COLD WEATHER HAS SOME EFFECT Bradstreets Estimate 1,600,000-Bushel Decrease in World's Supply of Wheat-Corn Shows Some Gain.

Oats were quiet as usual, although the market strengthened slightly. May closed at 30%c, July at 20%c and September at 23%c.

One hundred inquiries as to the amount of wheat remaining in the hands of farmers in the winter wheat belt showed those in Missouri are practically exhausted, while there is retained in Kansas and Nebraska an average of from 10 to 14 per cent.

Pringle wired: "R. L. Smith of McGradie, one of the most extensive wheat raisers of the county, wires from Fulton, Mo., that he is not at all encouraged with the present prospect for a good yield. He has 355 acres sown in wheat. Says recent weather has been very hard on it—roots two-thirds out of the ground on account o recent thawing and freezing."

Clearances were: Wheat, 30,000 bushels; corn, 1,262,000 bushels; oats, 129,000 bushels.

Primary receipts were 435,000 bushels of wheat and shipments of 250,000 bushels against receipts of 255,000 bushels and shipments of 168,000 bushels, against receipts of 255,000 bushels, against receipts on corn were 908,000 bushels, with shipments of 560,000 and shipments of 385,000 last year.

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Feb. 14.—A decrease in the world's visible supply of wheat and an improved demand for the cash product were chiefly responsible today for a steady tone in the wheat market here. At the close wheat for May delivery was up 160 c. Corn was unchanged. Oats showed a gain of 16c. Provisions were 25c to 10c higher. Because of a decline of 160 c in the price of wheat at Liverpool the local market opened easier with pit traders inclined to sell. Initial quotations on May were a shade lower at Soc. Offerings were readily taken by commission houses and before the end of the first hour the market had become firm and prices ranged a triffe above the close of yesterday. Bradstreet's weekly report showing a decrease of 1.501.000 bushels in the world's visible supply. Prices on Board of Trade. Because of a decline of \$200 to local market opened easier with pit traders inclined to sell. Initial quotations on May were a shade lower at \$50. Offerings were readily taken by commission houses and before the end of the first hour the market had become firm and prices ranged a triffe above the close of yesterday. Bradstreet's weekly report showing a decrease of 1,501,000 bushels in the world's visible supply, against an increase of 782,000 bushels for the corresponding time of last year and the strength of cash wheat here and in Minneapolis, encouraged the bulls. During the day the high point for May was \$504. Clearances of wheat and flour were equal to \$5,000 bushels. Primary receipts were 48,500 bushels. Primary receipts of 265 cars, against the strength of cash wheat here and in Minneapolis, encouraged the bulls. During the day the high point for May was \$504. Clearances of wheat and flour were equal to \$5,000 bushels. Primary receipts were 48,500 bushels. Primary receipts were 48,500 bushels. Primary receipts of 265 cars, against an increase of \$25,000 bushels. Primary receipts were 48,500 bushels. Primary rec

were 48,600 bushels, against 295,600 bushels; a year ago. Minneapolis, Duluth and Chlcago reported receipts of 285 cars, against 266 cars last week and 218 cars a year ago. Trading in the corn pit was extremely quiet, but prices held steady because of liberal clearances at the seaboard and reports of drought in Argentina. Frimary receipts were large and the world's visible supply showed an increase of nearly 1,000,000 bushels. The close was steady. May opened unchanged to a shade higher at 43½ to 43½ 43½ c. sold up to 43½ 43½ c. and closed at 43½ c. Local receipts were 403 cars, with twenty-seven cars of contract grade.

ots cars, with twenty-seven cars of contract grade.

Oats had a firm undertone, although the volume of trading was small. Offerings were scattered and demand came mainly from commission houses. May opened unchanged at 30c, sold up to 3044304c and closed at 30c. Local receipts were 165 cars. ars.

The provisions market was strong and
The provisions market was strong and

The provisions market was strong and active. An advance of 2% in the price of live hogs caused an urgent demand by shorts and induced considerable buying for investment. The advance in prices was checked somewhat by selling on the part of local longs. The market closed strong with May pork at \$7.50g7.52½. Ribs were 7c higher at \$8.17½.

Estimated receipts for tomorrow: Wheat, twelve cars; corn. 440 cars; oats, 125 cars; hogs. \$8,000 head.

OMAHA. Feb. 14, 1906.

Unfavorable reports from the southwest and a lack of interest in the market kept wheat up to yesterday's prices and added a trifie during the day. It was reported that cold weather had followed the rains and snow in the winter wheat belt and this had its effect as well as Bradstreet's estimate of 1,00,000 bushels decrease in world's supply, which was more than expected. The duliness in the market was announced. Liverpool cables were 15 to 25 lower. It was reported that some of the shorts covered yesterday. May closed at 85 lc. July at 85 lc and September at 82 lc. Corn showed some gain. The break yesterday caught quite a number of orders waiting for it and the demand has picked up some, though European cables were lower. May corn finished at 43 lg. July at 43 lc. Coats were quiet as usual, although the market strengthened slightly. May closed at 35 lc. One hundred inquiries as to the amount of wheat remaining in the hands of farmers

Market is Sluggish Except for Few Specials

Which Are Active. PACIFIC DIVIDEND SETTLED UNION Placing Stock on a Six Per Cent Basts Has Little Effect, as Action

Had Been Largely

Anticipated.

NEW YORK, Feb. 14 - Speculative interest today in the stock market declined again to about hast weeks average. The movement was exceedingly singgish except in a rew special stocks and in them it was movement was exceedingly sluggish except in a rew special stocks and in them it was ress pronounced than yesterday.

The day's trading offered a tame conclusion to the long period of surmise over the Union Pacino dividend, which was settled today by the placing of the stock on a regular 6 per cent basis. The trading in that stock for the day was rather smarler than the recent average and the hositating vibration in the price extended to only about a point above or below last night's level. In the last few days the current opinion had become pretty well informed as to the intended action on this dividend, but the conjecture up to that time had covered a very wide range of possibilities as to the rate of the dividend and a supposed distribution of surplus in addition. The moderate inovement in the stock on the setting at rest of all those rumors was suggestive of a pretty thorough clearing up of speculative commitments.

The action of the copper stocks on the formal announcement of the transfer of control of the Heinze properties and the resulting settlement of litigation also offered abundant suggestions to the speculative mind that the mystery being cleared from the stock deprives it of much of its motive power in the market. Amalgamated Copper and Anaconda clearly showed the effects of realizing throughout the day, although occasional support made their

Copper and Anaconda clearly showed the effects of realizing throughout the day, although occasional support made their movements irregular. The Hill group had the continued benefit of a mystery still on, and the smelting and lead stocks also came under the revived influence of the possible wholesalt merger of copper and smelting companies, which it was hoped was to be included in the official announcement of the Montana settlements. These movements were of small effect, however, on the general market, which backed and filled with a narrow range during the day. on the general market, which backed and filled with a narrow range during the day. The money market, however, showed clearly enough the effect of the large requirements thus to be met. The rate of time loans for all periods up to six months was fairly established on a 5-per cent basis and higher rates were asked for short time loans. Call loan rates also were higher, ruling above 4 per cent throughout the day and getting as high as 5 per cent. Foreign exchange yielded sharply under large offerings of finance bills by bankers who placed the proceeds in the local loan market. The effects of the Union Pacific dividend and the copper settlement caused some apprehension that various other deals have been discounted already in the movement of prices. There was growing uneasiness also over the advance in money rates.

mess also over the advance in money rates.

The market closed under pressure and at
the lowest of the day.

LONDON, Feb. 14—Money was in good demand in the market today. Discounts steadled on the prospect of the early receipt of gold from india and elsewhere. Frices on the stock exchange were steadily firm and a moderate amount of business was transacted, operators taking a more hopeful view of the Algedras reports. Consols were in better investment demand. Americans opened duil, railied to slightly above parity, became inactive, fluctuated and relapsed during the last hour and closed easy. Foreigners as a rule were cheerful. Internationals were upheld. Japanese disoped and then railied on Tokio reports regarding loans. Peruvians were firm. Argentina rails were in demand on excellent traffic returns. Kaffirs were firm, being helped by the reported appointment of the royal commission, which is to inquire into Transveal affairs. Japanese imperial 6s of 1904 were quoted at 103.

PARIS—Feb. 14—Prices on the bourse today were firm and had an upward tendency. Russian imperial 4s were quoted at 83.35 and Russian bonds of 1904 at 48.00.

BERLIN—Feb. 14—Trading on the bourse today was quiet. Foreign Financial. BERLIN-Feb. 14. Trading on the bourse

OMAHA, Feb. 14.—Bank clearings for to-day were \$1,407,625.47 and or the corre-sponding date last year \$975,872.99.

BOSTON, Feb. 14.-WOOL.-The wool market is firmer, with increased buying under way from various points. The strength of the foreign markets has asunder way from various points. The strength of the foreign markets has assisted to this condition. Stocks of territories here are greatly reduced and trading is dull in this quality. Prices range high. There is no diminution of activity in pulled wools. Low A supers are quoted at 579-58c, with best grades at 62985c. Prices in the market range about as follows: Ohio and Pennsylvania XX and above, 3449986c; X, 337334c; No. 1, 35939c; No. 2, 389-60c; fine unwashed, 2692545c; quarter blood, unwashed, 25496334c; three-eighths blood, 334934c; half blood, 334934c; unwashed delaine, 37937c, fine washed delaine, 37937c, Michigan fine, unwashed, 24925c; quarter blood, unwashed, 32934c; three-eighths blood, 339334c; half blood, 324933c; unwashed delaine, 77925c Kentucky, Indiana, etc., three-eighths and quarter blood, 32933c. HOGS—As a result of yesterday's storm the receipts of hogs this merning were extremely light, for a Wednesday, being about an average Monday's run. Light receipts, a very good local demand and a higner provision market combined caused a sharp advance in the price of live hogs. While the opening was a little slow, owing to a difference of opinion between buyers and sellers, when once under way it was fairly active at an advance of a strong loc. The bulk of the hogs sold at \$6.51466.59, eas against \$5.71466.59 vesterday. Yesterday \$5.714 was the popular price, while today \$5.70 bought a good share of the receipts. The top today \$5.00, was loc ligher than anything bought yesterday and the highest price paid on this market since August of last year, when \$6.10 was touched. The close was not quite so strong.

Today's advance carries the market to the highest point touched so far this year and the highest of any month since last August, which was the high month of last year.

SHEEP—There was more trash in the sheep barn this morning than has been seen there before in a long time. It looked as if the feeders had gathered up all the poor lan. bs and ewes that they had in their feed lots and sent them in for today's market. Trash was never known to make a good market and today's experience furnished no exception to the general rule. What little good stuff there was in sight sold very readily at good, strong prices. Good western ewes sold at \$5.30 and western lambs at \$7.15, both lots being the same as were here yesterday and bringing the same prices. As high as \$5.70 was paid for old wethers.

as were here yesterday and bringing the same prices. As high as \$5.79 was paid for old wethers.

While the desirable kinds of both sheep and lambs sold at practically steady prices, as noted above, no one seemed to want the trash. The result was that the common to medium kinds of both sheep and lambs were slow and weak from start to finish. With buyers it did not seem to be so much a matter of price as of wanting the stuff at all, hence it was late before a clearance was effected.

The situation in the market this morning bears out what has been said in these

The situation in the market this morning bears out what has been said in these columns on a number of occasions of late to the effect that feeders should only send in desirable kinds of killers and should hold back everything else. Prices are so high at the present time that feeders can well afford to finish their sheep and lambs hefore trying to market them, and it will be greatly to their advantage to do so, unless all present prospects are entirely misleading.

Quotations for fed sheep and lambs are as follows: Good to choice lambs, Colorados, \$7.0007.25; good westerns, \$5.7506.25; good light weight yearlings, \$5.7506.25; good heavy yearlings, \$5.7506.25; good heavy yearlings, \$5.7506.25; good heavy yearlings, \$5.7506.25; good
