

M'GAGUE ON TEACHERS' PAY

President of Board Feta Forth, Benefits of General Increase in Salaries.

SAYS DISCRIMINATIONS ARE ABOLISHED

Asserts Complaint Comes from Thirty-Five Eighth Grade Teachers

Who Got One Conditional Advance.

Statements are made by school authorities that the expressed dissatisfaction of teachers with the new wage scale comes almost entirely from among the thirty-five eighth grade instructors who will receive an increase of only \$20 a year, or \$50 more if they pass the second professional examination provided. These teachers have received \$700 for years when instructors below the seventh grade could receive no more than \$300. Discriminations as between grades are abolished by the new schedule. In talking of the new scale President McGague of the Board of Education, said:

"The great majority of teachers have obtained quite a substantial increase. There are 37 grade and kindergarten teachers affected by the schedule. The new schedule goes into effect September 1. Of the total number, 125 teachers, under the old schedule, would be working upon a general maximum of \$655 per annum. Under the new schedule these teachers will be advanced to \$740, or an increase of \$85 yearly.

"In addition to the number of teachers who have attained the general maximum seventy-eight teachers are under the old schedule, working upon various annual rates between the minimum of \$380 per annum and the six-year rate of \$570. The new schedule will give them all an average increase of \$75 a year.

"Under the old schedule thirty-five seventh grade teachers were paid \$712.50 each. These are advanced to \$740, or an increase of \$27.50. Under the old schedule thirty-five eighth grade teachers drew \$700 each a year. If being the opinion of most of the members of the board that the seventh and eighth grade teachers had enjoyed greater salary privileges than the lower grades, it was deemed advisable to arrange the final maximum at \$740, which could be reached through the examination plan after the general maximum had been attained. In order to deal justly with the eighth grade teachers the first examination was waived in their favor. They are advanced to the first examination rate of \$750.

More Equitable Basis.

"By a careful analysis of the new schedule as compared with the old it will be seen the board has established a more equitable basis for the pay of the teachers, thus meeting a general demand for a leveling up of the salaries and a more just compensation to all of the force. The element of discrimination has been eliminated as nearly as possible.

"In the settlement of the matter the board, by its individual members, investigated the question of school salaries in other cities and reached its conclusions after careful consideration. The schedule just adopted places Omaha in point of high salaries at very near the top of the list of the cities of the country. With relation to the general maximum rate Omaha will occupy the first position. It is true that in six or seven cities, including New York, Chicago and Boston, the final maximum is greater, but to attain it continuous service

from fifteen to seventeen years and a series of examinations is necessary. In Omaha the final maximum may be attained in nine years, and with only two examinations.

BAILEY'S JURY CANNOT AGREE

Defendant Not Convicted of Stealing Bugle, but Charged with Another Offense.

The jury in the case of Frank Bailey, on trial in the United States district court before Judge Munger on the charge of stealing a bugle from the army of the Omaha National Guard companies, was unable to come to an agreement after being out since 2 o'clock Tuesday afternoon. The jury was called into court Wednesday morning and discharged from further consideration of the case.

It now appears that Bailey is wanted by the city authorities to answer to the charge of burglary committed a year ago at the Her Grand Annex. It being alleged that he broke into a room there and made away with a watch belonging to a woman who operates a bakery on the ground floor of the annex.

BREEDERS CALL ON CONGRESS

Shorthorn Men Ask Modified Traffic Charge and Adjustment of Tariff.

FAVOR THE MAXIMUM AND MINIMUM LAW

Want Larger Appropriations for Department of Agriculture-Kansas City Next Meeting Place of the Association.

Officers elected: President—E. L. Mitchell, Trenton, Mo. First Vice President—John R. Thomson, Dover, Kan. Second Vice President—C. A. Saunders, Manilla, Ia. Secretary—H. R. Clark, Plattsburg, Mo. Treasurer—H. R. Clark, Plattsburg, Mo.

Resolutions drafted by former Senator W. A. Harris of Kansas and former Congressman A. C. Shallenberger of Nebraska, as the committee on resolutions, were adopted before adjournment yesterday by the Central Shorthorn Breeders' association in its annual convention at the Millard hotel which committee organization to several matters of national import. The convention elected officers and chose Kansas City as its next place of meeting. These were the resolutions adopted:

Resolved, That the Central Shorthorn Breeders' association, that the practice of railroads in the transportation of live stock is a most important matter, and one which should be better judged of than any other industry, and we invite the consideration of traffic managers and respectfully ask an equitable reduction in rates, overcharges, and that a committee of two be appointed to confer with the traffic manager.

Resolved, That the imminence of tariff wars between continental nations of Europe and the United States is a grave menace to the welfare and prosperity of all concerned, especially to the live stock interests of the United States. We earnestly urge, therefore, upon our representatives in congress, the passage of the tariff reduction act, and the adjustment of these relations. We recommend a maximum and minimum tariff carrying out the intention of the act embodied in section 1 of the present tariff act.

Resolved, That the Central Shorthorn Breeders' association, that the necessity for further legislation or ratification by the senate, a copy of this resolution to be forwarded to the representatives of the different states represented in this association.

Resolved, That we regard the appropriations heretofore made by the Department of Agriculture to be insufficient for the work of this great department. Especially do we call attention to the lack of funds for the bureau of animal industry, which is becoming yearly more and more important in solving the great problems of the meat and wool industry.

Resolved, That a copy of this resolution be carried out by the representatives of the breeders to the secretary of agriculture and to our representative in congress.

Resolved, That we extend our most cordial and hearty thanks to the Shorthorn Farmer and that we are glad to extend the right hand of fellowship to such a worthy representative of realism in every way so essentially our friend.

Resolved, That we thank the management of the Millard hotel for its attention in providing for our comfort and convenience during our meeting.

W. A. HARRIS, Sec'y.

CONFERENCE ON FOOT BALL RULES

Agents of Yale, Harvard and Princeton Reach Agreement.

NEW HAVEN, Conn., Feb. 7.—It was learned tonight that representatives of the athletic associations of Yale, Harvard and Princeton met here today to discuss eligibility rules and matters in general, arrived at an understanding which amounts practically to a tentative agreement on the subjects discussed. No information was made back to the several athletic committees at the three universities and if these committees approve the report it is believed a final understanding will be arrived at, either by correspondence or at a meeting within the next two weeks. Yale was represented by Walter Camp, Harvard by B. B. White and Princeton by Prof. H. B. Fine.

Iowa Defers Action on Foot Ball.

IOWA CITY, Ia., Feb. 7.—(Special Telegram.)—At the meeting of the University of Iowa...

HAecker Takes Exception.

Prof. Haecker took exception to Mr. Harris on his remarks on types, saying that types were not a theory, but a fact and exist in chickens and other animals. He added:

"Potency and breeding power are divided evenly and fairly between the male and female and cannot be measured by types."

T. J. Wornall of Liberty, Mo., read a paper on "Needed Improvement," and prefaced his remarks by saying he had learned more on needed improvements by listening to the other papers than he would be able to impart. He said:

"Needed improvements may be divided into two classes—home improvements and foreign improvements. Home improvements are those which you can do yourself, while foreign improvements can only be done with the help of others. The first home improvement should be in the numbering of your stock. Number the calves in the ears when born, and when 2-year-olds brand the number on the horns and also in the records. You should keep better records at home. A good record should be kept of your calves, and also of your sales. Keep a book with the name and number of the animal and the price paid, character for her keep and account for the calves sold from her and you will always know whether she is a cost or a profit to you.

"Needed foreign improvements should consist in visiting other herds of cattle, as you can always find something you should do or should not do."

The association was entertained at luncheon by the staff of The Twentieth Century Farmer.

At the afternoon session a paper was read from S. C. Hanna on "Fellowship, a Factor in Business Relations." Prof. A. L. Haecker spoke of the Shorthorn as a dairy cow.

POLITICAL UPHEAVAL COMING

Complete Readjustment of Parties Certain, Predicts Kansas Man.

When Colonel Harris had finished his address before the Central Shorthorn Breeders' association he was asked what he considered the future had in store for democracy.

"Well, we are here to talk cattle and must not mix cattle and politics; the breeds won't mix and it is not right any more to

Iowa senate this afternoon to decide the future of foot ball here, a few of the minor recommendations of the Chicago conference were adopted tentatively and the rest were held over until Friday afternoon when the matter will be finally settled. A spirit friendly to the game is reported to have prevailed and it is now believed that the recommendation will eventually be adopted in full.

Sporting Breviews.

"Bug" Holliday has quit umpiring and is now looking for an engagement as manager of some minor league team.

Castillon has already announced he will have a winner at Milwaukee. Pa. Rourke will soon be able to make the same announcement.

Billy Hallman, the old boy, and Ed McKean are real candidates for the position of manager of the Akron team in the Ohio and Pennsylvania league.

With the exception of Chicago, most of the colleges which are against the game of foot ball are those which have won few games in the last few years.

Western league fans may thank their stars that Hoegberg, the premier grouch and Rickey, will not play in the circuit this year. He has gone back to Indianapolis.

Spring athletics probably will suffer along with foot ball if the latter sport is abolished, as the gridiron sport was used to furnish funds for track events and rowing.

None of the old boys is kicking against the game of foot ball as it is played by the old players who indulged in the game for two or three years are for it at all times.

Skaters who must skate are now forced to go to the lakes, for the lumbermen have taken possession of the Auditorium until night, or afternoons, rather, when the sport will be resumed.

Few residents of Omaha or any of the vicinity to the south know much concerning a sport which is most popular in the northern states and Canada. This is skimming, one of the most exciting and dangerous sports known. This country is indebted to foreigners for this sport, it having been introduced by Scandinavians, particularly Norwegians, who still remain its most ardent devotees. The feats of sliding and jumping that are performed on the slender skis are wonderful in the extreme and the daring involved in the performance of the sport appears but just this side of foolhardy, but so proficient do its admirers become that comparatively few serious accidents ever happen.

Connie Mack denies that Washington traded Tom Hughes for Lave Cross. He says: "There seems to be an impression that I must get a star player for Cross. I like very much to have him on my staff, but Washington could not afford to let Hughes go until the following season. At present I have no more deals on and the way it looks now no more deals will be made in the athletic club before the opening of the season. I am perfectly satisfied with the men I have on my list. I have no more shortstops and third basemen on my staff that it will take about all my time to weed them out."

A fan writes the Post: "I see in a New York paper that Washington has twenty-nine players for next season, and wants to know who they are. It is suggested that the fan write to the New York paper, which seems to know more about the matter than the owners of the club. However, when the club goes to Charlottesville, it will have the following players: Hughes-Patten, Hughes, Wolfe, Sudhoff, Kitson, Falkenberg, Smith, Hardy, McCoy, Starckel and possibly Hildebrand, catcher; Kittredge and Heyden, and possibly a youngster; Stahl, Bill, Kenney, Cassido, and Cross in the infield; Hickman, Stanley, Jones and Anderson in the outfield. Heintze of Bloomington has been given permission to train with the club, but no one expects him to make a place on the club."

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.
