

DREAM CITY

Chicago, St. Louis and Pittsburg Men Come to Omaha With the New Spectacular Enterprise of a Dream City Park

Dream City That Is to Be Constructed Near Sarpy City, Across the County Line From South Omaha, Is Not "The Baseless Fabric of a Dream," by Any Means, But Is to Become a Living, Genuine Reality by July 1, 1906.

The enterprise is in connection with the Omaha, Lincoln & Beatrice Interurban electric railway and Dream City will be the center of attraction of a thirty-three-acre park now owned by P. E. Her, but which is at once to be transferred to the Dream City Park company, and which is to be devoted to the purpose of creating the most elaborate amusement and recreation resort in the west, surpassed by none outside of New York and Chicago.

Dream City will be given an additional acre and it will be built on the historic site of the old Sarpy mills. The layout of the ground is such as to permit an unique park arrangement, with abundant lagoons and creeks, thus contributing materially to its pastoral beauty and scenic effect. The park is being designed by William F. Hamilton of New York, one of the foremost designers in the country, and whose work in designing parks of this character in New York, Chicago and elsewhere has given him an international reputation. The builders of the enterprise will be the Phinney Brothers of Chicago.

Contracts to Be Let at Once.
Contracts will be let in the next few days with Omaha lumber dealers for over 500,000 feet of lumber and other necessary material for the stupendous undertaking and beautification of Dream City and Dream City park, and work will begin just as soon as the building season opens sufficiently to permit the initial proceedings. It is the present intention to have Dream City opened for the public by July 1 of the present year.

Outside Capital Only Interested.
The capital interested in the Dream City enterprise is outside capital entirely, being manifested by Chicago, St. Louis and Ohio capitalists, who have abundant faith in the wisdom of Dream City to advance all the necessary funds, which will closely approximate \$500,000.

Replica of White City.
Dream City will be a small replica of the White City of the Chicago exposition, with its chain of lagoons, water by paths, grand court of honor, Midway and other attractions that have given the Chicago World's fair imperishable renown.

The main entrance to Dream City will comprise a double pagoda two stories in height, of Moorish architecture which will be connected by a grand Moorish roof over the entranceway between the structures and of copious width. The two pagodas will each be surmounted with two mosque-like domes, and from the four corners of each will spring small towers, not unlike the Mahometan prayer towers to give them the proper Moorish effect.

A circus ring will diverge from the entrance to offset the beauty of the gateway structure. Dream City proper will cover an area of several acres, and will be an architectural gem of varied designs in structural construction, while the surrounding park will be lavishly beautified with driveways, and floral accessories, which with the lagoons and deepened creeks will afford water pathways for scores of Venetian gondolas, manned by quaintly attired Italian gondoliers and gondoliers, thus giving a true Venetian effect to this feature.

The grounds will be illuminated at night with 5,000 or more electric lights, and an electric tower 100 feet in height will give additional beauty to the evening festal. The electrical power will be generated from Pappo creek, which is to be harnessed and put to use to furnish the generating power for the dynamo, thus overruling the wildest dreams of fancy that its early pioneers and explorers dared conceive. From this electric tower streamers will extend in graceful curves to the lagoon below. Ropes of varicolored electric lights will traverse the park in all directions, making the night appear as day.

The pathways and roadways will be macadamized and bordered with flowers and plants and the park will be a veritable "Fountain Plate Park," a gem of horticultural beauty, upon which no pains or expense will be spared to give it the most alluring and effective attractiveness.

Interurban Passes Through.
The Interurban railway will pass through the park, thus giving ready access to it, and a perfected car service between Dream City and Omaha, with the cars running at intervals frequent enough to permit its visitation at any and all hours.

Mr. Her, and a party of gentlemen from New York, representing the capital back of the Dream City park enterprise visited

the grounds by automobile Sunday afternoon to inspect its possibilities, and the visitors are enthusiastically elated over the prospect. One of the New Yorkers said: "Its Natural Beauty."

"The park far surpasses our expectations in its natural beauty and adaptability for the purpose. The park can be easily transformed into a veritable Eden, at even less expense than we first anticipated. Our corporation you know, is a close corporation and eastern capital is back of it. Mr. Her is president of the Dream City Park company, but we can say advisedly, and for the public's information that very little, if any, Omaha money will be put into the enterprise. It is Interurban money that is pushing the matter, and we have sufficient faith in its future success to push Dream City and Interurban to any reasonable limit. We expect to start in with the initial work Tuesday, and will keep it going as long as the weather will permit. Dream City will be opened to the public by July 1, and we will give you Omaha people a gratifying surprise.

Attractions of Highest Order.
The thirty-three acres of the park are sufficient for our present needs. We may enlarge later, and shall certainly do so if the conditions continue favorable. The attractions will be of the highest character and on a most elaborate scale. Sufficient money has been set aside by our corporation to carry out our present plans fully and adequately. The attractions will be infinite and diversified, and not unlike those of the famous Luna park, which your townsman, Skip Dundy, is now operating so successfully at Coney Island, New York.

One of the greatest of the spectacular features will be the famous Fire Flame show, which is one of the most thrilling and realistic spectacular exhibitions ever undertaken, and never before seen in the west. There will also be the Blue Hot chariot races, thus uniquely blending the modern with the ancient. Another feature will be a huge electric searchlight from the top of the high tower, which will shoot its beams across the intervening space to Omaha, South Omaha and Council Bluffs.

Dream City will consist of some fifty or more buildings, with numerous pagodas and kiosks, scattered here and there in unexpected nooks and crannies. In the center of the larger lake will be built an island, upon which will be constructed the headquarters for the fireworks display, which will be continuous at night and elaborate beyond description. There will be no

Large Floral Display.
The floral display we intend shall be the finest ever given west of Chicago. It is to be a Dream City in truth as well as a Dreamland park, and we have faith enough in Omaha to know that Dream City park is going to be a success from the start. Dream City is to be a permanent affair.

Substantial Structures.
The structures will be substantially built of frame and adequately decorated and plastered, and thereby much more durable than the material of which exposition structures are composed, the rapidly perishable stuff. As I told you, we will open Dream City by July 1 of this year, and on July 4, the nation's holiday, a grand festival pleasure commensurate with the patriotic

Of course we cannot go into quite so extensive a scale as Luna park is being operated, but there will be sufficient to entertain everybody most satisfactorily. The attractions will consist in the main of a grand chariot race, over which we will operate real chariot races, following closely the Roman and Grecian chariot races, both in extent of course and equipment—infinitely larger than in the contracted ring races shown in the ordinary circus. And then our races will be the real thing—run on merit alone. There will also be a wild spectacle, the dragon's gorge; shooting the chutes, the end of which will terminate in the large lagoon, a vaudeville stage with continuous performance, scenic river, with the singing gondoliers in their quaint and beautifully artistic and graceful gondolas, darting here and there to the music of the coster-singers over the lagoons and creeks, which later are to be widened and deepened for boating purposes.

One of the greatest of the spectacular features will be the famous Fire Flame show, which is one of the most thrilling and realistic spectacular exhibitions ever undertaken, and never before seen in the west. There will also be the Blue Hot chariot races, thus uniquely blending the modern with the ancient. Another feature will be a huge electric searchlight from the top of the high tower, which will shoot its beams across the intervening space to Omaha, South Omaha and Council Bluffs.

In the center of the larger lake will be built an island, upon which will be constructed the headquarters for the fireworks display, which will be continuous at night and elaborate beyond description. There will be no

City Clerk Elbourn has made a ruling that applications for places on the primary ballots for party nomination need not file petitions of ten resident voters of the precinct, as the Dodge law seems to require. The clerk, after study, has interpreted the law to the effect that petitions of the kind are not required and he will now demand them only one accompanied any of the filings so far. It came from C. W. Britt, republican, in the Third precinct of the Fourth ward.

Frederick James Fulton, who has been a member of the Woodward Stock company since the last fall, has signed a contract with the Chamberlain-Fulton Stage Art Co. to take charge of it in the capacity

of manager. Mr. Fulton is an actor of some reputation and of acknowledged ability. His training covers practically the entire field of stagecraft. Mr. Fulton will still maintain some connection with the Woodward Stock company. He will take charge of the new position, which is particularly fine work he did with Mr. Fulton, the same on the stage. He had a successful career in the east.

At a meeting of the Equal Rights club of the Tenth ward, held last night at Metz hall, the resolution endorsing the candidacy of A. H. Hennings for mayor, which was tabled at the meeting Saturday night, was taken from the table and passed by a large majority. At the Saturday meeting it is claimed a large number of persons not members of the club were present. In order to make sure that only club members voted it was insisted that the rules of the club, requiring a vote by roll call, be followed and the result was the passage of the resolution by a large majority. The meeting was well attended and enthusiastic.

Chamberlain's Cough Remedy. We have used Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

REV. JAMES A. LEWIS, Pastor Milaca, Minn. M. E. Church. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. When given as soon as the croupy cough appears it will prevent the attack.

His Fifth Ward Meeting. The Fifth Ward Republican club will have a meeting Thursday, Feb. 15, at Young's hall, 15th and Corby. Meeting called 8 p. m. sharp. Everybody invited. Come and help us make this a corker.

BEN J. STONE, Secy.

One Fare for the Round Trip. Via Chicago and Western railway to points within 120 miles. Tickets on sale every Saturday and Sunday to April 1, 1906. Good returning the following Monday. Low rates to other points on sale every Friday. For full information apply to H. H. Chubb, G. A. 152 Farwell St.

Hennings for mayor, which was tabled at the meeting Saturday night, was taken from the table and passed by a large majority. At the Saturday meeting it is claimed a large number of persons not members of the club were present. In order to make sure that only club members voted it was insisted that the rules of the club, requiring a vote by roll call, be followed and the result was the passage of the resolution by a large majority. The meeting was well attended and enthusiastic.

Chamberlain's Cough Remedy. We have used Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

REV. JAMES A. LEWIS, Pastor Milaca, Minn. M. E. Church. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. When given as soon as the croupy cough appears it will prevent the attack.
