SAME PROVISION /FFECTS M'GILTON

Letter Received from George Sheldon Indicates Cass County Man May Be a Candidate for Governor.

(From a Staff Correspondent.)

LINCOLN. Feb. 10.-(Special.)-Some of the onhangers around the state house say they have found a constitutional bar that will cause the boom of State Treasurer Mortensen for governor to die aborning. because of a provision of that document that no executive officer shall be eligible to hold another state office during the time for which he has been elected. Mr. Mortensen's term as treasurer will not expire until next January, whereas the election comes in November, and the supreme court has held in several cases that qualifications to eligibility to office must onte back to the date of the election, rather than the date of entering upon the office. This point, if well taken, would also rule out the gubernatorial ambitions of Lieutenant Governor McGilton, who in this respect is in the same boat with Mortensen.

Attorney General Norris Brown was in Omaha today and no opinion could be secured from him, though other lawyers profess to think Mr. Mortensen is not efigible to be a candidate. Mr. Mortensen himself believes there is a serious doubt of his eligibility, but at this time he is not going to announce his withdrawal from the race, and until he has consulted further with attorneys he will make no statement

In the meantime the political slate makers have already gotten busy looking for more candidates to usher to the front. A letter

Commends McBrien's Efforts. Superintendent McBrien is making an effort to impress his teachers it is better to teach few things well rather than teach a little of many things. Today he received the following letter of endorsement from Prof. Hart of the Peru Normal school:

Prof. Hart of the Peru Normal school: I am delighted beyond measure to note what you say in behalf of the five essen-tials crusade. It is a good thing and de-serves pushing along. My stammering tongue has stood for reform in this direc-tion for twenty years. If all other studies below the ninth grade were dropped from the school course we should have better scholars, better thinkers and better in-formed men and women. Furthermore, if all other studies were dropped from the second-grade certificate was changed from its present basis to a basis of a 95 per cent average in the five essentials, it would add to good scholarship and clear thinking, better teaching. There is noth-ing so confusing to the mind as dispersion of effort. Thoroughness in teaching is in-comprehensible to one who has not been thorough in learning. Thoroughness in learning is unattainable by those on whom we must depend for teachers under present conditions.

A letter was received today from Scantor George Sheldon of Cass county, who is now in Mississippt in which the senator said: "I shall be enlisted wherever and in whatever capacity it may be necessary to best serve the people of Nebraska." SUES FOR CUSTODY OF CHILD

Father of Grand Parents of Eugene

Porter Awalts Hearing.

GRAND ISLAND, Neb., Feb. 10.-(Special Telegram.)-W. H. Thompson, his son-inlaw, Wallace Porter, and Sheriff Dunkel, the latter having possession of Eugene Porter, the grandchild of Mr. and Mrs. Thompson and son of Mr. Porter, are all again in the city and are awaiting the hearing in the district court of the habeas corpus proceedings brought by Mrs. W. H. Thompson for the care and custody of the child. The case will come before the court on Monday afternoon.

The parties returned last night from Omaha, the child having been recovered at the home of Mr. Porter's parents, Dr. and Mrs. Porter; Sheriff Dunkel had trouble in getting it owing to the opposition of Dr. Porter, father of Wallace Porter.

The child has so far been in the custody of Mr. and Mrs. Thompson in accordance with the pledge made, it is alleged, to its mother on her death-bed by the father. It is stated that Dr. Porter, the other grandfather of the child, is the instigator of the trouble. Sheriff Dunkel has deputized Mrs. Thompson to take care of the child.

#### Last Total Eclipse of the Sun.

In answer to the query of A. F. Clapper. York, Neb : The last total eclipse of the sun occurred on Wednesday, August 30, 1966. It was not visible in the United States, the line of totality ending in Manitoba, some miles north of the border. In Nebraska it was partial and was visible just at sunrise, the shadow of the earth passing off the sun's disk a short time after the god of day had wheeled above the horizon. A cloudy morning interfered with the observation of the phenomenon locally.

Revolt is Rife in Land According to Merchant from Shanghai.

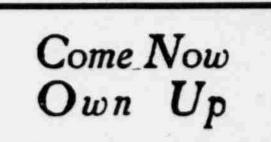

"ASIA FOR ASIATICS" IS RALLYING CRY

Opinion is Expressed that Open Hestilities Will Follow Present Agitation Unless Strong Measures Are Adopted.

SAN FRANCISCO, Feb. 10 .- "Asia for Asistics." This, says William V. Carmichael, a Shanghai merchant, just arrived here, is the cry that has been taken up in China and has spread like wildfire from province to province, kiedling everywhere the slumbering hatred of the Mongolian against all foreigners. The spirit of revolt is rife in the land, young China is rising and, in his opinion, trouble is bound to come.

The growing sentiment against the foreign element in China, according to Mr. Carmichael, will result in open hostilities unless they take a hand and show that they are prepared with armed force to suppress the first signs of an outbreak. He says that the only way to gain the respect of the Chinese is to inspire them with a wholesome fear of foreigners. He adds that the few regiments stationed at Manila will be entirely inadequate to cope

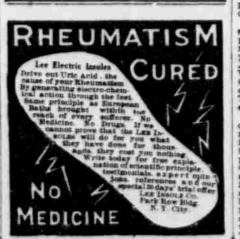

with the trouble in case it comes. "It is impossible." he says, "to deal with the Chinese with diplomacy. The only thing to do is to seize their territory. as Germany did in 1899, and thus bring them to their senses."
