Dangers that Threaten the Child's

(From the Chicago Tribune.)
"Health Commissioner Reynolds of Chicago, in his latest builetins of the department, says that the worst danger to which the children of Chicago are now exposed is the neglected cold."

It would be unwise for the health comissioner of a city to recommend any remedy for a cold; but should he do so. Chamberlain's Cough Bemedy would certainly head the list as the most efficacious for colds, croup and whorping cough in children, as a remedy that can always be depended upon to effect a speedy cure and that is pleasant and safe to take. This remedy contains no optum or other harmful drug and may be given as confidently to a baby as to an adult. Its great worth and merit in the treatment of these diseases has been attested by many thousands of moth-

Candidacy.

The Douglas County Republican club met last night in the rooms of the Swedish Library association on North Pifteenth street, expecting to make endorsements of municipal candidates. This was not done, as the committee appointed to make recommendations was not ready to report. It is said no trouble was experienced in deciding Sten upon Hennings as the man for mayor, but some difficulty has been experienced on councilmanic offices. Anticipating a largely attended meeting next Pricay night, President Peterson suggested that larger and more central quarters be secured for the ably and a committee composed of the president, Emil Wahlstrom, Gus Hamel and A. M. Bach was appointed to take the matter in hand. Postal cards will be sent to all of the 20 members. Seven new applications for membership were lavorably

Library Board Meeting. The library board field conthly session last night, our ers present except West an monthly session last night, with all members present except West and Perine, who were absent. The report of the committee on salaries was adopted. This changes the time of service necessary for an increase of salary on the sliding scale from one year to six mentils. An employe of the library will now get at the end of six months the same increase as formerly to-crived at the end of a year. The salary will be increased every six months after that up to the prescribed limit.

The board allowed bills to the amount of \$1.67. The meeting was a short one and only these matters were considered.

THE BLOOD DISEASE!

When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet

through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges its sore on my loft temple for years. It poison into these places, they eat deeper into the surrounding flesh and tissues, growing larger and more this wind about ten years ago and I have offensive in spite of all the sufferer can do, until the entire health is affected. Washes selves powders and such treatment are desirable for the surrounding flesh and the poisonous matter was out it healed.

affected. Washes, salves, powders and such treatment are desirable for the

reason that they are cleansing and also help to relieve the pain, but they are in no way curative. The blood is filled with poison, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evidences of impure blood. It goes down to the or root of the trouble and cleanses the circulation PURELY VEGETABLE, of all poisons and impurities. S. S. S. enriches the blood and reinvigorates the different mem-

bers of the body so that the impurities and waste matters can pass off as nature intended. Then the discharge ceases, the sore scabs over, new flesh is formed, and the place heals permanently. Book on Sores and Ulcers and any medical advice you need without charge.

We have observed the carract blighting influences of abuses and indiscretions in the young and middle-aged, suppling the vital forces, undermining the foundations of mannood; clouding the brightest minds and destroying all noble thoughts and aspirations; family circles disrupted and the poisonous fangs reaching out and blighting even succeeding generations. We have devoted many years exclusively to treating this class of troubles, attended with the greatest success, and are enabled to give this class of sufferers the benefit of our extended experience in treating diseases of this nature.

We have investigated and tested all known methods for the treatment and curs of private diseases and weaknesses of men, which give us the right to judge between the false and the true, between shallow pretension and solid worth, between substance and shadow. Musty theories cannot stand out against our mode of treatment against progressive medical science, new discoveries, and undisputed facts of diseases cured to stay cured.
