## Trust to Nature

**Trust to Nature** A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alco-holic beverages, or by too close confine-ment to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result atigue comes early, is extreme and lasts long. The demand for nutritive ald is shead of the supply. To hasure perfect health every tissue, bone, nerve and muscle should take from the blood cer-tain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up, from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which latter came to the knowledge of country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the enre of obtinate stomach and liver troubles. These are found to be safe and yet cor-tain in their cleansing and invigorating effect upon the stomach. liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrnke root, Stone root, Bloodroot, Mandrnke root, Than there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with give-erine as a solvent make the most reliable and efficient stomach tonic and liver in-vigorator, when combined in just the right, proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality --such as pervous Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy. Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

"The "Golden Medical Discovery" is a cientific preparation compounded of the lyceric extracts of the above mentioned regetable ingredients and contains no lookel or harmful habit-forming drugs
