Bids for City Hall Sites Opened at Meeting is of the City Council.

NO ACTION TAKEN TOWARD A PURCHASE

Three Propositions Looked Upon with Favor and the Choice is Likely to Fall on One of Them.

A larger crowd than has attended any suncil meeting for the last three months gathered in the council chamber last night. The early part of the session was taken up by routine business. The treasurer's monthly report was presented and placed on file. Several communications were read and among them the letter of M. Brunsky was referred to the city engineer. This referred to the property line and a survey of the alley. The perfected lease for the building at present used for the city hall was filed. The contract of Gus Hamel, to whom the building of the permanent sidewalks was awarded, was approved, subject to the approval of the city attorney. A petition to grade Thirty-ninth street from Q to Y streets was presented. Ordinances Nos. 1447, 1448 and 1449 were read the third time and passed. Each of these ordinances referred to the establishment of the grade, the first on Thirty-first from Jefferson to Harrison, the second on Thirty-ninth from Q to Y and the third the alley between Twenty-ninth street and Commercial avenue from C to E streets.

From these details the council proceeded to canvass the returns of the special election of last Thursday. The returns were verified and the result formulated by the council acting as a committee of the whole. There was no change in the reports preclously published. There was found to be 1.609 votes cast on the question and 1.1% for the bonds and 50 against. This gives a majority of 607 for the bonds.

A motion was introduced by Councilman Kiewit awarding all the job printing to Oliver & White, provided the prices asked were not excessive. This is the outgrowth of a bitter fight between the printers at the time of the letting of the annual con-

the officers of the recent registration and the revision. This is the largest item in the expense, which the Union stock yards is to pay to the city as per the agreement in the mass meeting of last morth.

In the midst of these affairs there was a motion introduced to have the city pay for the extension of the permanent sidewalks on the east side of Twenty-fourth street to the gutter line in those places where the narrowing of the streets had left a space between the old walk and the gutter newly constructed. This was carried and the item will be paid out of the intersection funds.

The council adjourned to meet again tonight. The city hall site may be decided on, and possibly the preliminary steps of the sower bond proposition will come up.

extremely valuable collection of photographs from all parts of the islands, which were reproduced by means of the stereoption last evening much to the delight of a fair audience.

The pictures began with numerous views in the Hawailan islands, on the Island of Guam, and the remainder largely of the Philippines. These gave a comprehensive idea of the cities of Manila and Ilo Ilo with their varied styles of architecture, the water front of Manila bay and the Pasig river and the busy life prevailing in the Americanized metropolis of the islands. Then there were shown the different types of people of the islands and their dress. the crude methods of cultivation, the valuable but inaccessible tumber resources of the country, because of the great forests being encumbered by an impenetrable undergrowth of tropical vegetation. The methods of transportation were shown by the omnipresent caribou, or water buffalo, and the information was given that nearly 90 per cent of these animals have perished within a few years from rinderpest.

The characteristic indolence of the average Filipino was shown with suggestive port and habitual drunkenness. They were pictures. Rheumatism is usually worse in Winter because of the cold and damp-

ness and other changed conditions of the climate. The occasional twinges

of the disease that are felt during the warmer weather are changed to pierc-

ing pains, the muscles become inflamed and swollen, the nerves get sore and

excited, the bones ache, and Rheumatism, the terror of winter, takes posses-

sion of the system. Then the sufferer turns to the liniment bottle, the

woolen clothes, the favorite plaster or some home remedy, in an effort to get

relief. But Rheumatism is not a trouble that can be rubbed away or drawn

out with a plaster; these things relieve the pain and reduce the inflammation,

but do not reach the real cause of the trouble, and at the next exposure an-

other attack comes on. Rheumatism is caused by a sour, acid condition of

the blood. The refuse matter and bodily impurities which should be carried

off through the channels of nature have been left in the system because of

indigestion, weak Kidneys, torpid Liver and a general sluggish condition of

the system. These impurities sour and form uric acid, which is absorbed by

the blood and distributed to the different muscles, joints, nerves and bones,
