M'PARLAND DENIES STORY

Colorado Detective Says Harry Orchard Has Not Confessed Murder.

CLAIMS TO HAVE EVIDENCE OF CRIMES

Many Deaths in Colorado Laid at Door of Western Federation of Miners by Man on Case.

DENVER, Feb. 20.—In an interview published here today Detective James McParland denies the report that he secured a confession from Harry Orchard, who is charged with the murder of former Governor Frank Steunenberg at Caldwell, Idaho, December 30 last, implicating the officers of the Western Federation of Miners and many others in the crime, though he claims to have ample evidence of their guilt.

"There have been statements made by various persons," said Officer McFarland, "but I know of none made by Orchard, and as I have been the only man at work on the case I think I would have known of it had there been one.

"I undertook the investigation of Governor Steunenberg's death at the request of his personal friend, Governor Gooding, and Governor Gooding has personally paid what expenses have been incidental on my investigation.

"I felt it my duty as a citizen of Colorado to uproot the gang and as such I undertook the work. These fellows thought that it was so long ago that I had broken up the Molly Maguires that I must now be in my dotage. They were not afraid of me. But there is a weak spot in every wall, especially such a one as that upon which the Western Federation was founded, and that weak spot I found. It will cost Moyer, Haywood and Pettibone and as many more their lives."

Talks of Many Murders.

McParland claims to have positive evidence that members of the Western Federation planned and carried out the assassination of Detective Lyte Gregory, killed mysteriously in West Denver two years ago, of Martin Gleason, superintendent of the Wild Horse mine at Cripple Creek, who was thrown down a shaft; of Arthur Collins, superintendent of the Smuggler-Union mine at Telluride, who was shot from ambush; of the killing of fourteen men in the explosion at the Independence depot near Cripple Creek June 6, 1904; of the murder of Martin B. Walley, who was killed last summer by an explosion in this city, and of other murders.

The killing of Walley is said to have been accidental, the nitro-glycerin with which he was killed having been placed on a vacant lot through which Chief Justice Gabbert of the supreme court was accustomed to pass with the intention of killing him.

McParland denied the charge that he had kidnaped the federation officers out of Denver.

"The papers are regular," he said, "and were served regularly. I could not be expected to notify their lawyers that Moyer, Haywood and Pettibone were in jail and about to be taken to Idaho.

"They knew that if they were captured they would never be able to clear themselves and were about to leave the country when arrested. They had planned to blow up the train if an attempt were made to remove them to Idaho and for this reason I insisted on having a special train to take them to Idaho."

Mine Owners Employed Orchard.

The Times today says: "Harry Orchard, who is under arrest in Idaho charged with assassinating former Governor Stounenburg, and who has made a confession charging the leaders of the Western Federation of Miners with instigating a number of dynamite outrages and murders, was in the employ of the Cripple Creek Mine Owners' association as a detective during the great strike in the Cripple Creek district. This most important fact will be used in the defense of the accused labor leaders when they are brought to trial in the courts of Idaho.

The following facts have come to the Times from a most reliable source and have been carefully verified:

Orchard was a member of the Western Federation of Miners and employed in the Cripple Creek district when the famous strike was ordered. In November, 1903, he approached a conductor named Jones on the Florence & Cripple Creek railroad and introduced himself as a brother Mason. "I am a member of the Miners' union," said Orchard, "and last night I heard some of the members of the union planning to wreck a train on this road. I do not believe in such methods, and I thought I would come to you and tell you of the plot. I picked you out because you are a Mason."

Jones immediately took Orchard to Scott and Sterling, the detectives for the Mine Owners' association. He repeated his story, and Scott and Sterling immediately employed him as a detective to work for the Mine Owners' association. He was instructed to attend the meetings of the union and report daily.

Orchard continued in the employ of the Mine Owners' association until June, 1904. The day before the explosion which wrecked the Independence station on June 6, and Orchard disappeared. A mob took possession of Cripple Creek and Victor and attempts were made to force confessions from many suspected persons. A young man was suspended by his thumbs, and he finally agreed to tell the name of the fiend who had caused the explosion. When he was lowered to the ground he said: "Harry Orchard did it."

The pursuit of Orchard was taken up, bloodhounds being employed. Orchard and a companion named Neville immediately after the Independence explosion secured a rig and drove out of Cripple Creek. They went across the country, avoiding the more important towns. When they reached Greeley they disposed of their rig and took a train for Cheyenne where Orchard received a considerable sum of money from friends in Colorado and disappeared. He returned to Denver last April and visited the headquarters of the federation in this city. He said that he feared arrest because of the charges made against him in connection with the Independence explosion, and had therefore changed his name to Hogan. For a time he worked for various insurance companies in this city and last August left Colorado, saying he was going to New York. The next heard of him he had been arrested in Idaho charged with the assassination of Steunenburg.

Neville was arrested in Wyoming and taken back to Cripple Creek, but no serious attempt was ever made to prosecute him. Sheriff Bell of Cripple Creek claims that Neville confessed to him that he and Orchard dynamited the station. It is said that Neville is now dead. This latter statement, the Times has been unable to verify.

"I will not say whether or not Harry Orchard did make such a confession as attributed to him," was the statement made by Detective James McParland today. "Numerous efforts were made to intimidate the man into saying things against himself, but I refused to allow this."

Prisoners Employ Attorney.

BOISE, Ida., Feb. 20.—Attorney Richardson of Denver arrived here today and obtained from Governor Gooding permission to see his clients, President Charles H. Moyer, Secretary William Haywood and G. A. Pettibone, former members of the executive committee of the Western Federation of Miners. For several hours the attorney was in consultation with them. No one has been permitted to see the prisoners except their counsel.

The statement which Detective McParland is reported to have made in Denver to the effect that so far as he knows the prisoner, Harry Orchard, has made no confession is received with skepticism here. It is stated persistently that Orchard has made statements which will be used against the other prisoners.

Steve Adams, alias Dickson, who was arrested yesterday at Haines, Ore., and taken to Baker City, will be brought to Boise as soon as his extradition can be arranged He is charged with complicity in the assassination of former Governor Steunenberg. Jack Simpkins, another suspect, who had been in Haines and vicinity for some time, cannot be found by Penitentiary Officer Robbins and the detectives who have been searching for him. A grand jury will meet on Monday next at Caldwell to investigate the assassination.

Two Arrests in Oregon.

SALEM, Ore., Feb. 20.—Governor Chamberlain has granted requisition papers for the arrest and return to Idaho of J. L. Simpkins and Steve Adams, wanted as accomplices in the murder of former Governor Frank Steunenberg of Idaho. Simpkins is believed to be in this state. Adams is under arrest in Baker City.

JAMES KERWAN GOES TO DENVER

Vice President of Western Federation Takes Charge of Miners' Union.

TERRY, S. D., Feb. 20.—(Special Telegram.)—James Kerwan of Terry, first vice president of the Western Federation of Miners, on receipt of a telegram announcing the arrest of Hayward and Moyer left last evening for Denver to assume charge of the affairs of the federation during the absence from Denver of the head officers of the organization.

ILLINOIS MINERS' MEETING

Annual Convention of District Union is Now in Session at Springfield.

SPRINGFIELD, Ill., Feb. 20.—The annual convention of the Illinois District Union Mine Workers of America began here today. State Secretary-Treasurer Ryan, in his annual report, dwelt almost entirely on the likelihood of a strike. He said Illinois miners were well prepared for a strike. He declared that on January 31, 1906, they had $39,000 in their treasury. He referred to editorials which had appeared in leading papers of the country, in which it was stated that in case of a strike the miners would probably rely on intervention by President Roosevelt, as they had in the strike of two years ago. Mr. Ryan said his advice to the miners, in case of a strike this year, was to refuse to ask or accept the intervention of President Roosevelt or any other person.

Announcement was made at today's session of the officers elected by a vote which was taken two weeks ago. The results show that the president, vice president and secretary-treasurer were re-elected, as follows: President, H. O. Perry, Spring Valley; vice president, W. E. Smith, Coal City; secretary-treasurer, W. D. Ryan, Springfield. Thomas Burke, Springfield, was elected international board member.

INDIANAPOLIS, Feb. 20.—Secretary-Treasurer W. B. Wilson of the United Mine Workers admitted today that he would leave Independence for Pittsburg tonight for a conference with President John Mitchell and Vice President T. L. Lewis which will be held tomorrow night. What the subject of the conference would be made Wilson would not divulge.

CLEVELAND, Feb. 20.—The full strength of the American Federation of Labor was pledged to the cause of the miners of Pennsylvania and other states by Samuel Gompers, president of the federation, here today. "I should not speak of a coal strike," he said. "I hope it will not come to that.

"For the Federation of Labor, however, I may say that it will support every reasonable demand of the miners in every possible way. We shall be glad to help them to avoid a strike, if possible. If not we shall certainly give them every aid in our power."

ACTRESS KILLED BY A FALL

Alleged Murder of Woman in New York Proves to Be Death from Accident.

NEW YORK, Feb. 20.—The police were called upon today to investigate the death of Gussie Hart, an actress 50 years of age, who died in a cab while being taken home by several companions. The matter at first was reported as a possible murder and several arrests were made. It developed, however, that the woman had fallen down a flight of twenty steps at an uptown cafe, where she had spent several hours with a party of friends. Her skull was fractured and she was hurried home. Suspicion was aroused by the fact that those who were with the woman left her house after summoning a physician. The coroner tonight discharged all who were arrested.

Ozomulsion

The Cod-Liver Oil Emulsion "Par Excellence."

The storage battery of the human system is the heart.

Keep pumping good, rich, red blood into that organ and replenish the worn out tissues of your body by the aid of a tonic which will assist nature in her work.

To be strong and vigorous is a blessing.

After the age of thirty-five the tissues refuse to renew themselves without aid.

The zenith has been reached, and decline begins and is readily apparent unless advantage is taken of the researches that knowledge and science have put at our command.

Ozomulsion is one of its greatest products.

Ozomulsion stands on a plane by itself.

It is the greatest nerve and bone food on the market.

Beneficial results are obtained after the first dose.

By its use the whole system undergoes a complete change.

It creates new, rich blood, destroys disease germs, invigorates the nerves, and is a wonderful mental stimulant.

Begin today taking Ozomulsion, and the change from a worn-out, nervous state to a strong, healthy body and mind will become at once apparent.

We don't want you to take our word for it, but try it and be convinced.

There are two sizes—8-oz. and 16-oz. Bottles; the Formula is printed in 7 languages on each.

MOROCCAN SITUATION ACUTE

Germany Proposes International Control of Moroccan State Bank.

FRENCH DELEGATES RESENT ACTION

Fact that It Does Not Recognize France's Position as Chief Creditor of Sultan Creates Bad Impression.

ALGECIRAS, Feb. 20.—The delegates to the Moroccan conference are most pessimistic over the results of the negotiations.

Germany's reply rejecting the French proposals for policing Morocco adds that Germany is ready to examine any further propositions France may wish to make, but the French seem not to have any further propositions to present.

Efforts to reach a private agreement have failed. France's and Germany's projects for the creation of a state bank in Morocco were submitted to the conference today. Germany's proposal created even a worse impression among the French and British delegates than did last night's rejection of the French project relative to police. Both the French and the British delegates consider that the German proposition shows an absolute disregard of France's position as the largest creditor of Morocco by giving every power equal controlling capacity of the administrative body without reference to preferential claims relative to existing loans.

Other points with regard to control of the finances of Morocco also aroused objections. Count von Tattenbach, the junior German delegate, has repeatedly expressed the view that the settlement of the bank question was merely delayed by the necessity of first dealing with the police, and this had led the French and British delegates to the belief that Germany was willing to effect a compromise on the financial controversy in return for French moderation regarding police. They consider that France's consent to entertain Germany's demand for the admittance of a third power as the controlling element in the police amply proves its desire for the success of the conference, and therefore the uncompromising nature of the present German proposal is very disappointing to them.

Many of the delegates of the other powers also take a pessimistic view of the situation, but Henry White, the head of the American delegation, is still inclined to believe that there is a possibility of an eventual agreement.

France to Appeal to Conference.

PARIS, Feb. 20.—Germany's rejection of France's proposal at Algeciras, that the proposed Moroccan police system shall be French and Spanish, has given renewed gravity to the Franco-German situation. It is officially announced that Germany's action leaves France no course but to terminate the private negotiations and appeal to the judgment of the world before the open conference. This decision suspends the meetings between M. Revoil, head of the French mission at Algeciras, and Herr von Radowitz, chief of the German delegation, at which they have been seeking to find an accord. The failure to agree promises to result in a prolonged crisis, in which each side maintains the position which it took up before the open conference.

Reports are in circulation to the effect that France intends to withdraw from the conference, but they are not confirmed, and the determination of the French delegates to carry the case before the open conference shows that the withdrawal stage has not yet been reached. It is expected that the strained situation will have the effect of renewing the alarmist war reports and of arousing public apprehension.

Later, a semi-official note was issued announcing France's intention to discontinue private negotiations and to carry the question of policing Morocco before the judgment of the world in the open conference. The note states that it is the desire of Germany to have the conference fail.

The Bourse showed uneasiness as a result of the Moroccan situation, but was not panicky.

France Offers Compromise.

LONDON, Feb. 21.—The correspondent at Copenhagen of the Daily Mail learns that Baron de Courcel, who represented the French government at the funeral of King Christian, tried to obtain an agreement with Germany on the Moroccan question by using French financial influence. He offered on behalf of the French government, the correspondent asserts, to open the Paris bourse to dealings in German industrial shares, thus reversing the recent refusal of France to accede to the request of the great German electrical companies to get their shares quoted in Paris. Baron de Courcel, the dispatch continues, offered to permit dealings in these and other German industrials, provided Germany would agree to give France a free hand in Morocco. It is stated that Emperor William at first was taken aback, but later seemed inclined to consider the offer.

FITZGERALD DIVORCE DENIED

English Court Holds that the Defendant is a Resident of Ireland.

LONDON, Feb. 20.—The application for the divorce of Mrs. Fitzgerald from Gerald Purcell Fitzgerald, formerly owner of a ranch near Los Angeles, Cal., and a large land owner in Ireland, has failed, the divorce court ruling that Mr. Fitzgerald was domiciled in Ireland, that that therefore the English court had no jurisdiction. Mrs. Fitzgerald, who is a daughter of John Nicholls of Uniontown, Pa., testified that she met her husband during a journey from Chicago to Los Angeles in 1898. Shortly afterwards she married Mr. Fitzgerald, who, she said, always claimed to be an Englishman.

The couple have been separated for some time.

National League Contracts.

NEW YORK, Feb. 20.—Harry C. Pulliam, president of the National Base Ball league, today announced the following contracts and releases:

Contracts—With Cincinnati, Ed J. Phelps, J. C. Delehanty, Orville Overall, Charles E. Chech, Charles W. Harper, Robert Ewing, Fred W. Odwell, John Lobert, Thomas W. Corcoran, C. C. Carr; with Brooklyn, John Butler, Emil Batch, Charles A. Alperman, Charles Malay, Phillip Lewis, James Casey, William Bergen; with Chicago, Walter Mueller, Mordecai Brown, P. J. Moran.

Releases—By Cincinnati to San Francisco, Charles E. Street; by New York to Toledo, William Clarke; by Boston (unconditionally), William Stohr and Irving K. Wilhelm.

Indoor Tennis Tournament.

NEW YORK, Feb. 20.—The seventh annual lawn tennis tournament of the indoor national championship began today on the courts in the Seventh regiment armory in this city. Twenty-one players of the ranking class are entered in the singles. Hugh Tallant, a former Harvard player, won the feature match of the day by defeating W. B. Cragin, jr., Seventh regiment, by a one-sided score. C. C. Grand, former indoor champion, and H. L. Westfall of Brooklyn, were also winners. The latter defeated A. L. Hoskins of Pennsylvania after a hard match, twenty-two games being necessary to decide the final set.

Sporting Brevities.

Ganzel knew what he was worth to himself when he paid $3,000 for his own release that he might manage and play with his own club in Grand Rapids.

The meeting of the Omaha Rod and Gun club scheduled for Friday night has been changed to the city hall instead of the sporting goods house, as was previously announced.

It is stated that 600 automobiles were sold to local people at the Chicago Automobile show. If the Omaha show will do but one-tenth as well locally the promoters will be satisfied.

Manager McGraw of the New York Giants will send his pitchers to the south before the rest of the team, so when the others arrive they will have seasoned pitchers to bat at.

And Omaha is to have an automobile show of its own. The Auditorium will make a fine display ground and the stage and hallways upstairs will make good room for booths for the accessory men.

Nebraska has followed in the footsteps of Michigan and Minnesota and engaged a coach for foot ball. This looks as if the institutions were not seriously considering letting the great game of foot ball go by the board.

The opening of the National base ball season will be watched with considerable interest, as many changes have been made in the makeup of the teams. McCloskey has given it out that he will be the boss of the St. Louis team, and with the discord cut out this team will have to be considered to some extent. And then Hanlon will have a free hand again and he may make the champs.

FOREIGN RESIDENTS EXCITED

News from China, Brought by Mail from Japan, is Disquieting.

OFFICIALS ARE SHOWING BAD TEMPER

At Present it is Dangerous for Foreigners to Visit Native Towns in Southern Provinces of Empire.

VICTORIA, B. C. Feb. 20.—The steamer Athenian, from the orient, brings advices of the increase of anti-foreign feeling in China, to which some officials are giving encouragement. Shanghai papers call attention to the anti-foreign action of Viceroy Chou Fu, following the recent riots regarding the mixed court at Shanghai, he having decided to build a jail for the custody of prisoners held at the mixed court at a cost of $750,000. The North China Daily News says there is absolutely no need for such an establishment, the new municipal jail serving the purpose, and classes the action as simply due to ill-feeling and ill-temper, translating into action the anti-foreign feeling.

In south China the anti-foreign feeling is even more marked. Arrivals from Hong Kong and Canton say visits to the native cities now involve risking the traveler's life. The situation in Canton and vicinity is intensified because of discontent anent the new Chinese taxation law, which has resulted in the assassination, January 21, of the governor general of Kwantung province.

That the anti-foreign feeling is widespread is evidenced by risings against the French priests in Yunann, far to the westward, and in Szechuan. The Kolao Aue society is planning anti-foreign risings. The viceroy of Yuanann, in reporting the attacks on the French missions, says the priests at Likiang Fu have shot and killed several Chinese.

No Anxiety at Peking.

PEKING, Feb. 20.—Foreigners here are receiving telegrams from relatives, indicating that there is a feeling of alarm abroad over the possibility of an outbreak of Chinese hostility. No disquiet whatever is felt at Peking.

All the foreign ministers agree that the Chinese here, both officials and people, were never more friendly toward foreigners personally, although following an independent line politically. There is no anti-foreign movement in north China likely to lead to hostilities. The troubles at Canton and Shanghai are not felt here.

It is reported from Honan that members of the Bigknife society have killed a number of Chinese Catholics as the result of a local quarrel.

No Apparent Danger.

RICHMOND, Va., Feb. 20.—A cable message from Dr. R. J. Bryan, a missionary, has been received from Shanghai, China. It reads as follows: "No apparent danger."

Letters which came from the missionaries show that there is a state of unrest in China, but they do not seem to be alarmed about conditions.

One person in writing from Yang Chow says: "The great anti-foreign feeling will probably show itself for a while, though we have not felt much of it in Yang Chow."

Another writing from Canton says: "Things are in a somewhat disturbed state politically and robbbery is very common, but we have been left in peace."

Japan is Interested.

TOKIO, Feb. 20.—The Japanese government, although asserting that it has no serious apprehensions of an anti-foreign rising in China, has called the attention of the Chinese government as to the advisability of adopting measures to prevent the present feeling of unrest from developing into an anti-foreign movement.

BRIEF NEWS FROM FAR EAST

Mail from Orient Tells of Suicide of Educated Corean as Protest.

VICTORIA, B. C., Feb. 20.—Another patriotic suicide to protest to Japanese occupancy in Corea is reported. Mr. Chong, reputed the most prominent of Confucian literati in Corea, announced that he would commit suicide in protest to the convention with Japan, but which the police prevented him from doing and returned him under guard to his native place. His wife refused to admit him, stating he would be eternally disgraced if he tamely abandoned his determination. He then went to a temple and swallowed opium, leaving a farewell document addressed to the Corean people and another to his felow literati, declaring that death was the only recourse at this juncture for a true Corean patriot.

Fire at Tokio destroyed 445 houses in the Asakusa district on January 31. Several people were burned to death.

Telegrams from Vladivostok to Japanese papers report the destruction of a train loaded with soldiers, which was blown up and precipitated into a river. The loss of life is given as 3,000, but this is considered exaggerated. On January 25 another collision occurred between Cossacks and prisoners from Japan, these latter unarmed, and 1,500 were reported killed or wounded. About one-third of the wounded were taken to hospitals, the others being left lying on the snow.

Heavy rains in Java has caused great floods, many natives being drowned. The destruction of growing paddy and damage by the floods will cause great distress.

Prince Piluta, a Mongol prince, chieftain of the Turguta Atill, has been given permission at Pekin to travel in the United States.

The Japanese government has named March 10 as the date to be celebrated as the anniversary of the war.

JAPANESE WANT PHILIPPINES

Some of the Newspapers Advocate Buying Islands from the United States.

VICTORIA, B. C., Feb. 20.—Some Japanese newspapers are advocating the purchase of the Philippines from the United States, according to advices received by the steamer Athenian. The Yorodsu Hocho says the Philippines have cost the United States much money and no substantial advantages have been secured, and that Japan could meet with more success, as America has failed because of racial differences betwen ruler and ruled and the long distance which separates the government and the islands. Concluding, the Yorodsu Hocho illustrated Japanese success in Formosa.

The terrible distress prevailing in the three famine-stricken districts of north Japan is exciting profound sympathy elsewhere in the empire, the former tendency to refuse foreign aid having vanished in view of the extreme need. Government aid has been organized and relief work begun. Later advices from the famine zone show that hundreds of persons, including women and children, are perishing from starvation, aggravated by bitter cold.

FIRST LEVEE AT BUCKINGHAM

King Edward Does Not Go to St. James Palace to Hold Function.

LONDON, Feb. 20.—King Edward held the first levee of the season at Buckingham palace at noon today, thus avoiding the state procession to St. James palace, where the levees are usually held. The occasion, however, was not robbed of its picturesqueness, there being a large attendance of cabinet ministers, the leading members of the opposition and the foreign diplomats, among whom was Ambassador Reid and members of the American embassy, including Delancey Jay, Ambassador Reid's private secretary, and Lieutenant Commander John L. Gibbons, naval attache to the embassy, who on this occasion attended his first levee.

Dangers that Threaten the Child's Life.

(From the Chicago Tribune.)

"Health Commissioner Reynolds of Chicago, in his latest bulletins of the department, says that the worst danger to which the children of Chicago are now exposed is the neglected cold."

It would be unwise for the health commissioner of a city to recommend any remedy for a cold; but should he do so, Chamberlain's Cough Remedy would certainly head the list as the most efficacious for colds, croup and whooping cough in children, as a remedy that can always be depended upon to effect a speedy cure and that is pleasant and safe to take. This remedy contains no opium or other harmful drug and may be given as confidently to a baby as to an adult. Its great worth and merit in the treatment of these diseases has been attested by many thousands of mothers.

DOCTORS FOR MEN

THE MEN'S TRUE SPECIALISTS

We are living in an age of specialism, an age when success can only be attained by the concentration of every thought upon the unswerving pursuit of a single object. We are precisely such specialists. This accounts for the difference between success and failure in the treatment and cure of diseases of men. The physician who tries to explore and conquor the whole field of medicine and surgery becomes proficient in no particular branch. We have confined ourselves entirely to a single class of diseases and complications that ensue, and mastered them.

We do not scatter our faculties, but concentrate them on one particular specialty. We have made a life study of diseases and weaknesses peculiar to men, spending thousands of dollars in researches, evolving a special system of treatment that is a safe and certain cure for skin, nervous, blood and private diseases.

If you are drifting in a sea of sickness and disease toward the rocks and shoals of chronic invalidism, you should consult the eminent specialists of the STATE MEDICAL INSTITUTE at once, before it is too late.

We Cure Safely and Thoroughly:

Stricture, Varicocele, Emissions, Nervo-Sexual Debility, Impotency, Blood Poison (Syphilis), Rectal, Kidney and Urinary Diseases

and all diseases and weaknesses of men due to inheritance, evil habits, excesses, self-abuse or the result of specific or private diseases.

We make no misleading statements, deceptive or unbusinesslike propositions to the afflicted, neither do we promise to cure them in a few days, nor offer cheap, worthless treatment in order to secure their patronage. Honest doctors of recognized ability do not resort to such methods. We guarantee a perfect, safe and lasting cure in the quickest possible time, without leaving injurious after-effects in the system, and at the lowest cost possible for honest, skillful and successful treatment.

FREE Consultation and Examination. If you cannot call write for symptom blank. Office Hours—8 a. m. to 8 p. m. Sundays, 10 to 1 only.
