ELIOT IS AGAINST FOOT BALL

He Also Asserts That its Effect on Spectators is More Demoralizing Than Cock or Bull Fighting.

to become a brutal, cheating demoralizing game can be trusted to reform it.
Wrong Kind of Hero.
The report declares that the game has reached a point where it sets up a wrong kind of hero, that there is no such thing as generosity between combatants any more than in war, and that all the evils of foot ball have descended into the secondary schools, where they are working great moral mischief. "Regarded as a combat between highly trained men," says the report, "the prize ring has great advantages over the foot ball field, for the rules of the prize ring are more humane than those of foot ball and they can be, and often are, strictly enforced. In the fight in a prize ring between two men facing, each is perfectly visible, so that there are no secret abominations as in foot ball. Yet prize fighting is illegal."
Too Many Men Hurt.
Continuing, the report declares that foot ball causes an unreasonable number of serious injuries and deaths, of which the public has been kept ignorant concerning the number and gravity of these injuries; that many of the serious injuries are of such nature that in all probability they never can be perfectly repaired; that violence can be ruled of the game by coaches, trainers and players are highly profitable and are constantly perpetrated by all parties, and that acts of brutality are constantly committed, partly as a result of

THE REORGANIZED BLACK KATS SHOWED JUST WHAT THEY WERE CAPABLE OF

Jack Dougherty Beats Buddy Ryan-Milwaukee, Feb. 2.—Jack Dougherty of Milwaukee was awarded the decision over Buddy Ryan of Chicago by Referee Coffey in an eight-round bout before the Milwaukee Boxing club tonight. Dougherty had a shade over Ryan in nearly every round. The Chicago boy was evidently awaiting an opportunity for an opening on Dougherty's chin and several times tried to land, but Ryan kept his left arm up and blocked or Ryan felt short of landing. Dougherty used his left effectively throughout the bout.

the passions naturally aroused in fighting, but often on well grounded calculations of profit toward victory.
"It is clearly the duty of the colleges, which have permitted these monstrous evils to grow up and become intense," the report continues, "to purge themselves of such immoralities and to do what they can to help the secondary schools to purge themselves also. Intercollegiate and interscholastic foot ball ought to be prohibited until a reasonable game has been formulated and thoroughly exemplified in the practice of individual institutions."

INVESTIGATES CAUSE OF FIRE

Government Trying to Discover Reason for Blaze on Transport Which Proved Fatal.
SAN FRANCISCO, Feb. 2.—The investigation into the cause of the fire on the transport Meade yesterday is still in progress. Major Devol, chief of the transport service, is quoted as saying: "There is no doubt that the gas which overcame the firemen was generated by the burning of the cotton in a bundle of mattresses and in the wrappings of a bundle of rifles. These was a large quantity of cotton in the mattresses, but the cloth around the rifles was of wool. I am told that the burning of the cotton must have caused carbonic acid gas, the larger quantity of which was very deadly in the confined space of the ship's hold."
WASHINGTON, Feb. 2.—It has been decided to delay sailing of the transport Meade for ten days to give the officers and men an opportunity to put their clothing in shape, and where they were destroyed, to adjust insurance carried by some of the officers.

WASHINGTON, Feb. 2.—Director North's report on unignited cotton in the United States on January 16, 1906, shows 29,854 bales.
