The southeast corner of Richardson county is becoming considerable of a mining country, if the efforts people are making to secure leases is to be taken as any indication. A number of St. Joe people, headed by Judge Spencer, the Chicago, Burlington & Quincy attorney, were in Richardson ounty last Sunday and Monday and secured the mineral leases on some land near Salem. The indications for paving mines in this district are very good and work is being started on a working shaft at the leases east of town. The field that will be opened up in Richardson county if the indications are what they seem to be, will be as valuable and as large, if not larger, than the Joplin field. There are a number of miners and mining men in Falls City now looking for leases and they all speak well for the future of the Falls City

RIGHT NOURISHMENT.

We think of nourishment as food-meats, soups, vegetables, etc., but that's only half. It's not the food alone that counts but the good that we get from food that furnishes nourishment. A pound of steak is of less value to a weak stomach than a crust of bread is to a strong digestion. But weak stomachs can be made strong. Begin by eating less; have regular hours for meals; avoid fancy things and about a half hour after eating take a tablespoonful of Scott's Emulsion. It's a fact of medical history that people have lived on not much else but Scott's Emulsien for a long time-not only lived but gained flesh and recovered their strength and health. From the pure Norwegian cod liver oil to the last drop of glycerine, Scott's Emulsion contains just the strengthgiving and health-building elements needed for low vitality, weak digestion and poorly nourished bodies.

Soda Crackers anything you choose-milk for instance or alone. At every meal or for a munch between meals, when you feel the need of an appetizing bite to fill up a vacant corner, in the morning when you wake hungry, or at night just before going to bed. Soda crackers are so light and easily digested that they make a perfect food at times when you could not think of eating anything else. But as in all other things, there is a difference in sod crackers, the superlative being Uneeda Biscuit a soda cracker so scientifically baked that all the nutritive qualities of the wheat are retained and developeda soda cracker in which all the original goodness is preserved for you.
