

CURRENT NEWS OF IOWA

COUNCIL BILLUERS

Office, 10 Pearl St. Tel. 43.

HAWKEYE LAWMAKERS BUSY

Primary Election and Anti-Pass Bills Will Come Up This Week.

PURE FOOD BILL WILL BE REPORTED

Four Samples of Lard Costing from 7-12 to 15 Cents a Pound Found to Contain Cottonseed Oil and Stearin.

(From a Staff Correspondent.)

DES MOINES, Feb. 4.—(Special.)—The analysis for five samples of lard were submitted to the committee of the house and senate having in charge the pure food bills. The samples were secured by the state dairy commissioner and the analysis was made by the state chemist. The price of four of the samples were respectively 7 1/2, 8 1/2, 10 and 15 cents a pound and the analysis showed exactly the same for each that they were composed of cottonseed oil and stearin. The only difference was in the labels on the cans, which did not warrant the difference in price. The fifth sample contained real lard adulterated with beef tallow and was sold for 11 1/2 cents a pound. These samples, it is claimed, are only typical of the conditions over the state. It is claimed that it is practically impossible to buy pure lard in Iowa. The same is claimed of sausages and mince meats, which have been extensively analyzed by the state chemist for the dairy commissioner. The sausages are always adulterated with powdered crackers and preserved with sulphuric acid. The chemist expected the pure food bill will be reported from the committee this week.

Will Be Busy Week.

The coming week promises to be one of the busiest since the legislature opened. There is to be a fight early in the week on the bill for new trials in criminal cases. There is to be an attempt to get the Wobley resolution memorializing congress on the rate question out of the committee and the school bill for a board of regents for educational institutions will be introduced and the committee will report out the bill for state certificates for teachers. Mr. Hostetler is now serving his fifth year as pastor of the Second Presbyterian church and he has in view taking an extended European trip when he leaves here. Mr. Hostetler in addition to his duties as pastor of the Second Presbyterian church has been an active worker in the Pastors' association of the city. He is also chaplain of the Council Bluffs lodge of Elks and his determination to leave Council Bluffs will be regretted not only by his congregation but also by a large circle of friends and acquaintances.

After Special Charters.

Senator Crawford of Dubuque denies that the railroads are in any way back of his bill to make the valuation of the roads relative to the assessable value of property being 25 per cent of its real value applicable to special charter cities. In connection with the introduction of the bill some of the special charter cities became worried and there is talk about that there is a scheme to abolish special charters in all cities entirely. Senator Crawford let it slip that "business men had told" him the special charters ought to be abolished. He denied, however, that the bill was anything more than an attempt to make the law clear. "The railroads fought the cities that assessed the property at less than full value," said Senator Crawford. "In Dubuque the railroads lost their case and in Cedar Rapids they lost. Then in the appeal to the supreme court the court was equally divided on the case, and both lower courts were affirmed. The courts of the state, through the courts of the state, are doing things straightened out. Now, in these cities the bulk of the property is assessed at its full value, but the railroad property at but one-fourth. That is unfair. My bill makes the law relating to assessments applicable to these special charter cities. The same thing could have been accomplished by making it not applicable, and one method would be about as good as another. If the law were not applicable these cities could assess railroads at the full value, the same as other property, and the thing would be equitable. The special charter cities do not have any advantages that other cities do not, particularly. They work under a little different arrangement, but are no better off than regularly incorporated cities. All this excitement about losing their charters is groundless, so far as I have known."

Bills Coming Up.

The wide tire bill that has passed the house has been reported out of committee in the senate and so has a fair chance of passing.

The judiciary committee of the senate has reported favorably on the bill giving petit jurors bonds. The custom of the past has been to keep a jury up till it decided a case. Sometimes this meant two or three days. The supposition seemed to be that it should be allowed to do nothing but eat till it decided. The bill provides that a district judge can order bonds for the jury if he thinks advisable. If he takes a notion that the jury is holding on him and stringing out the matter of coming to a decision purposely in order to get the per diem and board he can refuse the comforting bed.

Will Bring Lobby.

A lobby of patent medicine men will likely now descend on the legislature. Two bills are up, one in the senate and one in the house, providing that patent medicine men must tell on the outside of their bottles what is on the inside. The senate bill is the work of Dr. Young of Calhoun, who is the chairman of the committee on public health. Besides this bill he has up his sleeve a bill to prohibit the distribution of sample medicine, sales and the like on door-to-door where child and old people are likely to get hold of them and poison themselves. The Young bill is mostly told in the first two sections, which are as follows:

Every proprietary drug or medicine shall be clearly labeled in plain, open Gothic letters on a white background, showing the name and percentage of each of the contained constituents. The name shall be affixed to each and every package, carton, box or bottle containing such drug or medicine. Methyl alcohol shall be deemed poison and its sale shall be subject to the limitations of the poisonous drugs placed under schedule B of section 238, chapter xviii, title 12 of the code.

The enforcement of the bill is placed in the hands of the State Pharmacy board.

The house bill is somewhat more drastic. It provides that each package or bottle shall be clearly labeled in Gothic type of not less than eight-point, and that every medicine or drug containing 8 per cent of wood alcohol, 5 per cent of morphine, heroin, cocaine, salts, chloral hydrate, belladonna, strychnine or other poisonous substances shall be clearly labeled in plain, open Gothic letters on a white background, showing the name and percentage of each of the contained constituents. The name shall be affixed to each and every package, carton, box or bottle containing such drug or medicine. Methyl alcohol shall be deemed poison and its sale shall be subject to the limitations of the poisonous drugs placed under schedule B of section 238, chapter xviii, title 12 of the code.

Communis for Direct Vote.

Governor Cummins has received a request from the Cleveland Press asking his position on the question of voting direct for United States senators. The request bears the information that the Ohio legislature is about to vote on a resolution on the matter. Governor Cummins' position is well known to be in favor of the direct vote, as he has expressed it publicly often times.

The Anti-Pass Bills.

Anti-pass legislation next week will forge to the front according to the well-informed members. Little has been done along that line thus far except the introduction of two bills, one by Senator Hughes, the father of anti-pass legislation in the legislature, and the other by Senator Turner of Corning. The railroad committee

has planned to take up the anti-pass legislation the first thing, and as Senator Smith of Mitchell is chairman and he is in favor of soon legislation the committee will look to the task. There is a disposition to substitute the Turner bill for the Hughes bill and make the Turner bill the bill recommended by the committee. The bills approach the subject from opposite sides. Senator Hughes prohibits delegates to conventions and officials and persons in the employ of the state from riding on passes. He also includes telegraph and telephone companies and express companies from which the persons named are prohibited from receiving "courtesies."

Senator Turner approaches the subject from the opposite side and prohibits everybody from riding on passes except certain railroad employees and their families. He also comes his bill entirely to the railroads and street railways. It has been pointed out that the Hughes bill would shut off the seed corn specials. Senator Turner prohibits all persons from receiving or asking for passes or from receiving or asking for better rates for their families than any other person except employees of railroads and street railways, and these, too, if they are also employees of the state. Not more than one lawyer or firm of lawyers is allowed to represent one railroad or one town. Clergymen are permitted to ride on half fares. The bill excepts excursions such as the seed corn specials and permits newspapers to exchange advertising for transportation. It is argued by those favoring the Turner bill that it has less objections than the other bill, is simpler and will have less opposition on the floor of the senate and house than the other measure.

FRED M'BRIDE IS CAPTURED

Man Wanted at Beatrice Arrested After a Long Chase. SENECAVILLE, Mo., Feb. 4.—(Special Telegram.)—Fred McBride of Beatrice, Neb., was captured by a deputy sheriff after a long chase. He was arrested after giving the officers that much of a chase. He is wanted in Beatrice on an indictment returned against him some time ago. What the exact charge is the officers here do not know and McBride will not tell. He is silent, except to say that he was formerly in the army and that he had done nothing. "But," he said, "that was two years ago, and they surely wouldn't arrest me for that."

McBride refuses to return to Nebraska without requisition papers. The sheriff of Seneca county, Mo., is on his way to Lincoln where he will apply to the governor Monday morning for the papers upon the governor of Iowa. This was telephoned to the sheriff here, as also was the instruction to arrest McBride.

McBride has been in this section of Iowa some time. His occupation has been repairing typewriters, not for any particular firm, but rather on his own hook. He was in his hotel today when the sheriff came to arrest him. He calmly submitted, but in a few minutes said that before going with the officer he would have to step out for a minute or two. He was in his shirt sleeves and had no hat on, so the other thought of no danger in his returning. But he took advantage of it and fled. He got to Purgator, seven miles away, hired a livery team and had gone eight miles before he was intercepted. The sheriff telegraphed and an officer took after him, capturing him after a real chase of some two miles.

Lid Goes on in Albia.

ALBIA, Ia., Feb. 4.—A general attack was made today on saloons and resorts and fifteen arrests for violation of prohibition laws were made.

BALLOON CROSSES CHANNEL

Gale Carries Aeroplans from London to Bernouville, France, in Four Hours. LONDON, Feb. 4.—The balloon of the Aero club, which left London Saturday afternoon for France and was sighted from Eastbourne pier moving seaward, successfully crossed the English channel and descended in safety at Bernouville, twenty miles inland in France. The entire time consumed from London to the place of descent was four hours and ten minutes. The balloon was captained by Messrs. Pollock and Dale, who are members of the Aero club of the United Kingdom. The name of the balloon is the Vivienne III. A strong northwest gale was blowing during the passage across the channel, which was made in an hour and three-quarters. Once the balloon ascended to 10,000 feet, there a snowstorm was encountered and the entire airship was encrusted with frost.

Man Nearly Frozen to Death.

PINEDALE, Wyo., Feb. 4.—(Special.)—C. C. Jennings, in returning from Piney a few days ago, lost his way in the mountains on Muddy Ridge and remained out all night, reaching the home of Frank Nicholson about 6 o'clock the following morning, more dead than alive. Both feet and both hands were badly frozen, and it is considered a marvel that he came through the experience alive.

Strange Adventure

In auto led to painful accident, but Bucklen's Arnica Salve quickly healed all sores. 25c guaranteed. For sale by Sherman & McConnell Drug Co.

FORECAST OF THE WEATHER

Fair Today in Nebraska, Warmer in Western Portion—Fair and Warmer Tomorrow. WASHINGTON, Feb. 4.—Forecast of the weather for Monday and Tuesday:

For Nebraska—Fair Monday, warmer in western portion; Tuesday, fair and warmer; Wednesday, fair and warmer. For Iowa and Missouri—Fair, continued cold Monday; Tuesday, fair and not so cold. For Kansas—Fair, continued cold Monday; Tuesday, fair, not so cold. For Colorado—Fair Monday and Tuesday, warmer in eastern portion. For Wyoming and South Dakota—Fair Monday and Tuesday with rising temperature.

REVIVAL IN PHILADELPHIA

Evangelists Torrey and Alexander Begin a Three Months' Campaign.

TWO MONSTER MEETINGS ARE HELD

Great Crowds, Unable to Get Into Armory, Attend Overflowing Meetings in Nearby Churches.

PHILADELPHIA, Feb. 4.—After an evangelistic campaign of four years, which took them through Australasia, India, England, Ireland, Scotland, Wales and Canada, Rev. Reuben A. Torrey and Charles M. Alexander, the revivalists, today began in this city a three months' mission which is expected to eclipse any similar movement ever undertaken here. Two large meetings were held in the armory of the Second regiment, the first in the afternoon and the second tonight. So great was the interest that there was an overflow of several thousand persons who were unable to gain admittance to the big building and hundreds attended services in nearby churches.

The crowd that vainly attempted to get into the night meeting was greater than the one that was unable to participate in the afternoon services.

Handbills and small cards announcing the meetings have been distributed by thousands and throughout the city on dead walls and fences, side by side with theatrical advertisements, large posters bearing a picture of the cross and the printed Bible verses may be seen. The religious awakening is expected to cost close to \$50,000.

Those engaged in the work of evangelism hope that the revival begun here today will spread throughout the country an interest such as that witnessed in Great Britain. After their three months' work in this city Messrs. Torrey and Alexander will go to Atlanta for the month of May.

FIGHT WITH MOUNTAIN LION

At Ketchum of Meeteetse, Wyo., Kills Gigantic Beast After Nearly Losing His Life.

MEETEETSE, Wyo., Feb. 4.—(Special.)—At Ketchum, now known as "Catch'em," of this place had a most terrific fight with a mountain lion a few days ago, by which he nearly lost his life. Ketchum had been hunting cats and lynx, when he struck the trail of this mountain lion and decided to capture it. He followed the trail nearly twenty-four hours, when one of his dogs came upon the lion and was killed by the huge beast. Ketchum, after this was all the more determined to kill the lion, and after about four more miles trailing again overhauled him and the dogs freed him. Ketchum came up to within about 200 yards, and at the crack of the gun the lion dropped. Ketchum, thinking him dead or nearly so, made a run for the tree, but the beast had only been shot in the mouth and his teeth torn away. Without these he was unable to bite, but he began fighting furiously, and there is little doubt but that Ketchum would have been fatally injured had it not been for the help of his dogs, who hung onto the lion's back and finally succeeded in getting him away from the man. The lion again took to the tree and two more shots put an end to his career. The skin of the lion, after being laid by a hot fire all night, measured just twenty-four inches from tip to tip, one of the largest of its kind ever killed in the state. The same beast had been giving the stockmen of the whole country much trouble by his continued depredations and no one heretofore had been able to capture him.

You'll Know

When you get the grip, but you won't know how it happened—no one does. You won't care. You will be too miserable. But you will be intensely interested in how to get rid of it. How to stop those cold chills from chasing up and down the spine, the incessant pain in the limbs and back, nausea, coughing fits, sneezing, discharge from the eyes and nose, muscular pains, and that brain-racking headache.

The best treatment known for this dreadful affliction is

Dr. Miles' Nervine

Dr. Miles' Nervine cures by building up the nervous system, and destroying the germs which poison the blood. If taken when first symptoms appear is almost a sure preventive. I suffered several weeks with Grip, and nothing I took seemed to benefit me. I suffered almost death, and the grip Dr. Miles' Restorative Nervine. From the first day I felt better. It relieved my misery and gave me an appetite. After a few days I had fully recovered.—MRS. G. B. HALL, 149 Lee St., Jackson, Tenn. The first reliable remedy. If not, the druggist will return your money.

A fine room with a vault—heat—light—water—janitor service—in a fire proof office building for \$18.00—The Bee Building.

CALLUMET Baking Powder

complies with the pure food laws of all states. Food prepared with it is free from Rochelle salts, lime, alum and ammonia.

Trust Baking Powders sell for 45 or 50 cents per pound and are, therefore, more expensive than the Callumet. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

We Cure Men for \$12.50 Until March 3d

We Will Treat Any Single Uncomplicated Ailment.

UNDER ABSOLUTE GUARANTEE

NO PAY UNLESS CURED

OUR SPECIAL OFFER: In view of there being private, chronic and pelvic diseases, which are treated with quick special and experienced physicians without receiving any benefit, we have decided to make a special offer to charge only one-half of our regular fee for curing those who are now undergoing treatment elsewhere and are dissatisfied, provided that you come to us before March 3, 1906. For instance, if you are afflicted with either Hydrocele, Stricture or Nervous Decline, our charge for curing either of which without any complication is \$25.00, we will guarantee to cure you for \$12.50, and accept the money in any way you wish to pay. We will also cure Contagious Blood Poison for \$12.50, which is just half our regular fee. The liberal offer is made to enable those to be cured who have spent their money in doctoring without relief and to show the many who have treated with dozens of physicians without benefit that we have the only methods that produce a lifelong cure.

Our methods are up-to-date and are endorsed by the highest medical authorities of Europe and America. Hence our success in the treatment of men's diseases. Remember, our specialty is limited to the diseases of MEN, and MEN ONLY.

PRIVATE DISEASES—Newly contracted and chronic cases cured. All burning, itching and inflammatory stopped in 24 hours; cures effected in 7 days.

We cover the entire field of private and chronic, deep-seated, complicated diseases.

A LIFE-LONG CURE FOR

Ulcers, Stricture, Hydrocele, Varicocele, Blood Poison, Chronic Discharges, Skin Diseases, Piles and Fistula, Prostatic Diseases, Nervo-Vital Debility, Kidney and Bladder Diseases.

NORTHWESTERN MEDICAL & SURGICAL INSTITUTE

Northwest Corner 13th and Farnam. Entrance on 13th Street.

WEAK, NERVOUS MEN

from excesses or victims to Nervous Debility or exhaustion, Wasting Weakness, with Early Decline in young and middle-aged; lack of vim, vigor and strength, with organs impaired and weak. Our treatment will correct all of these evils and restore you to your natural and healthy condition. We also cure all contagious or acquired diseases—Hydrocele, Prostatic, Catarrh of Bladder, Kidney, all chronic diseases of men and women. Free examination and consultation. Write for all chronic diseases. FREE Symptom Blank for home treatment.

DR. SEARLES & SEARLES, 14th and Douglas Streets, Omaha, Nebraska.

Important Change in Service to the Northwest

Two Daily Trains to Montana, Washington, Puget Sound and Portland

Taking effect February 11th, the Burlington and Northern Pacific Companies will jointly establish an additional daily through train service from Omaha, Lincoln and Kansas City to the Northwest—Billings, Butte, Helena, Spokane, Seattle, Tacoma and Portland.

New Schedule: Leave Omaha at 4:10 p. m. daily, arrive Deadwood next afternoon at 4 o'clock, Butte and Helena second forenoon, Spokane second night, Puget Sound third noon, Portland that night.

Equipment: Through Chair Cars, Dining Cars, Standard and Tourist Sleeping Car service to Seattle and Portland.

Important Change of Time in Black Hills Service: Commencing February 11, the Omaha-Black Hills train for Hot Springs, Deadwood and Lead will leave Omaha at 4:10 p. m. daily, instead of 11:10 p. m. as heretofore.

Other Northwest Service: Daily train will continue to leave Omaha at 11:10 p. m. for all principal Montana, Washington and Puget Sound points.

East Bound Service From the Northwest: In addition to the present train, No. 42, from the Northwest, a new and additional daily through train service will be established from Portland and Puget Sound in connection with the Burlington's new train, 44, leaving Billings at 10:30 p. m., arriving Omaha at 7:10 a. m. the second morning.

The morning train service from Omaha at 9:10 a. m. will be extended to Broken Bow.

L. W. WAKELEY, GENERAL PASSENGER AGENT, Omaha, Neb.

J. B. REYNOLDS, CITY PASSENGER AGENT, 1502 Farnam St., Omaha.

WATER ORDINANCE GOES OVER

Measure Fixing Rates Will Not Be Called Up Tonight.

MAYOR MACRAE DEFENDS PROVISIONS

Executive is Doubtful if He Can Keep Aldermen in Line in View of Fight on Meter Rate.

The ordinance fixing the water rate was not brought up for its second reading at the meeting of the city council tonight as had been expected. Mayor Macrae said yesterday that he would favor letting the ordinance go over for another week at least so as to give its opponents further time in which to "chew the rag," as he expressed it.

Mayor Macrae makes no secret of the fact that he is greatly chagrined over the criticism which has been meted out to the proposed ordinance. Personally he is in favor of standing pat on the measure, but it is doubtful if he can keep a sufficient number of the aldermen in line. Some of the aldermen, it is said, are now favoring making some change in order to pacify those who are clamoring against the minimum meter rate of \$12 a year. Alderman Weaver, chairman of the special committee to which was entrusted the drafting of the ordinance with the assistance of Harl & Tinkley, the special counsel, like Mayor Macrae, it is said, ready to stand by his guns and uphold the ordinance to the last ditch.

It is understood that the West End, West Council Bluffs, South Side and Fairmount Improvement clubs have arranged to be represented at the meeting of the city council by good steady delegations for the purpose of voicing their objections to the proposed ordinance. It is doubtful, however, if the ordinance will be brought up tonight.

"Every taxpayer in the city is benefited by the material reduction in the proposed ordinance makes in the annual hydrant rentals," said Mayor Macrae yesterday. "If we had placed the hydrant rentals at a much higher figure and not decided upon a minimum meter rate of \$12 a month there would not have been this outcry by the small consumers, but it is impossible to please everyone, and therefore I am in favor of standing by the ordinance in its present shape. The committee framed this ordinance as it thought in the best interests of the city. It felt that if it could force the water works to accept the ordinance, rates which might prove to be almost endless litigation might be avoided. If some adjustment of the rates cannot be made what will be the result. The water works company will be able to get the present hydrant rentals from the city until the question is finally settled. The city council as it looks now, is between the devil and the deep sea, with the water works company objecting to the rates on one side and the people not satisfied with the work of the council on the other."

A member of the city council was yesterday inclined to look on the opposition to the ordinance from another point of view. He stated that he had good reasons to believe that the opposition to the rates was being fomented by republican politicians, who see in the situation an excellent opportunity to beat the democratic administration and democratic party in Council Bluffs a solar plexus blow. That the democrats took upon their shoulders two years ago a mighty hard problem when they promised the people of Council Bluffs municipal ownership and an equitable adjustment of water rates, the alderman admitted was surely the case.

More Stolen Brass Recovered.

Following the arrest Saturday of the Omaha lad, Tom Tracy, with two sections of a brass engine journal stolen from the shops at the Union Pacific transfer, about \$45 worth more of stolen brass was discovered yesterday hid under a pile of lumber at the transfer. A watch was set and shortly after dark last evening a man, giving the names of John McCormick and Joe Sutton, and claiming to be from Omaha, were captured while searching the lumber pile supposedly for the brass which, however, had been removed. McCormick and Sutton had a horse and buggy in which it is presumed they intended conveying the brass across the river. It is not known whether the men under arrest are connected in any way with young Tracy, but they will be held for investigation.

Y. M. C. A. Building Project.

The general committee in charge of the Young Men's Christian association project will call a mass meeting at an early date to set in motion the machinery to secure the needed subscriptions. The plan is to first secure from \$15,000 to \$20,000 in donations from wealthy residents of the city to form a fund to start with. It is believed by the committee that if this amount can be secured at the start there will be but little difficulty in raising the balance needed for the erection of a suitable building. The committee has been in correspondence with secretaries of associations throughout the state and have thereby secured useful data of which it will avail itself in the campaign to be shortly inaugurated in Council Bluffs.

Now on sale, cut submer tumbler, full cut pattern, \$2.50 per dozen. W. A. Maurer, Council Bluffs.

N. Y. Plumbing Co. Tel. 50, Night, 1435.

Improvement Club Will Meet.

The West End Improvement club has called a special meeting for Thursday night at the county building, corner of Avenue B and Twenty-fourth street, for

Water Power Plant Sold.

CHARLES CITY, Ia., Feb. 4.—(Special.)—Z. S. Marrenner has purchased the Charles city water power plant here. The consideration is not definitely known, but is supposed to be about \$25,000. The new purchaser will erect a new concrete dam and install an electric power plant with a day and night current. The plant has been idle since the burning of the mill on May 8, 1905. The property is a valuable one and has been in constant use for a half century. The first dam was built by the late Joe Kelley, the first settler in Charles City. At the time of the fire the mill property was in charge of John Kuck. The structure which burned was a four-story flouring mill with a 30-barrel capacity.

Business Change in Tabor.

TABOR, Ia., Feb. 4.—(Special.)—The firm of Dalton & Barbour has been dissolved. Mr. Barbour buying his partner's interest. During the past four years the above firm has conducted the largest general store in Tabor, having succeeded J. M. Barbour. Mr. Dalton will move to Canada.

Broker Charged with Embezzlement.

SIOUX CITY, Ia., Feb. 4.—Louis Becker, member of the firm of Becker & Deben, livestock brokers at the Sioux city stock yards, is under arrest on the charge of embezzling \$7,200.

You Don't Pay Us

For what some dead beat got for nothing. WE DO A STRICTLY CASH BUSINESS. Is there another firm in Council Bluffs on this basis? NO, THERE IS NOT. Every one of them of any consequence has a RIG BENCH. There are some of them who are no good. SOME ONE HAS TO LOSE THOSE ACCOUNTS. Who pays a merchant's bills? The customer. A merchant makes any money he has to sell his goods at a profit. Is there any profit in dead beat accounts? Not a cent. A merchant 20 per cent to conduct a business and it costs him just as much to SELL goods to DEAD BEATS as to LIVE PEOPLE. EST PEOPLE, besides the loss of the goods. The average person is able to draw his own conclusions from the above FACTS, and they are FACTS.

WHERE DO YOU BUY YOUR DRUGS?
