

YOUNG WOMEN TAKE UP TASK

Soliciting Teams for Y. W. C. A. Building Fund Now for Success. HUNDRED PLEDGE TEN THOUSAND DOLLARS.

One hundred young women sat down to a banquet at the Young Women's Christian association Saturday evening and pledged themselves to the raising of \$10,000 toward the new building projected by the association.

Miss Helen Barnes, industrial secretary under the American committee of Young Women's Christian association, was the guest of honor and principal speaker.

"In entering upon this campaign," she said, "thoroughly believe in the thing for which you are working."

And then she pictured the new building with its auditorium, school of domestic science, rest rooms, lunch rooms, study rooms, library and even a roof garden.

Rules for the Teams. Mrs. George Tilden and Mrs. W. P. Harford also spoke briefly and Mrs. Emma Myers, general secretary, announced the following rules which shall govern the soliciting by the teams.

1. There shall be ten companies, consisting of one captain and nine lieutenants in each company. 2. Solliciting shall be among wage-earners only.

Brief talks by the team captains followed indicating that all had caught the enthusiasm. All the teams are well organized, several having adopted notices or "yells."

The teams will begin immediately to secure pledges preliminary to the campaign, which is scheduled for March 25 to April 15.

THE VALUE OF CHARCOAL. Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value taken into the human system for the same cleansing purposes.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges; the charcoal being mixed with honey.
