#### Pence in Cabinet.

Temporary pence has been patched up between Premier Witte and Interior Minis ter Durnovo, and the disruption of the cabinet has been averted at a momen when the strain was apparently at the breaking point. The latest developmen was due to the direct intervention of the emperor, who insisted that both men should remain in the cabinet. The agreement however, which rests only on the persona influence of the emperor, is none too stable The premier's desire for a relaxation of the repressive measures is understood t have prevailed for the present, but the Durnovo and Ignatieff forces are unwilling to accept the defeat as permanent and still have mighty influences at court.

Premier Witte's strength rests on the emperor's inflexible determination to ad pere to constitutionalism and on his recog nition of the fact that Count Witte is th best man to carry out the reforms.

ENDURANCE BOWLERS GOING SOME

Expect to Beat Record Before Half of Time is Gone.

Two of the four contestants did not start in the endurance bowling contest at the association alleys Saturday night and Marbie and Cochran bowled as a tenm against the record. Other members of the association bowled along as pacemakers to make the game good, and if the players can maintain the record long with which they started all existing records will be smanted before the finish at 7 o clock this evening.

evening.

For the first five games of the contest Marble averaged 32 and Cochran 190, and the games were lowled off in record time, about eight games to the hour, or four for about eight games to the hour, or four for about eight games to the hour, or four for each man, but the players will be going at a slower clip before the morning hours are far along. Nothing will be caten by the bowlers, as they will subsist on Life Malt, and if the records are broken this will be used all over the country as an advertisement for the manufacturer.

At midnight thirty games had been bowled, Marble having an average of 131 and Cochran 189. At that hour the contestants were both of them strong and showed none of the effects of the strain. As the record for twenty-four hours is now fifty-five games they are confident of having this beaten by 6 a. m. leaving thirteen hours to pile up a margin for other teams to go against.

### Girl Too Swift for Boys.

Miss Lillian Franks, the S-year-old daughter of Prof. C. L. Franks, had a runaway in the race at the Auditorium last night with two skate boys, Arthur Blomberg and Louis Slater. When the contestants appeared the large crowd, which filled all the boxes and lined the racecourse at the Auditorium, heaved a sigh of pity for the little girl who was to race against the larger boys, boys twice as large as she. They soon discovered they had no cause for their alarm, for as soon as the pistol was fired Miss Franks shot to the front and was able to run right away from the boys. She was much more skillful on the turns than the boys, who were never in the race from the start and lost never in the race from the start and lost by half a lap, as Miss Franks put on the soft pedal after she had a good lead.

While it is by no means authoritative, it is well worth while to repeat what the dealers, who have sold various makes of cars and know them all, say when they get together at dinner and are not trying to sell a car, but are expressing opinions frankly. It is a saving that has been many times repeated without challenge, that when you try to decide, without prejudice.
