# Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for Uneeda Biscuit, because they are soda crackers of the best quality. They are baked bettermore scientifically. They are packed better-more cleanly. The danip, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks bed for his people. His people have shown that they think Uneeda Biscuit the best of that food, nearly 400,000,000 packages having already been consumed.

#### IT HELPS CORRECT FAULTY LIVING

To maintain the high tension of a strenuous life men resort to the whip and spur of stimulation. Most men use tea, cofice and meats to excess, to which many add the use of tobacco, and acid and slocholic drinks, all of which stimulate but cause an accumulation of poleonous waste in the system.

When health falls they have reached the limit. To attempt to whip up the falling system with more stimulants or to deaden their growing pains with opiaics and narcotics only aggravates the trouble and brings on the calamity of drug habits.

As the system is already loaded with poisonous waste products the only wise course is to gleen out the polsons. This is what the Elimino Remedies do.
