BRANCHES AT PORT ARTHUR AND DALNY

Robert Weldensull Writes of His Visit to These Places and of the Activities Among the Soldiers There.

HANKOW, China, Dec. 15 .- (Special Correspondence.)-Before I had finished my work in Japan, the Japanese national committee of the Young Men's Christian assocation urged me to visit Dalny, Port Artnur and New Chwang, or Ying Kow, in Lisotung peninsula and Corea. It was a very difficult thing to get into these places, as the whole peninsula of Llaotung as under the military control of the Japanese army and navy. Only such perone as were above suspicton, or had replable endorsement, were permitted to visit any part of the peninsula. Passports were secured for me from the War department in Tokio with but little difficulty, as I represented the Young Men's Christian as- and vicinity, who took time from pressing sociation, which did and does now such a splendid work in the Japanese army. This work has wonderfully won the favor of the emperor of Japan, the officers and the men of the army and the navy every-

When it was proposed to drink to the emperor's health, all present grasped the glasses with the wine and other liquors and held at least 200 soldiers and sallors present, who them up with outstretched arms, then to their lips and, with possibly several exceptions, drank. I took the glass of water, held it up and then drank it This act was done by all present with a hearty hurrah! The Japanese colonel by my side lifted up the glass of wine, put it to his lips, but did not drink. He was a devoted Christian man and strictly temperate. After having done all I could in Dalny I went to Port Arthur by rail. A whole section of the car was given to me. As soon as I arrived at Port Arthur and quartered in my hotel I reported to the Young Men's Christian association headquarters in a very commodious and well located building; met the native Japanese general secretary, Mr. A. Minato. Had frequent interviews with him about his work. I the buildings they had constructed, but attended the Sunday afternoon meeting. The building was filled with soldiers and trimmings in the buildings, they were indesailors. The first part of the meeting was structible by fire or they were built of wellgiven to music and the graphophone, which The gospel meeting which followed was crowded. The Japanese general secretary made a telling gospel address, which was listened to with marked attention. After the gospel address the secretary offered a copy of the Bock of Matthew in Japanese to any of the soldiers and sailors that was a sight worth seeing.

The warm weather seems not to have seriously affected the dry goods jobbers, as most of the business at this time of year is of the spring order, but their customers in the country are complaining of a lack of demand for seasonable goods, which makes it necessary for them to sell at greatly reduced prices. Last month saw the largest trade for any January in the history of the local grocery houses.

Dr. Pierce's Favorite Prescription Is a powerful, invigorating tonic, impart-ing health and strength in particular to the organs distinctly feminine. The local womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring

#### Dentistry

I have a complete system of painlessness of my own. Space is too valuable to give you a detailed statement of it here, but I can say in brief that I am able to fill and crown sensitive teeth without pain in ninety-five cases out of one hundred.

Now, just for instance: Within 15 or 20 minutes I can cut through the enamel and dentine of a perfectly sound tooth and remove the pulp ("nerve") without the least particle of pain. I can give you plenty of references, for I substantiate in my practice just what I say in this paper.
