Spanish Vessel Mistaken for One of France is Given Message from Rebel Chieftain Offering Support.

ALGECIRAS, Spain, Jan. 27 .- The plenipotentiaries of the powers resumed their essions today and spent a couple of hours going over the work of the committee on Mroccan revenues. The powers have several important objects in examining the Moorish system of taxes, or rather lack of system and trying to regularize it. The sultan is always in need of money and will be in a better humor to co-operate with the powers in the work of reform if he is supplied with more cash for foreign luxuries, of which he is fond and which are a scandal to his pious subjects. The Moroccan conference seems dispos

also to reduce the number of so-called "protected" persons who escape taxation because they are foreigners or in the service of or in partnership with foreigners. "You have only left me the poor to tax," said the sultan to the foreign ministers at Fez when the subject was discussed there me time ago. "You have taken all the rich men under your protection and out of

my reach." Part of the plan under consideration oday is to limit foreign protection and to introduce land taxes. It was proposed in

committee to tax landlords. "No," said Sidi Mohammed el Mokhni, he second of the Moroccan delegates to the conference. "Tax the tenants. We can never flad the landlords. The occu pants of houses always say they are tenants.

WENDEN, Lavonia, Thursday, Jan. 25 The pacification of the Baltic provinces is reaching the final stage, so far as the agrarian movement is concerned. Nearly revolutionists have been shot, several thousand are under arrest and 5,000 rifles

have been captured. Generals Orloff, Meinhardt and Wend are now operating in the Wenden district with 20,000 troops, completing a circle in which the revolutionists are being gathered. The generals have the names of the lead ers of the revolutionists, who will be tried by court-martial when caught and either shot or imprisoned . The majority of those already executed were Lettish teachers or

students. The revolutionists have stopped burning buildings, but they occasionally fire on the troops. Among the burned castles is that of Baron Rosen Grosscup, about twenty miles northwest of Wenden, which was destroyed with all its contents, servants who had been in the service of the baron for twenty years assisting in the work of destruction. Altogether the revolutionists have burned 200 castles, valued at \$4,000,000, without including the articles of value

which they contained. The troops are taking the strictest measures. On one occasion they surrounded a church in which funeral services were proceding, arrested the revolutionary orators and shot one of them.

### Chamberlain and Balfour.

It is a fact that Chamberlain has already outlined a plan for the unionist support of ichor on all trades union propositions. Mr Chamberlain in a speech this week nailed the colors of protection to the mast, and this, with the fact that Mr. Balfour has accepted a seat for the city of London, an essentially tariff reform seat, makes it almost certain that Mr. Balfour and Mr. Chamberlain in the future will work hand and glove for tariff reform on the Chamberiain lines.

It may be pointed out that the tariff reform movement in this election has not been without its victories. The Chamberlainites are drawing much consolation from

the fact that in several cases unionist free traders were defeated by members of the eighty-four nationalists on the question of

protection. One thing is certain that the laborites will take a leading part at the coming sessions of Parliament, though it is improbable that any active opposition tactics will develop

during the first session. The nationalists, who expected to hold the balance of power, are sourcehat disap-
