TAIGNY REACHES NEW YORK

Late Charge d' Affaires at Caracas Tells Why He Left Post.

POLICE REFUSE LET TO HIM LEAVE SHIP

French Diplomat Does Not Talk Much, but Intimates that President of Venezuela Used Duplicity in Statements.

NEW YORK, Feb. 7.—Oliver Taigny, former French charge d'affaires at Caracas, Venezuela, who arrived here last night, talked briefly upon landing today of conditions in Venezuela. He expressed the opinion that the industrial classes in that country are not giving active support to the government's position on French affairs.

"The people of Venezuela," he continued, "were quiet when I left there and their interest seemed to me to center principally in bettering their conditions, industrially."

He said that until he should confer with French Ambassabor Jusserand at Washington he had no opinion to express concerning the conditions under which he was forced to leave Venezuela.

"I received no passports," he said, "and no written orders from the Venezuelan government authorities directing me to leave. It was because the police prevented me from re-landing at La Guayria that I left the country."

When Trouble Began.

The difficulties with Venezuela," he said, "began on September 18 last, when on behalf of my government I protested against the seizure of the offices of the French Cable company."

Mr. Taigny said, in answer to questions, that relations later became so strained that he was the only member of the diplomatic corps at Caracas who did not receive an invitation to the official New Year's ball.

Asked to explain what President Castro's objects are in the political controversy, Mr. Taigny said:

"I do not know. Perhaps President Castro does not know himself."

"What did President Castro say to you?"

"Many things," replied Mr. Taigny.

Asked whether he meant that he believed Castro used duplicity in his statements, he replied:

"Yes, that is it."

Mr. Taigny said he would proceed to Washington immediately.

RUNNING SORES COVERED LIMBS

Little Girl's Obstinate Case of Eczema — Instantaneous Relief By Cuticura — Little Boy's Hands and Arms Also Were a Mass of Torturing Sores — Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointed them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up; so we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

CONDITION OF WHEAT CROP

Experts Differ, but J. E. Von Dorn Says Grain Is Safe Thus Far.

Conflicting reports are going about the various grain exchanges of the country as to the condition of the wheat crop of Nebraska and Kansas. Some are to the effect that the recent cold snap injured the wheat, and others are directly to the contrary. There is also much talk of the dry weather.

"There is no change in the Nebraska crop as yet," said J. E. Von Dorn, who has an extensive correspondence with all parts of the state. "It takes alternate freezing and thawing to hurt the wheat, and so far we have had no such weather. There is no snow covering on the ground, however, and the crop is in daily danger of thawing and freezing weather. The ground is very dry, and although this has not caused damage yet, we must have moisture in a few weeks or we will have no crop.

"In some sections of Kansas the wheat has been hurt by thawing and freezing. That state is in as dry a condition as Nebraska."

SAUNDERS HAS THE FLOOR

Argues Against Reassessment of Sewer Tax Against Property that Has Been Sold.

The time of the city Board of Equalization was taken up Wednesday morning by the arguments of Attorney W. A. Saunders against reassessing a number of old sewer districts in which taxes were knocked out by the courts. Mr. Saunders' chief plea was that some of the property has changed hands since and the new purchasers obtained the sewers but had no idea they would be called upon to foot the bills. In the absence of City Attorneys Breen and Herdman who are attending the supreme court at Lincoln no action was taken and the board adjourned to meet again Thursday morning at 1 o'clock.

The action Tuesday in overruling the protest to the plan for the paving on Twenty-fifth street from California to Dodge, was rescinded, and the plan rejected. A new district will be made to include additional territory.

REPUBLICAN CLUB BANQUET

Hon. John F. Swanger of Missouri One of the Orators to Show the Nebraskans.

LEGISLATORS TALK OF STATE POLITICS

Woodmen of the World Tax Case and the Cathers Treasury Injunction Submitted to the Supreme Court on Briefs.

(From a Staff Correspondent.)

LINCOLN, Feb. 7.—(Special.)—The Young Men's Republican club held its regular monthly meeting tonight at the Capitol hotel and made final arrangements for the seventeenth annual banquet of the club, which is to be given at the Lindell hotel next Monday night, February 12, the anniversary of Lincoln's birth. Indications are that this banquet will be one of the most successful in the seventeen years of the club's existence. President Walter L. Anderson of the club will preside as toastmaster and toasts will be responded to as follows: "The Republican West," Hon. John E. Swanger, secretary of state of Missouri, and "Lincoln and His Party," Hon. Norris Brown, attorney general of Nebraska. Both speakers are splendid orators and the members of the club are looking forward to the program with joyful anticipation. The price of tickets has been placed at $1.50 each and they are being taken at such a rate that the sale will probably be limited. Mr. Swanger will be met by a reception committee at the state line and escorted to Lincoln.

The general reception committee appointed by President Anderson tonight is as follows:

Don C. Despain, chairman; Dr. F. A. Graham, A. R. Talbot, M. W. Folsom, W. C. Frampton, E. S. Mickey, A. Hayden Myer, H. T. Dobbins, W. G. Crandall, Vernon Hedge, J. M. O'Neill, E. C. Strode, T. F. A. Williams, P. James Cosgrave, Victor Seymour, Frank C. Burke, Allen L. Gale, Philip F. Greene, Dr. H. W. Orr.

Legislators Talk Politics.

Representatives Davis of Buffalo county and Doran of Garfield county were in Lincoln last night, the former on his way to Omaha on business and the latter on his way to Iowa to visit his brother, who is a member of the Iowa legislature.

Mr. Davis said he was not one of the two members of the legislature who returned railroad passes for the good and sufficient reason he had not received such courtesies for the present year. The Union Pacific, said Mr. Davis, did not send him passes last year, even though he was a member of the legislature. When the legislature adjourned Mr. Davis was one of the members who paid his own way home, though he had a pass in his pocket. After the republican state convention Mr. Davis returned his annuals. He did this though he had not ridden on any of them after the legislature adjourned.

Representative Deles Denier of Cass county was here last night. "We are for George Sheldon for whatever he wants," said the Cass county man, "whether it be governor, railroad commissioner or what not. But the fact is I don't believe he wants anything. He is down on his Mississippi plantation living easily and attending to his own affairs and he don't care anything about political honors. Sheldon is a fine young man and worthy of anything the people can give him."

Argument on Woodmen Case.

The point raised by H. C. Brome, attorney for County Clerk Drexel of Douglas county, that the state had no right to ask for a mandamus to compel him to include in the assessment of the Woodmen of the World the amount of the reserve fund of that order, but the proper procedure would be an appeal from the action of the county board, was argued before the supreme court this afternoon. Deputy Attorney General Thompson argued the appeal from the county board was not the exclusive procedure. The board, as an assessing board, he said, had ceased to exist when the writ of mandamus was asked for, and further he said it was the right of the authorities to proceed by mandamus to compel the county clerk to rectify any mistake made against the property of any person after the county board had adjourned and ceased to exist as an assessing board.

Briefs in Charter Case.

The Omaha charter case, wherein John T. Cathers seeks to prevent by injunction the consolidation of the offices of county and city treasurers, has been submitted to the supreme court on briefs. City Attorney Breen and Assistant Attorney Herdman, for the charter, and Carl Herring, representing the school board, and Frank Ransom, appearing for Cathers, were all here today to argue the case, but as none of them were here yesterday when the docket was called the judges merely took the case on briefs. As the three briefs of the outside attorneys together make a pile as large as the one filed by the city attorney and his assistant all agreed to let the case go without argument.

Wayne Officials in Court.

State Superintendent McBrien and County Superintendent Hyland of Wayne county have met and the world still moves and no electric sparks have been generated—and no date has yet been set for that competitive examination. Superintendent Hyland and Superintendent Coney of Wayne county, both of whom claim to be the only original bonafide superintendent, came to Lincoln to try out their rights in the supreme court this afternoon. Coney, who received the majority of the votes cast at the last election, is trying by mandamus to oust Hyland, who is holding the office because he alleges Coney did not have a first-grade certificate on the day of election. McBrien recognized Coney as the rightful heir to the office. When the case was called the attorneys for the belligerents, Senator Young for Coney and T. J. Doyle for Hyland, were asked by the court if they had agreed on the facts. They had not. The court then announced it would refuse to hear testimony, and unless the attorneys agreed on the facts a referee would have to be appointed. Later in the day the attorneys agreed to submit affidavits and allow the court to try the case on these. When asked if he still intended to insist on McBrien competing with him in an examination Mr. Hyland, who is good natured and appreciates humor, replied that he did not know the Stanton newspaper was going to attack McBrien and challenge him to the examination until he read it. He thought the affair more humorous than serious.

Governor Talks to Students.

Governor Mickey this morning went out to University Place and made a talk to the students at Wesleyan university. Governor Mickey is a member of the board of trustees of this institution, and as 800 students are enrolled the governor is well pleased with the management of the institution.

New Manufacturing Concern.

The T. F. Menimen company is a Lincoln concern which filed its articles of incorporation this morning. The company will engage in the manufacture and sale of merchandise, with a capital stock of $100,000. The other member of the firm is C. F. McCain.

School Bonds Held Up.

Auditor Searle has not yet decided whether he will register the $60,000 bonds issued by the school district of Grand Island, after a most exciting election held in that city. The firm which bought the bonds now claims the history of the issuance is not correct and will refuse to take them unless they are voted again at a special election. The notice for the election did not contain the location of the polling places and the company holds this invalidates the bonds. Representative Ferrar, with a committee from Grand Island, appeared before the auditor today to show him the history of the bonds was correct and legal, but the matter is still under advisement. The committee asserts inasmuch as the bond election was held the same day as the general election and the county clerk had advertised the polling places for that election it was not necessary for the school board to do this. Those who favored the issuance of the bonds fear they would not carry at another election.

RECORD FOR MODERN WOODMEN

Two Hundred Sixty-Four Members Taken in at One Time.

KEARNEY, Neb., Feb. 7.—(Special Telegram.)—A larger class of candidates was adopted into the Modern Woodmen of America in this city Tuesday night than was ever taken in at one meeting in the state of Nebraska. The exercises took place at the armory and the obligation was administered to 264 new members. The exercises at the armory began early, but it was nearly 3 o'clock before they were concluded.

Two prizes had been offered to the camp presenting the largest number of candidates for adoption. The first prize went to the Miller camp, which had forty-one candidates, while the second prize was awarded to Sumner, which had forty. The prizes consisted of valuable initiation paraphernalia. The ceremony of adoption was executed under the supervision of Deputy Head Counsul Burgess of Blue Hill, and the work was exemplified by the foresters of Kearney camp, commanded by Captain W. F. Sammons.

Farmers at Fairbury.

FAIRBURY, Neb., Feb. 7.—(Special.)—The Jefferson County Farmers' institute yesterday closed a two-days' session which was the most successful in the annals of the organization. The district court room was not large enough to acommodate the crowd in attendance. The following program was carried out: "Economic Pork Production," by O. Hull of Alma; "Contagious Diseases of Stock," by Dr. E. K. Paine of Fairbury; "Our Schools," by Mrs. O. W. True, county superintendent; "Domestic Science and Home," by Miss Bouton of state university; "The Tillage of Soil," by C. W. Pugsley; "Raising and Caring for Incubator Chickens," by Mr. W. F. Johnson of Harvard; "Windbreaks and Shelter Belts," by Val Keyser of experiment station; "Breeding and Selecting Seed Corn," by C. W. Pugsley; "Good Roads," by P. S. Easterday; "Road Tax," by F. A. Houston.

The display of farm products was an excellent one as were the exhibits in the domestic science department. Premiums for farm products were awarded as follows: Best white corn, W. Oberheimer; best yellow corn, O. R. Jones; best sweet corn, W. Oberheimer; best pop corn, Robert Church; best hard wheat, H. Steggerman; best white oats, S. E. Gaylor; best mixed oats, E. D. Brown; best alfalfa seed, W. H. Brown; best millet seed, J. R. Lansener; best Kaffir corn, F. Richands; best early potatoes, W. H. Clark; best late potatoes, A. W. Danke; best sorghum seed, Fairchild Bros.

A QUESTION OF COST.

In any number of stores you'll see various preparations of cod liver oil at as many different prices. You'll wonder, perhaps, why Scott's Emulsion costs more than some other kind in as large a bottle. Hearing only one side of the question you may be led into buying the "just as good as Scott's" at the lower price. That's false economy. Scott's Emulsion costs more because its more expensive to make. Every ingredient is tested and guaranteed of the purest quality. No adulteration, no shaving of quality. There's no economy in bargain medicine. If you can afford to experiment with your health, substitutes may satisfy you. We take it, however, that you want a pure preparation, a reliable remedy and something that's going to help you. That's what you get in Scott's Emulsion. Thirty years the standard.

Man with Many Offices.

GRAND ISLAND, Neb., Feb. 7.—(Special.)—A friendly suit at law is not improbable to ascertain whether W. R. King, the recently elected county treasurer, can continue the office of city treasurer and ex-officio school district treasurer. He is now occupying all three offices and according to an opinion by J. H. Woolley, attorney for the Board of Education, the offices are incompatible and under the common law the city treasurer qualified for and accepted the office of county treasurer. He was elected to the latter in November on the republican county ticket. He was elected to the former last spring without opposition, running by petition. He has held the office of city treasurer for years and his accounts have always checked up to the greatest of satisfaction, nor is there the least doubt as to his integrity or ability even by his most bitter opponents. Since he would hold the city treasurer's office for more than a year and a regular election is coming on in April it is not improbable that a friendly suit will be brought to ascertain if the decision of the board's attorney is correct. The latter has made a thorough investigation of the case and seems to be very emphatic in the opinion.

Arrested for Horse Stealing.

BARNESTON, Neb., Feb. 7.—(Special Telegram.)—Marshal Sam James of this city arrested Fred Knowles, a man accused of stealing a horse from the liveryman at Adams, Neb., yesterday. The accused was taken in charge by Sheriff Trude of Beatrice, who arrived here this afternoon. The horse and saddle is held here. The prisoner does not deny the charge and the only excuse he makes is the statement that he was drunk and this is his first offense. Knowles does not say much, but intimates that he will plead guilty.

Beatrice Driving Association Officers.

BEATRICE, Neb., Feb. 7.—(Special.)—The annual meeting of the Beatrice Driving association was held last night. The work of the past year was reviewed and found very satisfactory.
