### ENJOINS WATER ORDINANCE

NEWS OF INTEREST FROM

Ovid Vien Secures Temporary Restraining. Order from Judge Thornell.

ALLEGES COLLUSION WITH COMPANY

Charges Conneil Has Not Sufficient Information Regarding the Matter on Which to Base Intelligent Action.

That the city council would be involved more or less litigation before the water works question was disposed of has been the general opinion, and it is now a fact. Yesterday Ovide Vien, a former justice of the peace, and at present in business as a chattel loan broker, through Attorney A. W. Askwith, secured from Judge Thornell of the district court a temporary order restraining Mayor Macrae and the eight members of the city council from passing the proposed water rate ordinance or entering into a contract with the water works company. A bond of \$500 was furnished by Vien and the court set the hearing on the application for the injunction at any time after five days notice from either side.

In his petition Vien sets forth that he is a consumer of water furnished by the Council Bluffs Water Works company and that the defendants comprise the city council and that their terms of office expire n April next, "at which time they will further cease to occupy such offices as representatives of the citizens and taxpayers of the city of Council Bluffs."

Having thus prophesied that there will be a change in the city administration this evening by the district court jury before Spring. Vien makes a number of allega- which was tried the combined damage suits the ordinance fixing the water rates was against the street railway company, on prepared by collusion of a majority of the being opened yesterday by Judge Thornell city council and the water works company. was found to be for the defendant company. The meeting of the committee of the whole had been called for the purpose of considering the proposed water rates or dinance, but in the face of the restraining order the councilmen abstained from doing anything except discuss the injunction suit and the parties who brought it and to instruct the city solicitor to at once take steps to have the case brought to as speedy a hearing as possible in the district court.

About all that Mayor Macrae and the councilmen were willing to say about the njunction last night was that they considered it most inopportune and somewhat premature, considering that the ordinance was still under consideration and the city council had not yet taken any definite action concerning it. The councilmen were optimistic enough to state they believed the court would dissolve the restraining order when the case was heard.

Some of the councilmen were inclined to the belief that the suit had been brought by Vien and Askwith for political effect, as Vien is said to be a candidate for the republican nomination for city auditor and Askwith is said to have ambitions to be hospital. city attorney.

Manager Hart of the waterworks company was outspoken in his opinion of the suit. He said it was most unfortunate, as failed to see the reason for such proceedings at this time when nothing definite had been decided upon by the city council. Mr. Hart was also of the opinion that

the suit was brought for political effect. Pastors to Aid Y. M. C. A.

Saturday afternoon two respectably dressed men drove up to the store and purchased of them tendered a \$10 bill in payment and a \$1 and asked Sewing If he would take the price of the tobacco out of it instead of the \$10. This would not have aroused Sewing's suspicion had he not learned later that the two men drove to Mineola and went through the same performance at the postoffice and store there. Mr. Sewing is now of the opinion that the men merely came to his place to get the lay of the land and probably went to Mineola for the same purpose.

While Jatler Gallup stood sentry at the door for fear the supposed lunatic might force his way in Mrs. Gallup telephoned for the police.

On being taken to police headquarters the man, who was evidently suffering from an attack of "snakes," superinduced by an over-indulgence in whisky, gave his name as M. C. Heggelund of Omaha. He was, as soon as possible, conveyed to St. Bernard's

#### BOTH FOOD

AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine-more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults.

mission to investigate and Report to the Next Session of Lawmakers.

(From a Staff Correspondent.) DES MOINES, Feb. 12 - (Special.) - Because of the strong opposition to any measure to redistrict the state on judicial district lines it is more than likely there will be a commission appointed by the general assembly to investigate the subject and report to the legislature just how much each district court in the state is in session and how much of the time of the district judges is occupied with such work. At the session two years Senator Whipple and Representative Cummings made some investigations and gathered considerable information, enough, as they thought, to 50 cents worth of chewing tobacco. One warrant an entire reorganization of the judicial districts. Their plan would have then, as if he had made a mistake, offered made a less number of judges and the opposition was strong against any such course. It is asserted there is not enough work in many of the districts to keep the judges busy. The plan of appointing a commission is for the purpose of bringing premises till late in the day. the facts prominently before the people in such shape there would be a demand for a reorganization, if not a lessening of the number of judges.

Demurrage fill in House.

Representative Powers in the house this afternoon introduced a demurrage bill. The bill is introduced at the request of a number of shippers and its purpose is to regulate the handling of car load lots, to equalize the charges for car service and to fix penalties for the detention of ears. It is claimed that one of the main purposes of the bill also is by regulating the car load and attached were notes bearing the name service to compel roads to furnish cars for car loads of freight when demanded.

Senator Hughes is preparing to push the nterests of the bill to place a bust of the late Governor Kirkwood in the hall of fame at Washington. The bill has been up at several sessions and has now passed the house. Senator Harner and many of the old soldiers of the senate favor the bill his clothes to make it look like a case of and will be heard in its favor before the appropriations committee.

Land Too High Priced.

The high price which the farmers have placed on their land in the vicinity of Fort Des Moines is said to be hindering the government plan of making a larger post embracing all the arms of the service. The farmers in the vicinity of the post have been approached and found to hold their land at \$200 an acre, which is considered out of the question by the government officials.
