SENATE PASSES FOOD BILL

Heyburn Measure Goes Through Upper House by Vote of 63 to 4. SOME PROVISIONS OF PROPOSED ACT. It Makes It a Misdemeanor to Manufacture or Sell Misbranded or Adulterated Foods, Drugs or Liquors.

WASHINGTON, Feb. 21.—After fifteen years of more or less serious consideration of the subject, the senate today passed a pure food bill by the decisive vote of 63 to 4. The vote was taken after a day devoted almost exclusively to debate of a desultory character on the measure. Several efforts were made to amend the bill and the committee accepted a number of suggestions, but only those thus accepted were included in the bill as passed. The bill makes it a misdemeanor to manufacture or sell adulterated or misbranded foods, drugs, medicines or liquors in the District of Columbia, the territories and the insular possessions of the United States and prohibits the shipment of such goods across any state boundary to another country. It also prohibits the receipt of such goods. Punishment by fine of \$500 or by imprisonment for one year or both, is prescribed. In the case of corporations, officials in charge are made responsible.

ARMY BILL IN THE HOUSE. Congressman Hull Faces Necessity of Stronger Language. WASHINGTON, Feb. 21.—Chairman Hull of the military affairs committee, in presenting the army appropriation bill to the house today urged the necessity of complete preparedness as to our army and navy for trouble in the orient. He declared that the army was not prepared to defend its position in China might as well haul down its flag and quit the Pacific. Incidentally Mr. Hull pronounced Minister Rockhill at Peking guilty of indiscretion in indicating to Chinese officials that the United States intended returning the 230,000 boxes of munitions. Statements of this kind he said will be taken by the Chinese as an indication that the United States was afraid rather than liberal. Mr. Hull scouted the idea that Japan was interested in stirring up trouble in China to injure the United States. Japan's interests in China, he said, were identical with those of the United States and preservation of peace there was the only manner in which they could be maintained. Speeches on tariff, immigration and the Payne customs house bill consumed the balance of the session.

FOOD AND STUDY. A College Man's Experience. "All through my high school course and first year in college," writes an ambitious young man, "I struggled with my studies on a diet of greasy, fatty foods, being especially fond of cakes and fried things. My system got into a state of general disorder and it was difficult for me to apply myself to school work with any degree of satisfaction. I tried different medicines and food preparations, but did not seem able to correct the difficulty. Then my attention was called to Grape-Nuts food and I sampled it. I had to do something, so I just buckled down to a rigid observance of the directions on the package, and in less than 10 days began to feel better. In a few weeks my strength was restored, my weight had increased, I had a clearer head and felt better in every particular. My work was simply sport to what it was formerly."

Pythians Hold Banquet. MISSOURI VALLEY, Ia., Feb. 21.—(Special.)—Anchor lodge No. 96 of the Knights of Pythians held a banquet at Masonic hall Monday night, which is considered a great success. It was attended by 100 guests. A musical program was also tendered and dancing ended the entertainment.

Surveying for Drainage Ditch. OMAHA, Ia., Feb. 21.—(Special.)—A surveying party started this week to make an examination of a route for a new drainage ditch extending from the Woodbury county line, north of Rodney, running thence southerly along the Little Sioux Valley to the intersection of the Monona-Harrison ditch. This ditch is calculated to drain several thousand acres of land now subject to overflow and low wet for cultivation, which is believed will materially help the drainage of the upper Sioux Valley, which is now often flooded by the waters of the Little Sioux river. R. S. Fessenden is the commissioner of the drainage districts, but the party now at work is under the charge of C. L. Huff, engineer of Harrison & Co. The matter is regarded as practical and the work has the endorsement of most of the property owners in the proposed district.

Chairman Hull said that the situation in China made it necessary to keep the army and navy in efficient condition to meet emergencies. It was necessary, he said, for us to be ready to fight for our rights. Mr. Hull characterized as injudicious the utterances of Minister Rockhill that the United States intended to return 230,000 its share of the boxes of munitions. The minister, he said, did not have a proper conception of the character of the Chinese people when he offered them a bribe of 230,000 to be good. "They would take such an offer as an indication of our being afraid of them. Mr. Rockhill should have let whatever aid was necessary come from the government direct. Mr. Hull read a letter rebutting the idea that Japan was the author of the trouble. He said the Boxer indemnity should be used to build battleships rather than returned to China. He said it was in the interest of Japan to retain order in China. Every government that has business relations with China must be ready to protect themselves or pull down their flag and leave the Pacific ocean and destroy their trade."

Resolution to Investigate Relations of These Corporations to Railroads. WASHINGTON, Feb. 21.—At the suggestion of Senator Tillman, the house committee on interstate and foreign commerce made an amendment in the resolution today which it has agreed to recommend for favorable action for the investigation of alleged railway monopoly of coal and oil. As the resolution was originally framed it provided for an investigation by the Interstate Commerce commission as to whether railways own the coal and oil they haul, but it was the purpose of the committee to extend the investigation definitely to all railway ownership of the mines and oil properties. To make the resolution clearer an amendment was accepted which specifically provides for the investigation of the ownership of coal and oil companies.

Denies Clemency to Hoch. Illinois Board of Pardons Sees No Reason to Commute "Blue-Beards" Sentence. SPRINGFIELD, Ill., Feb. 21.—The State Board of Pardons met at 10 o'clock this morning in their rooms and proceeded to the executive office, where they discussed the petition of Julian Hoch, condemned murderer, for commutation of sentence to imprisonment. After going over the evidence thoroughly, at 12:45 o'clock decision was arrived at to deny Hoch's petition and announcement was made to that effect. The board of pardons makes a lengthy statement of the evidence they reviewed. The evidence of Dr. Zeit and Mrs. Amelia Fischer-Hoch and came to the conclusion that there was nothing in this evidence to justify overturning the judgment of the lower court, sustained by judgment of the supreme court. Dr. Zeit testified that he did not know whether Mrs. Hoch had died from arsenic poison or not and that presence of Bright's disease would not affect death from arsenical poisoning.
