WHEAT FINISHES HALF CENT HIGHER Inexpected Strength Develops in

Corn and Onts Are Up In Sympathy-Rains in Argentina -Drouth in India.

OMAHA, Jan. 30.—1906.

The southwest market took a boost this morning, apparently in fear of a cold wave, which would injure the crop, unprotected by snow dovering, kansas City and St. Louis were up about \$\frac{1}{2}\$C. The northwest has turned buyer and prices are up there, too. Foreign cables came strong on Argentina weather and bulish indian crop report. All this caused strength in the local market and the ciose was \$\frac{1}{2}\$C higher. May finished at \$\frac{1}{2}\$C, July at \$\frac{1}{2}\$C and September at \$25\$C. OMAHA, Jan. 30.-1906.

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Jan. 30.—An official report of a continued drouth in India and a prediction of colder weather in the southwestern part of the United States were the chief factors creating a strong wheat market here today. At the close wheat for May delivery was up 140. Corn and oats were each up 140%c. Provisions were a shade to 3c higher.

The wheat market was strong for the entire day. At the opening the May option was up 140%c to 140%c at \$5c to \$540c. Commission houses were active buyers because of builish news which was both foreign and domestic. Receipts in the northwest were less than those of the corresponding day of last week and stocks at Minneapolis increased only 100,000 bushels during the last three adays. Toward the middle of the session the market received fresh strength from \$60 official report stating that the drouth in Inda was still unbroken in many provinces. The buils also found encouragement in Bradstreet's report of the world's visible supply which sported an increase of only 120,000 bushels, compared with an increase of 100,000 bushels for the corresponding week one year ago. During the day the May option sold up to \$5547854c. The close was strong with May at \$54,075%c. Clearances of wheat and flour were engul to 147,000 bushels. Primary receipts were 482,000 bushels against 32,000 bushels a \$7867 ago. Minneapolis. Duluth and Chicago reported receipts of 25 cars against 40 cars last week and 292 cars a year ago.

Notwithstanding excellent weather for

cars against 40t cars last week and 292 cars a year ago.

Notwithstanding excellent weather for the movement of corn local receipts today were less than the estimate and this created bullish sentiment in the pit. The strength of wheat and an excellent demand also caused higher prices. The market closed firm and almost at the high point of the day May opened a shade to is higher at 44% to 44% 44% Local receipts were fell cars with 15 of contract grade.

Oats were strong in sympathy with wheat and corn. There was active buying by cash houses and shorts. May opened is higher at 30% and closed at 14% and closed at 15% 31% and closed at 15% 31% and closed at 15% 31%. Frovisions were a trifle lower early in the day because of an easier market for live hogs. There was fair buying on the decline, and this, with reports of heavy shipments, strengthened the market. At the close May pork was up a shade at \$1.60% 7.82%. Ribs were 21% 356 higher at \$7.60. Estimated receipts for tomorrow: Wheat, 5 cars; corn, 216 cars; oats, 137 cars; hogs, 42,000 head.

The leading futures ranged as follows:

Wool Market. BOSTON, Jan. 30.-WGOL-Although the volume of business done has been only moderate, chiefly on account of the small offerings of territories, the situation seems to offer encouragement to dealers. The demand has been well scattered, though territories and fleeces have had the call. The to offer encouragement to dealers. The demand has been well scattered, though territories and fleeces have had the call. The firm markets abroad have had a helpful influence. The supply of territory wool is very light. Prices have not materially changed, the cleaned cost of territories being about 70f72c for fine and 68970c for fine medium. Pulled wools and foreign are firm. Frices range as follows: Ohio and Pennsylvania XX and above 34/40514c; XX, 33034c; No. 1, 38036c; No. 2, 38740c; fine unwashed, 250785c; quarter-blood, unwashed, 250785c; quarter-blood, unwashed, 250785c; quarter-blood, and parter-blood, unwashed, 250785c; quarter-blood, unwashed, 250785c; quarter-blood, unwashed, 250785c; quarter-blood, unwashed, 250785c; quarter-blood, unwashed, 250785c; three-eighths-blood, 350334c; half-blood, 320324c; three-eighths-blood, 320334c; half-blood, 320324c; unwashed delaine, 28c. the previous days receipts, being neither very poor nor very good.

The market on beef steers while lacking in snap and vim, was not so very much different from yesterday; the receipts being large gave buyers a chance to discriminate more closely, and where the cattle did not especially please there is no question but what they took advantage of the situation to buy them possibly a little lower. On the other hand, there seemed to be a very good demand for desirable kinds of cattle at prices that were just about steady with yesterday, if not steady, at least so nearly so that it was hard to figure out the difference. Owing to the large run and the late arrival of many of the trains the day was well advanced before a clearance was effected.

The supply of cows and helfers consisted of not far from fifty carloads. With so many cattle in sight buyers were not especially sharp bidders, and still they took the better class of the offerings, at least such as they happened to want, at prices that were close to steady. On the other hand, quite a good many sellers who did not happen to be fortunate in having just what buyers wanted reported that they were unable to secure as good prices as yesterday and they were selling the market a little easier. Later on, after the more urgent orders were filled and some of the buyers began dropping out, the market on cows became very slow and weak, closing a flat 10c lower.

Stockers and feeders were a little light this morning and although there was a very good demand buyers seemed to feel that they had been paying pretty strong prices and were inclined to take the bear side. The result was that the feeder market for the first time in several days was a little slow, with prices shading downward.

may not be out of place, however, to say in brief that so far as can be observed there is no cause for the present weak-ness prevailing in the market aside from the continued warm and unseasonable weather, which has very largely reduced the demand for mutton at the large eastern

weather, which has very largely reduced the demand for mutton at the large eastern consuming points.

In addition to the general weakness prevailing at all points South Omaha suffered this morning from the fact that prices at this point are too high as compared with those current at other market points. Buyers being brought face to face with lower reports from other selling points and with their killing sheets showing that sheep and lambs have been costing more here than at any other packing center, started out this morning with the declaration that they must buy the stuff lower or let it alone. Sellers, as a matter of course, worked hard to get all they could out of their holdings and were not very quick to let go on lower bids. Hence the trade was slow and dull from start to finish, with prices anywhere from weak to 15c lower than yesterday.

Quotations for fed sheep and lambs are as follows: Good to choice lambs (Colorados), \$6,50@7.15; good westerns, \$6,80@7.15; good light.weight yearlings, \$5.50@6.10; good heavy vearlings, \$5.50.500; good wethers, \$4,50@5.60; ewes, \$4,75@5.60; wethers, \$4,50@5.60; ewes, \$3,75@4.75; breeding ewes, \$4,57@6.60.
