ready to continue the discussion of the wage scale prevailed and at 4:30 o'clock the joint conference was convened. When adjournment was taken discussion of the miners wage scale was in progress and will be con tinued tomorrow morning.

except the eighth count in the first indict ment. This particular count referred to one of the entrymen, John Harmon, an old soldier. Harmon was not put on the stand and at the request of Rush the ovl lence on this count was not considered. Ware was in the court room when the rerdict was rendered and other than turning pale but for a moment when the clerk read the announcement of his being found guilty, manifested no visible emotion. He left the court room shortly after with his attorneys. The case has thus far cost the govern

ment in all its details approximately \$25,000. With the completion of the case Friday afternoon the jury was thanked by the court and discharged for the term. The jury had been entertained at the Her Grand hotel and as a precautionary measure the government employed secret service men to prevent any possible tampering with the jury, particularly during the night and recess intermissions of the court.

Court's Charge Extensive.

Judge Munger occupied thirty-five minutes delivering his charge to the jury. H said in part:

"This trial has been that of George G Ware alone. His co-defendants already have pleaded guilty to the-indictment o conspiracy. If one party to the conspiracy is guilty, all are equally guilty. One party must effectuate the completed act before the full conspiracy is established.

"The validity of a claim rests upon the principle of good faith." he said. "It is not a compliance with the law to file upon a claim with no intention to make the land his home, and a conspiracy means the meeting of two or more minds in an unlawful agreement. If the filing of a claim contemplated the alienation of the land to other parties is not complying with the law in good faith. However, the law does not limit the dominion of the homesteader over his land after he has completed his final proof under the law.

"An indictment is no evidence of guilt It is the corroborating circumstances to do the alleged unlawful act that constitutes the essence of the conspiracy. The statements of Lambert and Welsh are, under the law, admissible and bear a distinct re-Tation toward the establishment of the act charged. The question is, Was Ware connected with the conspiracy? Ware cann be convicted unless it is shown that he was a party to the alleged unlawful scheme. The mere advancing of money i not unlawfull. Conviction cannot rest upor

ANNAPOLIS, Md., Jan. 26 .- The trial of Midshipman George Melvin of Geneseo, Ill., began this morning. Melvin is a member of the third class,

The charge of bazing against Melvin is supported by six specifications, alleging the hazing of five different midshipmen, all of the fourth class. Under five of the specifications only the requirement of physical exercise is alleged, and in one the use of abusive language is also charged. The order dismissing Midshipman Stephen Decatur, jr., from the Naval academy was read out at dinner formation at the academy this afternoon. He left the grounds shortly after.

It is believed here that the board of in cestigation which furnishes the data upon which charges of hazing are lodged against midshipmen will adjourn sine die in a few days. This is the first indication that the end of the present socies of trials is at hand However, it is thought there will certainly he a number of additional, cases founded upon the reports already made to the super-Intendent.

CHICAGO, Jan. 26 .- George Wheeler Hinman, the editor-in-chief of the Inter Ocean,

tonight issued the following statement: tonight issued the following statement: Mr. Hasler, the accused reporter, ceased tonight to have any connection with this newspaper. He undertook to report the trial of the packers under these instruc-tions, and no others: "Tell the truth and treat the packers fairly." A reporter who takes money, even though he does so in-nocently, as Mr. Hasler appears to have done in this case, has lost his usefulness to the Inter Ocean. I gave pres-cuts of the same nature to thirty or thirty-five persons. The fact that I am one of the general counsel of the Inter Ocean and a personal friend of the editors shows the after preposterousness of the insinuations uttered by the United States district at-torney in this case.

Mr. Hasler impressed upon me at the time that the present was to come from Judge Brown and had nothing whatever to do with the pack-ers, I told him I could not accept anything of value under the circumstances. A few days later Mr. Hasler reopened the subject, saying that Judge Brown wished to make me a present because of some complimen-tary articles he believed I had written of him. Hasler then presented me with Sio and a card of Judge Brown bearing the words. "Merry Christmas-George W. Brown." I relaxed to take it and Mr. Has-ler put it in my overcoat pocket, saying Judge Brown insisted that I should have ft. reported the matter to my superior and then went to Judge Brown's office and re-turned him the money. remedies that were recommended for

skin humors; but I became worse all

the time. My hair began to fall out and my scalp itched all the time. Espe-

cially at night, just as soon as I would

get in bed and get warm, my whole body

would begin to itch and my finger nails would keep it irritated, and it was not

long before I could not rest night or day.

A friend asked me to try the Cuticura Remedies, and I did, and the first appli-

cation helped me wonderfully. For about four weeks I would take a hot

bath every night and then apply the Cuticura Ointment to my whole body;

and I kept getting better, and by the time I used four boxes of Cuticura I was

entirely cured, and my hair stopped falling out, but I continue to use the

Cuticura on my scalp. It keeps all dan-druff out and scalp is always clean. I

always use Cuticura Ointment on my

face after shaving, and have found

nothing to equal it. I will never be without it." D. E. Blankenship, 319 N. Del. St.,
