FRENCHMAN MAKES IT IN 584.5 SECONDS
American Steam Car Driven by
Marriott Also Comes Within the
Limit, Finishing in 59.3-5
Seconds.

ORMOND-DAYTONA BEACH, Fla., Jan. 29.—Victor Demogeot of France was crowned speed king of the world this afternoon on the Daytona sands after driving his gasoline car two miles in the marvelous time of 584.5 seconds.

Demogeot maintained a speed of 122 miles an hour to make this record. The two-mile-a-minute race closed the automobile tournament for this season. The competition of this event had narrowed down to Marriott, in the steamer, and to the big 200-horse-power French car, whoever should drive. Demogeot was finally selected.

On the first trial Marriott went first, but the best he could do was one minute and three seconds. Demogeot brought the crowd to its feet by reducing the time to 584.5. Referee Merrill decided to give each car another trial to see if the time could be brought within the minute. Marriott came first again and this time faster. He made the two miles in 584.5, making it impossible that the champion leading French car should reduce this, but the Florida Times-Union \$1,000 trophy was lost to America, according to later when Demogeot surrendered over the two mile course in 584.5, the fastest speed ever attained by an automobile. Demogeot was crowded with a laurel wreath by Miss Mary Simms of Ormond, Fla., while several thousand persons cheered. An automobile parade followed and this ended the tournament.

The other races of the day were relatively unimportant. The summary follows:

Thirty-mile open championship race, American steam car driven by Marriott, 59.3-5 seconds; second, Frenchman, 584.5; actual time, 28.385; third, Christie, 59.0; fourth, gasoline, 61.385.
