SENATE COMMITTEE ACTS

Asks Interstate Commerce Commission to Report on Coal and Oil Transportation.

WASHINGTON, Feb. 20.—By unanimous vote the committee on interstate and foreign commerce decided today to make a favorable report on the Tillman resolution as amended. In its amended form the resolution provides for the investigation by the Interstate Commerce commission of "railroad discriminations and monopolies in all interstate and foreign commerce."

The compromise measure is a combination of the Tillman, Gillespie and Campbell resolutions. It retains the number and title of the Tillman resolution, but narrows it by striking out the proposed investigation of monopolies and discriminations in all products handled by railroads.

The measure is broader than the Gillespie resolution in that it includes all coal, while the Gillespie resolution related to bituminous coal, and it practically includes the Campbell resolution by extending the investigation to oil.

WASHINGTON, Feb. 20.—Warwick G. Hough of St. Louis, general counsel of the National Whiskey Liquor Dealers' association, spoke before the house committee on interstate and foreign commerce today in opposition to the Hepburn pure food bill.

He said the provisions relating to whisky did not insure purity and were misleading. A straight whisky may be either pure or impure, he said, and a blended whisky may be either pure or impure. All whisky is an artificial and not a natural product, and he said it was not fair to compel distillers to make public their formula for flavoring whisky as this is a trade secret and has nothing to do with the purity or impurity of the product so far as wholeness is concerned.

Such a change, he said, would reduce the expenditure and waste of energy for state elections one-half.
