President Mitchell of Miners' Union Delivers an Ultimatum.

NO AGREEMENT WITHOUT AN INCREASE

Operators Reply that an Increase Will Not Be Granted-Miners' Convention Meets This Afternoon,

INDIANAPOLIS, Jan. 31.-Today brought deadlock between the coal operators and miners of both the Central competitive and Southwest districts. John Mitchell, president of the miners, delivered his ultimatum to the joint scale committee of the Central district declaring that there must be an increase in wages or there will be no agreenent. F. L. Robbins of Pittsburg, speaking for the operators, declared that the ope rators stood positively and determinedly against any advance wherever. The general impression is tonight that the meeting of the joint scale committee tomorrow morning will result in the signing of a formal agreement which report will be made to a session of the joint conference to be called before noon and the report of disagreement will then be referred to the session of the miners' convention to be held at 2 o'clock. Officials of the mine workers are quoted as being oprosed to an adjournment of the joint conference without a final settlement one way or the other.

"I doubt," he said, "whether If the democratic party had succeeded in electing its candidate in 1904 we would find him striving as carnestly, as zealously and as fearlessly in sustaining the rights of all the people against those who unite to oppress the masses as is the present chief executive."

He also commended the president for initiating the merger suits and for his position in support of railroad legislation, which, he said, "is giving life to a democratic principle."

"For three or four years." he added, "the president had been carrying on a struggle with the money power, the like of which had not been known since the days of Andrew Jackson.

He believed the west to be behind the president in his stand and he added the opinion that if the real sentiments of the people of the south could be ascertained they would be found also to be favorable to the president.

Mr. Patterson resumed his discussion of the attitude of the president, saying that he did not consider him a perfect man. He knew him to be emotional and at times hasty, but he had no doubt of his patriot He reiterated his confidence in the presi-

PACIFIC MAIL FIGHTS Manager Says Delay in Freight is

Due to Panama Railway. WASHINGTON, Jan. 31.-Robert P. Schwerin, manager of the Pacific Matt Steamship company, was before the senate committee on international relations today. His attention was called to a statemen by Secretary Taft criticising the service between Panama and San Francisco for Its part in contributing to the congestion of freight at Panama. In reply he said: "Secretary Taft's statement was made

either through malice intended to injure an American industry or through ignorance of the cause of the difficulties of which he has complained."

Continuing he said that the Pacific Mail Steamship company operates nine regular steamers on the Pacific coast, which steamers sail on schedules, providing Honduras, Mexico and other countries whose ports are entered. The schedules provide for connections with the steamers of the Panama Steamship company from New York by means of the railroad across the isthmus. The schedules require the companies to make connections and exchange freight,
